## THE PRESS BUREAU

### Correspondence from Washington

It is said that the "white race" is behind him. How far, it will take his mathematical genius to tell.

If B. F. Williams is appointed in the public schools of the District of Columbia, then indeed have we wandered from all that is progressive and best. We want no revival of the rumors in the case of Evans and Harper. It is unthinkable that such a thing would be considered. Will Mrs. Terrell submit to it?

The papers of Friday of last week were full of comments upon the contemplated disturbances consequent upon the sending of colored soldiers to New York state. It is too bad that the war secretary cannot operate his department without using venomous southern papers to stir up race hate by advertising in advance what he intends to do with his men in the ranks.

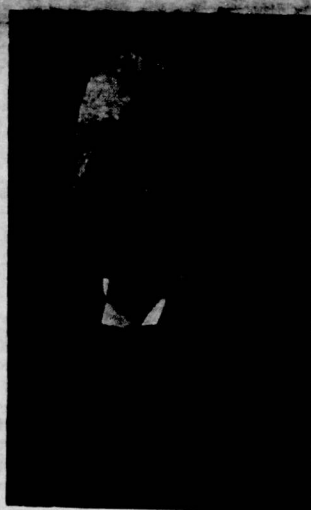

On last Tuesday night a private picnic was given at Marde's Park, D. C. Miss Marie A. D. Marde, president of Bethel Literary and Historical Association, who owns the park, which, with its surrounding properties, is worth about \$25,000, acted as hostess. The pleasures of the evening consisted of social games, songs and dance. The ladies of the party were Misses Julia E. and Anna Jackson, Rosa B. Childs, Amelia Bradford, of Little Rock, Ark.; Gertrude and Delilah Lampton, G. Smallwood, A. Davis and Miss Cheesman of New York; Messrs. O. Syphax, Dr. Tignor, Lawyer Ran-

dom, Mr. Papp, Mr. Collins, Mr. Norwood and R. J. Pinkett. A happy time was there that night. So pleasant was the time and so hospitable the hostess and so delightful the place that we are forced to commend the Marde's Park to all private parties, to churches, Sunday schools and societies as an ideal place for an outing and pleasure. Try it—it is superfine. Miss Marde has our thanks for the evening which she made so delightful for us all.

Thursday night of last week was the occasion for the entertainment at 1421 Corcoran street, of a large party of friends in honor of visiting ladies and gentlemen. The party was given by a group of young friends upon a purely informal basis, hastily planned and gracefully and charmingly executed, giving to all present one of the most delightful times of the season. The pleasures of the evening were literary, artistic and social. Among the visiting ladies and gentlemen present were Misses Renderson of Kentucky, Cheesman of New York, Palmer of Columbia, S. C., Dr. Marshall of Chicago and Lawyer M. O. Randolph of Mississippi. Whoever arranged the evening knows how, what and when.

For sometime the management of this bureau has been planning to present biographical sketches of men of color who are doing a great work for the upbuilding of our country. In presenting the men for the considera-

tion of the public, we shall present the whole record and let all of whom we speak stand or fall by it. We will deal with 12 men in the order which their work for mankind naturally places them. Among these are Dr. W. E. B. Dubois, Charles W. Chestnut, Wm. Monroe Trotter, Edward H. Morris, Wm. H. Richards, C. B. Purvis, Wm. H. H. Hart, John R. Clifford, E. W. Lampton, W. T. Vernon, Bishop Abram Grant, and Booker T. Washing-

HON. R. W. BONYNGE

Colorado's talented congressman, who though a young man, is a prominent figure in the national legislature, the principal speaker at the Emancipation celebration Tuesday night.

We will deal with our first character next week and thereafter in their order, according to our view.

And still the news comes from the British dominions in the northwest to the effect that colorphobia and race hatred hold sway. But these are the people who are boasting of the white man's civilization, of the white man's government, of the white man's superiority over other races. And in spite of all these loud protestations

to this effect, the white man, the mongrel, cannot control himself, and shows by his conduct that he will be many years in attaining to the highest civilization. What the white man needs more than anything else is Christianity.

In the face of the statement by Booker T. Washington that he believed in Taft and that he would be the next president, the National Negro Baptist convention, which is holding its sessions here, invited him to speak before their body on last Friday night. Evidently the body does not know what manhood means, and must have, even with E. C. Morris at its head, no real conception of character and duty to the race. For they have extended the invitation to Mr. Washington in the face of his declaration for Taft, who has shown himself the arch enemy of the race and wholly unworthy of the support of honest Americans. No more disgraceful episode ever marked the history of the church among the people of color of America. We are Baptist to the marrow, but rather than give our consent to have a man who has insulted the race by praising our arch enemy speak for us, we would sleep the sleep of death. May God forbid that we should ever betray our race by such a love of filthy lucre; and for a hundred dollars sell the manhood rights and self-respect of the race. The whole unholy business contaminates the atmosphere of all free America.

#### Censure.

Censure pardons the ravena, but rebukes the doves.—Juvenal.

The Phi Delta Chi club met last Saturday at Drs. Westbrook and Harper's office at their regular meeting. Dr. Bailey read a very interesting paper, which was discussed by all the members of the club. A project was presented by Dr. P. E. Sprattin, which it is hoped will develop very soon and be a credit to the city. Dr. W. A. Jones is president, and Dr. J. A. Harper is secretary.

Mrs. M. A. Holley is the possessor of one of the few diplomas given by Mrs. A. M. Pope of St. Louis for great excellence in her methods of growing hair and caring for the scalp. She is also the only person in this city having the Pope remedies and preparations.

For inexperienced young ladies to make \$39.10 clear in such a time when all the churches are giving their entertainment is no small job. "The Two Nights in Japan" at Shorter last week given under the auspices of Mesdames Mae Byrd, Effie Waldon and Annie Finley proved to be an elaborate affair because of its peculiarity of dress and true performance. China lanterns, Japanese kimono and Chinese ladies were the features besides the excellent baby drill of twenty little "tots" with parasols.

Johnnie Watkins has started out in a new venture in a business way. He will have on the street Monday his new wagon of the Climax laundry, of which he is the proprietor. It is a line that he is promising real hand work in and means to compete against the rough methods of strictly machine work. He is a hustler. He asks that his friends call him up at Main 3434 and give him a chance to prove what he can do. Stop his delivery wagon and be assured that you will get the best in laundry service in the city.

Mrs. Robert Neeley gave a reception Thursday, September 12, in honor of Mrs. Stacy Henry of Washington, D. C. The house was beautifully decorated with cut flowers. The colors used were red and green. The dining room was darkened, many dainties were served. About 40 ladies responded to invitations. Mrs. Neeley was ably assisted by Mrs. A. Colston. Mrs. Ora Marshall had charge of the punch bowl. Mrs. Henry is a charming lady. Her many friends regret her departure for her home at Washington, D. C.

A pleasant little party was held at night in honor of the minister, Rev. G. W. Byas, who leaves Monday night for Denver to be present at the annual conference. A feature of the party which afforded a great deal of merriment to all present, was the "crazy tea" and "peanut hunt," conducted by Misses Anita M. Jasper and Marie L. Pierce.

## No Modern Journalism There.

The world recalls that after Mahomet died Omar sought to persuade the followers of the prophet that he yet lived, and for 70 years the Persians refused to believe him dead. However, that was before modern journalism was established and insisted on the prophet's exhibiting.

## Whaling in Far South.

Whaling is a growing industry in the South Atlantic, centering around the Falkland Islands. During December, January and March 125 Sei whales and also a few sperm whales were captured in the vicinity of the island of South Georgia.

## The Rebel Yell.

To know truly what the "rebel yell" was, one must have heard it with the din and the roar of the rifles and the thunder of the artillery; with the shrieks of the wounded and the groans of the dying; must have seen mother earth being discolored with the rich blood of valorous men. "When Greeks joined Greeks, there was the tug of war;" when Americans met Americans it was then the "rebel yell" was given birth. It was a thing to inspire brave men to action, to give resolution strength; to the coward it was a consuming terror. The man who could stand unbalanced in the face of the real "rebel yell" in the days of its strength may justly lay claim to a courage that knows no faltering.—Knoxville (Tenn.) Journal and Tribune.

## THE ONLY COMPANY THAT HAS COMPLIED.

The Union Health and Accident Company is the only home institution that has complied with the new law by depositing with the State of Colorado ONE HUNDRED THOUSAND DOLLARS as a guarantee that the rights of the policy holders will be protected. There are many companies soliciting business whose resources are less than three hundred dollars, and more than twenty of them have failed during the past few years. It would appear that there is no chance of their success, in view of the fact that the people have their choice of a strong or weak concern, the cost of insuring being the same.

## PHOENIX SUSPENDS.

The Phoenix Indemnity Company, a Denver health insurance company, has finally failed, leaving a host of unpaid claims and hundreds of poor people to mourn the loss of their hard earned money. Is not this latest failure one more living illustration of the danger to the public in patronizing a company that has not made the regular deposit with the state for the protection of its policyholders? There are rumors of other failures which seem authentic, and in view of the fact that there are so many wild-cat companies, we venture to predict that in the near future no one will insure with a company not having a deposit with the state.

## Union Health and Accident Co.

Gentlemen:—I am pleased to make public the fact that I have received \$108.35 in payment for injury to knee. It was a great help to me and I heartily indorse the Great Big Liberal Union Health and Accident Company.

Yours sincerely,

Dr. Long, who came to the city from Louisville for the benefit of his health, died Wednesday, and his remains were shipped home by Undertaker Gilmore. His wife accompanied them.

Mrs. Irene Fife returned from the national meet of the K. of P. in Louisville, Ky. They will meet in Kansas City, Mo., next year. Prof. R. G. Halley was in town the last of last week, leaving Sunday at 1:15 p. m. for Ellis, Kansas.

## CONFERENCE NOTES

The annual conference of the A. M. E. church is in session in Shorter church. Rev. J. R. Hubbard is acting as secretary. Rev. J. H. C. Redd as statistical secretary and Bishop Grant presiding in his last year of the quadrennium. The attendance is the largest in the history of the conference and at this writing every report has excelled that of last year in numbers and finance. Wednesday Bishop Grant delivered an address calling upon the ministers to renew the evangelical work that the church might be mighty in soul power no less than in mere numbers and wealth. He predicted a great future for the West and urged that the work done now should be with the view of the tremendous possibilities of the future. He enthused his hearers and made a fit opening for this, which seems destined to be the greatest session of the Colorado conference. Wednesday night the Life Line club gave a reception in honor of the conference at which Lieut. Gov. Harper gave an address of welcome. The governor was present with the conference Thursday afternoon. The year's appointments will be given out Sunday.

Services at the churches Sunday will be more than usually interesting because of the presence of the visiting ministers. Bishop Grant will preach at Shorter church at 11 a. m.; Rev. H. Prince at 3 p. m., and Rev. W. T. Osborn at 8 p. m.

Rev. J. F. McDonald, D. D., editor of the Western Christian Recorder, will speak at the 3 o'clock service at Campbell church and the bishop will be present.

Rev. J. F. Greenlee will speak at the 3 o'clock service at Ward Mission.

Rev. A. Wagner will fill the pulpit for Central Baptist church in the evening.

One of the most interesting moments of the Conference was Thursday afternoon when the election of the delegates to the General Conference was chosen. Rev. J. C. C. Owens was one of the two and was elected on the first ballot. The second came after several ballots and was Rev. Dyett. Rev. J. W. Sanders and Rev. G. M. Tillman were chosen as alternates. The session is to conclude Sunday evening though there may be some business left for Monday.

## A Lively Squirrel.

An old negro who lives in the country came into town and saw an electric fan for the first time in his life. The whirling object at once attracted his attention, and, after intently gazing at it for several minutes, showing all the while the greatest astonishment and curiosity, he turned to the proprietor of the shop and said: "Say boss, dat suttley is a lively squirre. you got in dis yeah cage. But he's shorely goin' to bust his heart of his keep on makin' dem resolutions o' his."—Harper's.

## THE MAN WHO IS AHEAD.

Prayer Tributes Paid to Worthy Member of Community.

In almost every newspaper you pick up you are pretty sure to find a lot of gush about the man behind the counter and the man behind the gun; the man behind the buzz-saw and the man behind the sun; the man behind the times and the man behind his rents; the man behind the plowshare and the man behind the fence; the man behind the whistle and the man behind the cars; the man behind the kodak and the man behind the bars; the man behind his whiskers and the man behind his fists; and everything is entered on the list.

But they've skipped another fellow of whom nothing has been said—the fellow who is even, or a little way ahead; who pays for what he gets, whose bills are always signed. He's a blamed sight more important than the man who is behind. All the editors and merchants, and the whole commercial clan, are indebted for existence to this honest fellowman. He keeps us all in business, and his town is never dead; and so we take off our hats to the man who is ahead.—Judge.

## Alfred Vanderbilt's Banter.

"On the Alfred G. Vanderbilt coach," said a Pittsburger, "I rode from the Hotel Windsor to the Atlantic City horse show for the small sum of one dollar.

"Mr. Vanderbilt was in good spirits the day I was his paying guest. He bantered very gracefully the beautiful young lady who sat beside him on the box seat.

"I heard Mr. Vanderbilt say that women were never satisfied. No matter what you gave them, they always wanted something else, and if they couldn't get what they wanted by fair means then they got it by foul.

"He said that last fall a lady who had just returned from Newport sent for a fashionable physician.

"The physician, on arriving, found the lady reclining on a couch, one maid fanning her and another holding to her nose a gold bottle of smelling salts.

"What is the nature, madam, of your complaint?" the physician asked.

"Oh, doctor," said the lady, plaintively, "I am suffering dreadfully from—er—oh, what was that illness anyway for which you sent my friend Mrs. Golde, on a yachting tour in the Mediterranean?"

## Indian Report.

From "The Reminiscences of the Bishop of Minnesota": An Indian agent, who was a militia colonel, desired to impress the Indians with the magnitude of his dignity. He dressed himself in full uniform, with his sword by his side, and rising in the council told them that one reason why the Great Father had had so much trouble with his red children was that he had sent civilians to them. "You are warriors," he said, "and when the Great Father saw me and said: 'I will send this man, who is a great warrior, to my red children, who are warriors, and they will hear his words.'" An old chief arose, and, surveying the speaker from head to foot, said calmly: "Since I was a small boy I have heard that white men have great warriors. I have always wanted to see one. I have looked upon one, and now I am ready to die."

### Building a Home.

The building of a home calls for  
good business mind and business pur-  
pose. The partnership must be in  
good faith; there must be an absorb-  
ing sentiment that will continually  
feel its interests, a courage that will  
not quail before the effort that must  
be made to sustain it, a cheerfulness  
that does not falter before the monotonous  
round of duties that must be  
kept up year after year to establish  
it; a harmony that seeks the united in-  
terest and a courtesy that ever obeys  
the Golden Rule. We believe there  
is too much complaint entered against  
the exacting duties of home building.  
—From "Laying the Foundations," by  
Julia Sherman Upton, in National  
Magazine.

### In the End.

The road is rough, and the day is cold,  
And the landscape's sour and bare,  
And the milestones, once such charming  
friends,  
Half hearted welcomes wear.  
There's trouble before and trouble be-  
hind,  
And a troublesome present to mend;  
And the road goes up, and the road goes  
down,  
But it all comes right in the end.

The heart is sick and the heart is sore  
For a heart to call its own;  
And we scrambled hard for the precious  
crumbs  
Amongst the heaps of stone.  
For a love's love, and a man's man,  
Our gold's gold would we spend;  
And the heart goes up and the heart goes  
down,  
But it all comes right in the end.

The road goes up and the road goes down  
To a desolate depth below,  
And there's never a shred of the meanest  
robe  
On the naked ones to go.  
There's a heaven above, and a God of  
love,  
And a Father who will fend—  
And life goes up and life goes down—  
But it all comes right in the end.  
—Westminster Gazette.

### Immense Exports of Cattle.

If a person could get a bird's eye  
view of the shipping ports of this  
country at any day in the year he  
would see droves of cattle, horses and  
mules go thundering up gangplanks  
and being mauled in slings up the  
sides of ships. Steers and cows by the  
thousands stream into ships at  
wharves at Boston, New York and  
Baltimore. Mules and horses in an  
unending procession day after day go  
into ships in all the ports clean around  
the coast from Portland, Me., to Gal-  
veston, Tex. And still more herds go  
into still more ships on the Pacific  
shores.

### Rats Emigrate to South America.

It is a curious habit of the rats in  
New Orleans to embark upon the  
many fruit steamers plying between  
here and South America, stay with  
the steamer until it reaches a South  
American port, and then precipitately  
leave. The captains of these boats  
may say that they often provide free  
ransportation to as many as two and  
three hundred going down, and com-  
ing back, when loaded with fruit, they  
never see one. The rat population of  
New Orleans seems not to have suf-  
fered, however, from the migratory  
habits of some of its members.

### As Bret Harte Said.

The achievement of Woo Aug, of  
San Francisco, who raised a draft of  
eight dollars to \$8,000, is a refutation  
of the statements that the Chinese  
cannot adopt themselves to American  
ways.

### Style Is Antique.

A fashion magazine says that peek-  
a-boo waists are not of modern inven-  
tion, and having heard of Mrs. Eve  
Adam's fig-leaf gown we are compelled  
to agree.—Philadelphia Telegraph.

### OPPORTUNITY FOR YOUNG MEN.

There is a growing demand at lucra-  
tive salaries in all sections of the  
country, and especially in the South,  
for young men train in agriculture.  
The demand for the graduates from  
this department of the Tuskegee Nor-  
mal and Industrial Institute is so far  
in excess of the supply that we are  
offering special inducements to gradu-  
ates of other schools, and persons suf-  
ficiently advanced in the academic  
branches to come here and pursue the  
courses in agriculture, including prac-  
tical farm work, dairying, livestock  
raising, etc. An opportunity will be  
given a few earnest young men to  
work out all of their board while tak-  
ing a course.

Those interested can secure full in-  
formation by addressing  
BOOKER T. WASHINGTON,  
Principal.

### RETIRING FROM BUSINESS.

Madame C. J. Walker and Miss Mc-  
Williams, her successor, wish to an-  
nounce to their customers, old and  
new, that they have decided to open  
up business elsewhere and close up  
their business in Denver. All who  
wish following articles will find them  
at Miss McWilliams, 2310 Lawrence  
street: Letter of instruction, irons,  
pressing oil, soap and hair grower;  
also they have a new and very handy  
invention for care of hair and would  
like to take your order for one. It is  
something that most women will be  
very pleased with.

1 years ago my hair was only a finger-length, and my temples  
were bald half way up my head. 4 years ago my hair just covered  
my shoulders.

When we first began our wonderful work of growing all kinds, all qual-  
ities, all lengths, and all conditions of hair, even to the growing of hair  
on bald places of the head, many persons scorned the idea that such a  
thing was possible; but we have grown the hair for hundreds, rapidly  
achieving success. The proof of the value of our work is that we are be-  
ing imitated and largely by persons whose own hair we have actually  
grown and the further fact that they have very frequently mentioned us  
when trying to sell their goods (saying that "theirs is the same" or "just  
as good") or referred to "PORO." We advise you to use only "PORO"

## LA JUNTA NEWS.

Mrs. Reed of Topeka, Kansas, is the guest of Mrs. James S. Scott this week.

Miss Beatrice Tyler is contemplating attending Fisk University this year.

Mrs. Nellie Clemons of Trinidad is having a pleasant outing in the Holbrook country.

Mr. and Mrs. A. W. Vernon and Miss Beatrice and Mr. Edward Tyler went to Holbrook Sunday, where they were the guests of Mr. and Mrs. M. Knight and Mrs. Ellen Starkey.

Miss Tillie Houston of East Las Vegas, N. M., stopped over in our city from Monday until Tuesday morning of last week. She was en route to Corsicana, Texas, where she has a position as teacher in the high school of last week. She was en route to Miss Houston was in the city she was the guest of her sister, Mrs. Fred Houston.

Mrs. James S. Scott entertained at supper last Monday evening Mrs. R. S. Simms and children of Topeka, Kansas, and Rev. Wagner of Trinidad.

Mrs. Butler and Rev. Wm. Solly of East Las Vegas, N. M., passed through our city to-day en route to Denver to attend the annual conference.

Mrs. L. V. Grier, who has been the guest of her daughter, Mrs. John Marshall, left last Friday morning for her home in Trinidad.

Miss Nina Howard left last Friday for her home in Colorado Springs.

Miss Ida Davis and Mrs. Alonzo Brown of Rocky Ford attended the social Monday night.

The farewell social tendered Father Turner at Hubbard Chapel was a grand success. Quite a number were present. Ice cream and cake were served and a neat sum was realized.

Unusual interest was taken in the farewell sermon of the venerable farewell sermon of the venerable Father Turner. A large number was out to show the appreciation of his year's work.

The zealous and noble effort made by the venerable Father Turner to always be at his post of duty in spite of the condition of his health or the inclemency of the weather deserves much credit, and as he leaves us Tuesday morning for Denver, where he will attend the annual conference, he carries with him the good will of all who know him.

## Greyhound's Historic Lineage.

The Eastern greyhound has been from time immemorial the hunting dog of the Eastern plains, and, making allowances for the artistic attainments of those early periods, we find representations of him which are almost identical with the dogs of to-day or the monuments and tombs of ancient Egypt.

We are in receipt of unsigned notices from time to time which are omitted for lack of signature. Other contributors get economical and write their news on such small pieces of paper that they become lost among the larger sheets on which such matter is usually written. It is not often that matter is intentionally omitted where some good reason does not exist. Therefore persons will do well to conform to the easy regulations which govern matter for newspapers. Don't cuss the editor. Just look and see if you are not at fault.

## The Inescapable Dust.

We pride ourselves on our new food labels, upon our water supply and upon the antiseptic purity of our personal surroundings, but we have not developed an overfine taste in the air we are willing to breathe. The traditional peck of dirt that we now scorn in our food we accept without question in our air supply.

## How to Keep Well.

Stop worrying. Stop hurrying. Cleanse the body and mind of all impurities. Eat to live, instead of living to eat. Take plenty of exercise in the open air. Breathe deeply. Love your neighbor. And call upon a doctor for aid if you must.

## Dumb Friends May Be Our Equals.

We shall respect ourselves none the less if we find animals are nearer to us intellectually than is generally supposed. About 100 smart men have been credited with the saying: "The more I see of men the better I like dogs." There is much truth in the saying, that there are some men in this world whom animals would probably be ashamed to recognize as equals. Let us wait on the scientists. They may teach us much that will be helpful.—Philadelphia Enquirer.

ALL OLD SOLDIERS INVITED.

The committee in charge of the Emancipation celebration next Tuesday night at East Turner Hall, is reserving seats on the platform for all the old soldiers and requests that they come early in order that they may be escorted to the platform without interfering with the speakers. The interest in the meeting is increasing apace and the attendance will be record breaking and it is the early comer who will get seats while standing room will be at a premium. The musical features alone are such as cost much to hear on ordinary occasions and with them free and two speakers of national reputation in addition, it is certain that all of this free, gratis, and for nothing, will prove an irresistible drawing card. There is promise of the presence of representative men from out of the city to grace the occasion and among the specially invited guests are the governor and other dignitaries. There is a rallying along racial lines to make this a wonderful success that bespeaks much for the new negro for the new country.

## FOOLHARDINESS GONE TO SEED.

Use your ballots to defeat Theodore Roosevelt, William Taft, or any man named by the present political distastorship. Better vote for avowed enemies than for false friends. But, better still, vote with the white laboring classes, remembering that the cause of labor is the cause of black

men, and the black man's cause is labor's own.

It would seem to anyone that the race has a hard row to hoe without being deliberately led into foolhardiness by its so-called intelligent men. The above paragraph is a part of the address given to the world by the Niagara Movement which met in Boston this year. It goes without dispute that the men composing this organization are race lovers in the fullest sense of the word. They come from the classes of us that are remarkable for the high standard of intelligence. Yet here we find them soberly proposing to kick the stone over which we stumble by way of revenge. Progress is made after many a slip and a slide and the history of every man no less than of races bears out the statement that he who perseveres, who works and waits, who seeks the path of least resistance without sacrifice of manhood, is the survivor in the fierce contest for life, much less for supremacy. Let us condemn with fervor but not throw reason to the winds. The more we see of the hot-headed utterances of dreamers and fanatics, the more we are convinced that so far from having too many leaders, the Negro race has too few. The men who would have us curse God and die because the desert is dry and hard to cross, happily have their answer in the contented plodding which is surely carrying us over, mayhap in a dumb sort of way, yet surely withal.

The Yonkers Standard is the latest addition to Negro literature. It is edited by our old friend (Bruce Grit) John Edward Bruce. He starts out with long years of experience behind him, with a proved pen, and with the confidence of the race. A better equipment could not be for a race newspaper man. We look for him to succeed. His initial issue "looks good."

## Daily Thought.

The highest compact we can make with our fellow is: Let there be truth between us two forevermore. It is sublime to feel and say of another, I need never meet, or speak, or write to him; we need not reinforce ourselves or send tokens of remembrance; rely on him as on myself; if he did us or thus, I know it was right.—Emerson.

## YOUNG MEN ENTERTAIN

Denvers' young set was well represented Tuesday evening at a card party and supper given by N. G. Walker and C. W. Pritchette, complimentary to Miss Ellis of New Orleans, who is a guest of Mr. and Mrs. Sprague, and Miss Mercer of Kansas City, a visiting niece of Prof. McGurder. First and second prizes were won respectively by Miss Mercer and Miss Vergie Webster, and Mr. H. Byron of the Musical Byrons, and Mr. Roy Cark. The tables were skillfully arranged and handsomely decorated with various flowers of the season, and a supper four courses served by Mrs. Vernell, assisted by Mrs. Cassel and Mrs. Hubbard, so it is needless to say it proved the event of the season.

Mr. and Mrs. Sprague chaperoned the party.

Those present were Misses Ellis, Mercer, Lyons, Melcheaux, Pritchette, Anderson, Mundy, Fore Howard, Nelson Howard, Montgomery, Andrews, Jacobs, Webster, Ross, Parker and Jeanes, and Messrs. McGruder, Montgomery, Douglass, Carothers, Morris, Langston, Montier, Simmons, Parks, Gleed, Davis, Clark, Pritchette, R. H. Byron, H. Byron, Cooper, Mr. and Mrs. Sprague and N. G. Walker.

The prize waltz and two-step which was the feature of Will Knight's ball Thursday night, were won by Eugene Montgomery and Miss Eva Nichols, and George Dean and Miss Arlena Burns. There was a big crowd and everyone had a swell time. Two winners on the male side were both members of the None Such club and there is great elation among the club members.

## MANY USES OF THE BANANA.

Product of Entire Tree Utilized by West Indian Natives.

In this country the banana is regarded mostly as a food product, but in the West Indies the natives find a use for the entire tree, and well it serves its many purposes. When the young coffee and cocoa plants need protection from the fierce rays of the sun banana leaves give the desired shelter. Physicians and nurses use the tender, unopened leaves for dressings, and the old leaves are made into twine and boxes. In Malay the stalks and leaves are made into a soap for laundry purposes, and a solution forms a valuable salt. From banana juice and the skin of the fruit a preparation is made for blackening purposes and the juice also makes a good indelible ink. On the under side of a banana leaf a wax forms which is very valuable and is one of the export products of the island of Java. In some countries a dye stuff is produced from the ashes of the fruit and leaves and the banana fiber is used in making manila hemp, from which rope and cordage are manufactured. In Switzerland a very fine hat braid is made from this manila hemp. From these examples it is readily seen what an important place the banana holds in the world of commerce.

# HIS ENGLISH CAME BACK.

## Queer Freak of Memory of Japanese Rear-Admiral.

On one occasion, says World's Work, when Rear Admiral Enouye met an old Annapolis classmate in Japan he forgot all the English he ever knew, but showed his pleasure by repeatedly embracing the American swearing his affection in the purest Satsuma dialect, all the while singing old Academy songs, which, strangely enough, he seemed to remember perfectly, though he had forgotten the meaning of the words. Enouye opened a bottle of wine in the cabin of his ship, the Naniwas, where he exhibited with much pride and joy his old Academy raincoat, with Y. Enouye stenciled on it. Possibly to convey to the mind of his guest his purpose in showing this coat, though the weather was hot and clear, he rushed out on the quarter-deck and shouted, in excellent English: "Rain-coats! Cap-overs! Over-shoes and Leggins!" the astonished Japanese officers and crew looking at him as if they thought he had suddenly gone mad. Enouye had suddenly remembered the orders for rainy day dress at Annapolis.

## WOMEN PLOW WITH OXEN.

### They Have No Feeling of Degradation Over Fact.

Some of the Berber tribes of North Africa yoke their women to the plow along with their oxen and make them thus work in the field. Even aged grandmothers and great-grandmothers are treated in this manner, treading along the furrow with amazing cheerfulness. They do not feel any degradation, because they have never been used to anything else. A Berber chieftain who was remonstrated with for putting his own aunt, a woman of over 90, to work in the fields, replied calmly:

"Women are bestowed by Allah for pleasure and profit. When they grow too old and ill-favored to give pleasure we turn them to profit."

This is the prevailing sentiment throughout North Africa, except with some of the Bedouin and Kabyle tribes, among whom there is a more chivalrous feeling toward women.

### Resourceful Youth.

The enterprising lad noticed an advertisement calling for a red-haired office boy, but lacked the qualification mentioned. "Say, sis," he remarked, "where'd you keep your peroxide? I've got to dye to beat this game."

### Cheerfulness.

The sovereign voluntary path to cheerfulness, if our spontaneous cheerfulness be lost, is to sit up cheerfully, to look around cheerfully and to act and speak as if cheerfulness were already there.—William James.

### Bird's Natural Weapon.

A now extinct species of bird which formerly inhabited Rodrigues was flightless, but an outgrowth of bone at the joint of the radius and metacarpus formed a knob that rendered the short wing as dangerous among birds as a policeman's billy.

### Art of Conversation.

We are born to inquire after truth; it belongs to a greater power to possess it. It is not, as Democritus said, hid in the bottom of the deeps, but rather elevated to an infinite height in the divine knowledge.—Michael De Montaigne.

Charles West is on the streets again with his new automobile done in red. He made a big success last year and is starting out early this season catering to all classes of transportation for passengers in automobiles. Service by the hour or by the trip.

A woman writer says: "Marry a man with a good digestion and no nerves if you want a pearl of a husband. All of the seven deadly sins do not make a man as hard to live with as a genuine, well-developed case of liver. Choose, therefore, as a husband a man who is hearty and husky and who can eat three square meals a day. A preferred type of this man is the one who is frankly fond of good eating and who has a welsh rarebit recipe and a special way of making salad dressing. Grab a man like that the very first opportunity you get, for as a husband he is lovely."—Milwaukee Sentinel.

**BODY NOT TO BE SACRIFICED.**

Physical as Well as Mental Education Demanded.

The man or woman who will train the mental faculties without any reference to the physical, shows a faulty qualification for the work in which he or she may be engaged, says the Knoxville Journal. The mind may be ever so well trained and stored with knowledge of the books; but unless there is behind it a reasonably strong body, life runs the risk of being a failure; if not that, an existence of pain that serves as a limitation upon its possibilities. It is a species of cruelty to educate the mind at the expense of the body. Better let a child grow up into manhood or womanhood with an inferior education than with a better education of the mind and a body weakened in the effort. The fact that so many men in this country have succeeded in business and in professional and public life have been the sons of farmers, whose early life has been spent out of doors, has been a subject of remark; may it not be accounted for on the ground that in their boyhood their physique was developed so that in after life, besides their mental acquirements, they had strong bodies with which to do the work they have so successfully performed? This is not only possible, but very probable.

**Cause for Regret.**

A Scot who had been a long time in the colonies, paid a visit to his "native glen," and meeting an old school fellow the two sat down to chat about old times and acquaintances.

In the course of the conversation the stranger happened to ask about a certain Gordie McKay.

"He's dead long ago," said his friend, "and I'll never cease regretting him as long as I live."

"Dear me! Had you such respect for him as that?"

"Na, na! It wasn't only respect I had for himself, but I married his widow."

**Fought Bears with Axes.**

Two woodchoppers, armed with axes, had a battle with a huge black bear and four partially grown cubs on Mt. Pico, says a Rutland (Vt.) correspondent of the New York Times. They killed two cubs, but the mother and other cubs got away. Luther Weeks and his son Clinton felled a large tree and it crashed down into a clump of bushes. Angry growls followed, and the four bears, who had been hibernating under the bushes, made for the men. The men fought and won. The cubs that were killed weighed 100 pounds each. The men declare the old bear was fully eight feet long and would weigh about 500 pounds.

Some public man said that we must put more conscience into politics—how can you force conscience into the devil?

While you struggle and toil in duties' exacting sphere, think of the creeds nearest to your heart and take courage.

Patience may be the bitter experiences of to-day, but its fruit will be filled with the honey comb of the years to come.

## AROUSED THE COURT'S IRE.

Young Man Glad to Be Victim of the Judicial Wrath.

A certain squire of a small city in Connecticut, who betrays his patriotism by presiding in a small office painted red, white and blue, had a case before him which attracted an unusual crowd to the temple of justice. A young man was up before him on a charge of stealing brass, and the prisoner's friends were out in attendance to see that he got a fair show. Before the case opened the noise and confusion became so great that his honor declared that the next man to indulge in any unusual outbreak would be ejected from the room. He had hardly ceased speaking when a young man shouted, at the same time waving his hat above his head: "Hooray for Squire Hooligan!" "Put him out," roared the court, and in another instant the interrupter was rushed to the door. His honor ordered that the prisoner be brought before the bar for trial. The court officer hurriedly glanced about through the crowd, and then a great light suddenly fell upon him. "Can't do it, your honor," he replied. "The young fellow you just put out was the prisoner."

# RANKFORD HOLLEY'S HOMECOMING.

## Improved in Art and Directorship.

Through the kindness of Mr. Holley about 50 or 60 people, Rankford's friends and acquaintances, assembled to welcome him and his company Saturday night to Denver. An impromptu program was selected from the audience. C. A. Franklin, editor of the Statesman, warmly welcomed the new leader-director and his loyal constituents to Denver and to Mrs. Holley's residence. He expressed himself as hoping to hear as great things, if not greater, in the future of "Denver's own" as he had already heard in the past, and that he would finally become a Rubelk. Mr. "Billy Young," the comedian and tragic actor, also song writer, favored the audience with a selection, "A Wounded Soldier," which completely electrified the house, and responding to the ovation next rendered the "Kentucky Philosophy," in which he so naturally and effectively depicted the true character of an old colored lady reprimanding her son for stealing a green watermelon instead of a ripe one. Came next on the program was Mr. Ousley, the funmaker and sorrow destroyer of the show, with his monologue and song, "I Ain't as Foolish as I Looked to Be," which was so thoroughly enjoyed by the audience that he responded to five encores and finally informed the audience in song he must quit before they made a fool out of him. Mrs. Garland, a charming lady with a loud resonant contralto voice, was compelled to respond to a hearty encore after having sang so sweetly. Mr. A. W. Scott certainly put his whole soul and mind into his cornet solo, "My Mercedes," as his hearers were so impressed by the clear, distinct and melodious strains, so beautifully blended and appealing in their sound as to cause him to respond to an encore. The "Saxophone Solo," by Mr. Osborne, made the elderly people recall the young days of courtship and reminded especially the younger set of their heart throbs of love now. The next appeared one of Denver's best contralto singers, Mrs. Lillian Jones, who was applauded to the echo three times, each time responding to the song, "Love Me and the World is Mine." Mr. Pope sweetly and gracefully showed his ability as a cornetist. During the intervals, Mr. Monroe Tompkins, the toastmaster, interspersed each number with witty yet appropriate remarks. Everybody praised the efficient and progressive ability of Prof. "Rank" as a musical director and orchestra leader. His musical genius was clearly shown when he played his own composition, "I Am Waiting for Thee." Billy Young was the author of the words and Prof. Holley of the music, as they have three songs already to put on the stage. The notable present who are musically inclined were A. A. Waller, director of Azalia Hackley Choral Society; Mrs. Ida Banks, its president; Mrs. Eliza Dishman, Miss

Gertrude Nichols and Morgan Jackson, Denver's leading violinist and leader of Harris' orchestra, also Prof. McGruder, Misses Birdie Earl of Colorado Springs, Mercer of Kansas City Mo., and Gatewood of Palmer Lake. On the whole, the occasion was alive with music, sentiment and fun in structure and inspiring to "Denver's Own Rank."

## KEEP OFF! BECAUSE IT'S HOT. OCTOBER 23.

Damon Lodge No. 5, K. of P., will give its annual entertainment at East Turner Hall, October 3. This is to be a hummer.

The Ladies' Aid of Scott M. E. church heartily thank their friends for the success of their entertainment last Friday night. A neat sum was realized for the benefit of the trustees. Many of Shorter and Zion Baptist church attended.

The program of the People's Sunday Alliance for Sunday, Sept. 22nd: Quartette; paper by Miss Luella Baker, "Woman's Sphere;" vocal solo, selected, and piano solo, Mrs. Mae Byrd; discussion. The Alliance extends an invitation to the delegates to the A. M. E. conference to be present at the session.

William Johnson, who for the past three years has been the elevator pilot of Hibbard Dry Goods store in Colorado Springs, came up Sunday night to assume the duties of captain of a watch in the D. A. C. club in the place of R. V. Johnson. He is the nephew of Mrs. Jesse Taylor.

Prof. W. H. Perry is a hustler. He left the city some weeks ago with a troupe and after touring the western country is now operating the only skating rink in the west run by a colored man. He is at Jiggett's hall, Cheyenne, keeping open Mondays and Wednesdays, and gives instructions as well as furnishes music for those who already can skate.

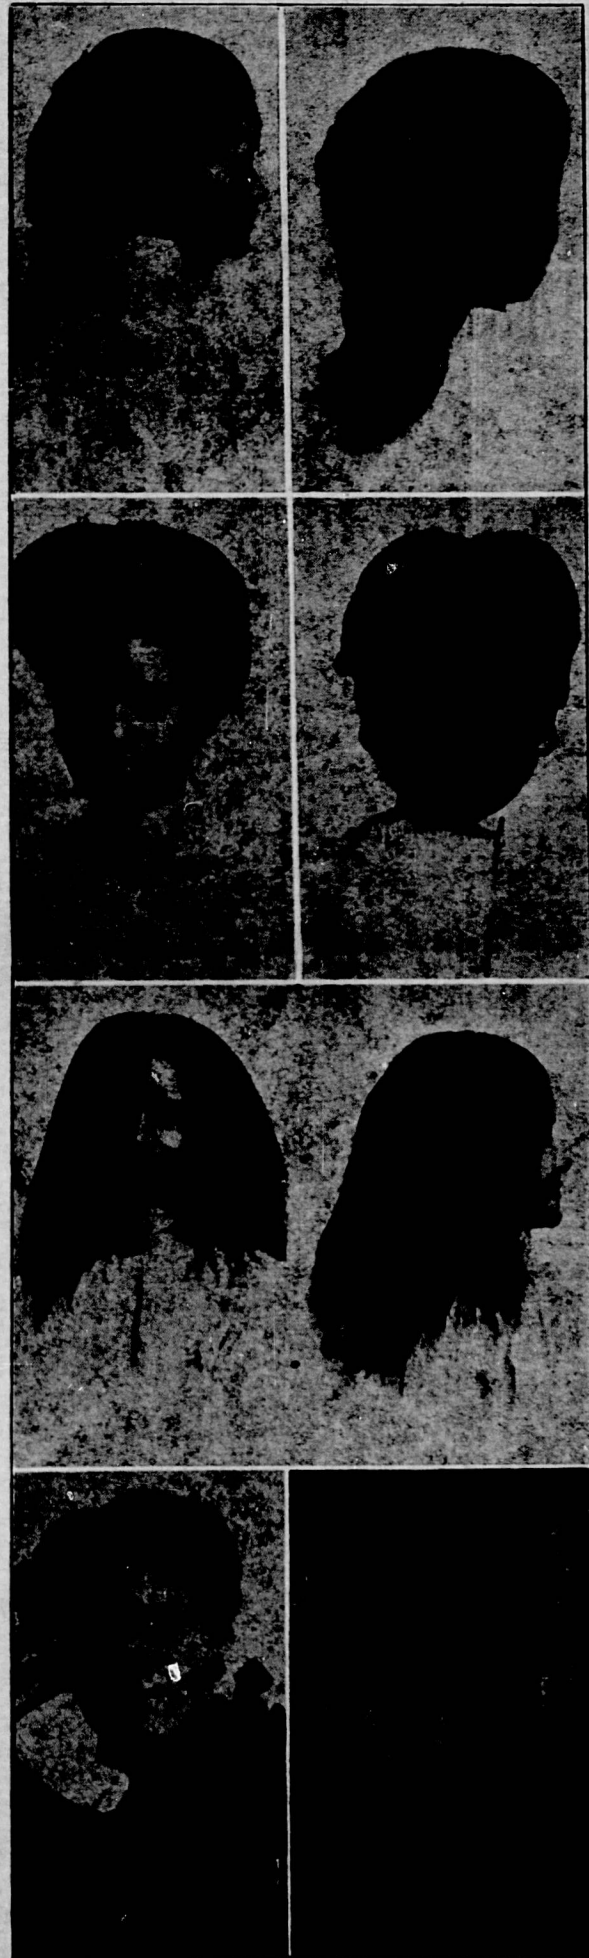

Miss Mary J. Thirkles and Mrs. C. S. Muse are at home thoroughly tickled over their extended visit in Missouri. While visiting Lexington and Kansas City, Missouri and Kansas, they were royally entertained by Mesdames Wallace Dean and D. H. Bradley. At the many receptions they enjoyed the opportunity to meet some of Kansas' most representative and progressive people.

The Savoy Cleaners and Pressers is the name of a new business opened up at 313 Sixteenth street by J. W. Jackson and Paul W. Walker. They

are the only colored business men on Sixteenth street and have a neat attractive place and have already started off with business enough to justify their hopes for a splendid future. They have a new wagon that is as fine as any delivery wagon in the city. The experience of the proprietors is extensive in this line and they seem destined to do well.

#### Way of Most People.

Some people have a clever way of striking a happy balance; they lose their own tempers and find other people's faults.

#### UNHOOKING THE ELUSIVE EEL

Ingenious Angler Asserts Hypnotic Method is Best.

It isn't so hard to catch an eel. Not infrequently you will land one when you are fishing for something else. But getting him off the hook without having your line tangled and tied into innumerable knots—aye, that's the rub! When Izaak Walton wrote his treatise on the gentle art of angling, he overlooked the eel. Yet the possibilities of this squirming fish in developing patience in the fisherman are infinite. The average angler, when he has hooked one, can do nothing more than rub his hand in the dirt till it is rough with grime, seize the eel by the neck and club him to death. Meanwhile his line is all snarls and tangles.

But an ingenious angler, with the nervous system of the eel in mind has discovered a better way. The eel, properly handled, may be soothed and put into an immediate state of calm simply by rubbing him gently on the spinal column with a match or small stick. Indeed, no one who has hypnotized a crab by rubbing between the eyes will doubt for a moment that the eel may somewhat similarly be put to sleep.

It is the only effective way to detach an eel from the hook. Try it!

#### Buried Plot for Dogs.

Mr. William E. Chisholm, a widow of College Point, L. I., has set aside a plot on her estate for the burial of her dogs. Mrs. Chisholm's son-in-law is a stepbrother of the present Duke of Marlborough.

#### Good Companion.

Bookkeeper—"I asked the cashier to have a drink but he refused."  
Typewriter—"Yes, he reminds me of the office towel."  
Bookkeeper—"How is that?"  
Typewriter—"Never dry."

#### Embarrassing.

"Don't you feel proud since your daughter married a duke?"  
"Proud!" echoed Mr. Cumrox. "Not a bit of it. I'm worried to death to hear I'll forget to approach the duchess with proper formality."

#### Gigantic Water-Pipe.

The biggest water-pipe in the world—capable, it is said, of holding any average river—is that of the Ontario Power Company on the Canadian side of Niagara Falls. The gigantic pipe, which is made of steel throughout, is a mile and a quarter in length and 60 feet in circumference. The steel plates from which the big tube is made have the thickness of one-half inch and in putting them together 200 tons of rivets were required.

#### Town of Divorces.

The town of Plauen, in Vogtland holds the record in the matter of divorces. In one day no fewer than seventy divorce cases were dealt with by the civil court of the town, which has a population of 55,000. Every month the court is occupied with a large number of divorce cases, but in many instances the petitions are dismissed.

#### Improvident East India.

**NO MORE TROUBLE FROM PUNCTURES.**

Result of 15 years experience in tire making. No danger from **THORNS, CACTUS, PINS, NAILS, TACKS OR GLASS.** Serious punctures, like intentional knife cuts, can be vulcanized like any other tire.

Two Hundred Thousand pairs now in actual use. Over Seventy-five Thousand pairs sold last year.

**DESCRIPTION:** Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of thin, specially prepared fabric on the tread. That "Holding Back" sensation commonly felt when riding on asphalt or soft roads is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all suction. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented.

We will allow a cash discount of 5 per cent (thereby making the price \$4.55 per pair) if you send **FULL CASH WITH ORDER** and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sampson metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at OUR expense if for any reason they are not satisfactory on examination.

We are perfectly reliable and money sent to us is as safe as in a bank. Ask your Postmaster, Banker, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a small trial order at once, hence this remarkable tire offer.

**COASTER-BRAKES**, built-up wheels, saddles, pedals, parts and repairs, and everything in the bicycle line are sold by us at half the usual prices charged by dealers and repair men. Write for our big **SUNDRY** catalogue.

**DO NOT WAIT** but write us a postal today. **DON'T THINK OF BUYING** a bicycle or a pair of tires from anyone until you know the new and wonderful offers we are making. It only costs a postal to learn everything. Write it NOW.

**RESOLUTIONS OF CONDOLENCE.**

In loving remembrance of Helen, beloved daughter of Mr. and Mrs. Clark, and a charter member of the Lady Masons, we, her sisters, deeply mourn her loss. All that was mortal is changed now and clouded forever. But how great is your comfort in the well grounded assurance that the good Shepherd that careth for His flock has taken your daughter into his fold. She was only loaned to you and must return to her Heavenly Father, for He has said suffer little children to come unto me, and forbid them not for of such is the kingdom of heaven. And oh, that you may say, I have this consolation, that she cannot return to me but I can go to her. Truly we live in a world where solemn shadows are continually falling before our pathway. But this blessed assurance teaches us the one good Lord says come unto me all ye that are wearied and heavy laden and I will give thee rest. She was the youngest amongst us, and we feel that her place can never be filled, and we will join in with the father and mother and say, Helen, sleep on. Sleep and take thy rest.

Lay down your head upon the Saviour's breast.

We loved you well, but Jesus loved you best.

Sleep on, sleep on, sleep on. Resolved, That a copy be sent to the bereaved family and placed on our minutes.

MRS. A. HARRIS, President.  
MRS. HOPSON.

**The Planet Venus.**

The conditions of the planet Venus are most like those on the earth, but there is a strong suspicion that Venus has no night or day, but always keeps the same side toward the sun. If this is really the case, then the sunny side must be always burning hot and quite dry, while the opposite side must be always incased in ice—nay, more, in a mixture of ice and solidified atmospheric gases. The life of such a world must be very different from any that we know.

**Unique Wedding Party.**

A short time ago a wedding took place at St. Luke's church, Reddall Hill, Cradley Heath, England, at which a man named John Hill was married to a young woman whose name was also Hill. The fathers of the bride and bridegroom were each named John Hill, the witnesses were all named Hill, and both the bridegroom and bride resided at Old Hill.
