

## THEY STICK; YEA, THEY MULTIPLY

The arrest of the President General on January 12 has revealed a fact that is quite valuable to the student of the New Negro. In an organization numbering millions throughout the world, there has not come to our attention any cases of disloyalty as a result of this arrest. Rather there has been a greater coming together, a more determined front on the part of the membership to see that the program "goes over." Many who had looked on previously with indifference are now linking up with the association as members, and Marcus Garvey, who has been the guiding star of millions, bids fair to have his following doubled as a result of this arrest.

How different this would have been a few years ago! Instead of the Negroes rallying to the cause of their leader, they would have been falling away. Truly the Negro has come to see the light and his future is written in the stars.

In America, even among those not identified with the movement, the cry is for the success of Marcus Garvey against his enemies. The same spirit prevails in other parts of the world, especially in Africa, where the name of Marcus Garvey is held sacred.

The New Negro is in no mood to be trifled with now. His cause is too just, his mission too divine to allow his course to be obstructed by jealous individuals and designing organizations. Somebody may pay and pay heavily for the part they have played in this affair.

Marcus Garvey is the greatest benefactor given the world in modern times. Silly nations have for years been speaking of the "white man's burden" as regards the Negro. And now that Garvey is trying to eliminate the Negro as a "burden" and make him a respectable, contributing part of the human family, there are those who would hinder him in his efforts. But easier could they stop the mighty onrush of the Atlantic than impede the new and awakened spirit of the New Negro who has walked with truth and learned his lesson well.

Africa shall be redeemed; a race shall be free!

ROBERT L. POSTON.
