RIOT CLAIMS TO BE PAID BY CITY

JUDGE DAVID OVERULES CITY'S DEMURRER. ATTORNEYS WESTBROOK, A. L. WILLIAMS, TERRY, COTTER AND OTHERS WIN BIG TRIUMPH FOR DEFENSELESS RIOT VICTIMS.

In an extended and brilliant opinion rendered Saturday January 31, 1920, in the case of Renfro vs. The City of Chicago, filed in the Superior Court by the Plaintiff for injuries received at the hands of a mob, a Demurrer to the declaration was filed by the City of Chicago to said Declaration. The case was heard on said Demurrer.

First Assistant, Mr. Righejmer after much dilly dallying tried to implore the Court to give further time for the Argument on the Demurrer, but the Court said in substance: "I cannot see anything for you to look up or get prepared in, as this case is perfectly plain to me, and the statute is also plain, so much so that I cannot see why the City is asking for time." He quoted the statute on that question and said that it was absolutely sound doctrine and that he could not see why the City would continue one minute that it was not liable unless it is for the purpose of delay, and the Court read Section 4 of the Statute, of the "Act to Suppress Mob Violence."

In its opinion, the Supreme Court upheld the Act and said it was good law and sustained this law.

The Court further said: "I have very little patience for your contention that the statute would make it possible for a recovery where damages were done to personal property by a mob and at the same time, refuse to protect human life and property."

The so called race riots in Chicago was the greatest disgrace to any State, and the intent of the law was to put a stop to this kind of violence; the purpose was to make the City and the tax-payers responsible for the outrages perpetuated by unreasonable and inhuman riots, mobs and lynchings. Unless some action is taken by the higher-ups, not the common element of people, to stop these mobs, the Government is in a critical state, and it will soon be dangerous for persons to walk along the streets. Such a condition must be abated and in order that the law might be enforced it is necessary to compel the City, when they fail to do their duty in the protection of life and property, to respond in damages as a penalty for its violation, thus bringing it home to every individual that he is responsible as a tax-payer for the preservation of law, and in this way the City will give better protection by increasing its police force to the extent that it might be able to protect life and [illegible] its jurisdiction against such unlawful mobs as this was, and in the Courts opinion it was good law and should be enforced.

It is up to the City and County to see that the law in enforced; if they fail, there is no question as to whether the individuals so injured are entitled to compensation.

The City has persistently contended heretofore that it is not liable for personal injury done by mobs, as if there were something [illegible] matter with our laws, but [illegible] able to sustain it. In our judgment the law is sound and fair. The Supreme Court of the United States and every State in the Union where such questions have been raised, has held that it is good law. We cannot see how it is possible for the City and County to cringle when so many people have lost their all, both in person and in property; yet with this law staring them in the face they brazenly tell us that the City is not liable.

With a few more judges on the bench, with the firmness and fairness and without equivocation, like Judge Joseph B. David, in the City of Chicago, County of Cook, State of Illinois, and the United States, would be a sane place to live in for every human-being regardless of creed or color.

The peculiar situation about this opinion was that Judge David said he came from the South land, where in his State, he has seen colored people lynched and mobbed and that he has often wondered why the law could not and would not protect the life and liberty of these people in all the States, as he believed everyone should be given every chance to live without molestation in the confines of our country.

Judge David is a member of the Democratic party and holds his position on the bench as a Democrat, while the officials who claim that the city is not liable are holding their positions as republicans and are doing so by the suffrage of the very

Judge Jos. E. David, who rendered the opinion making the city responsible for the conduct of its Hoodlum elements.

Arkansas Governor Stabbed by Colored Man

Severely Wounded By Porter Over Pay Dispute

Little Rock, Ark., Feb. 3.—(Special to The Whip.)—That the psychology of the colored people of the South has changed, and, That the 8 minute convictions by prejudiced jurors has not made them cowards was exhibited at the State Capitol when Tom Morsell, a colored porter, [illegible] for years has been employed [illegible] Robertson.

Feeling Bitter.

A Whip reporter states that there is a well-organized attempt in this State to keep colored people afraid to demand a square deal. And that the Acting-Governor is an exponent of this theory. And when the porter finished doing some special work which Gov. Robertson had employed him to do he asked for his pay. The governor cursed him and threatened to kick him out of the office.

Fight Ensued.

Morsell replied: "You have got to kick your last some day." Becoming angry at the porter's manly attitude, the governor attempted to make good his threat. When his right foot was raised it met the shining steel and well directed aim of his would-be victim. Cries for help were made by Robertson, but no one would come to his assistance, fearing the same fate.

TEXANS URGE LAW ALLOWING IMPORT OF MEXICAN LABOR

Failure Would Mean Reduction of 50 Per Cent in Cotton Acreage.

Associated Press Report.

Washington, Jan. 27.—Suspension of the head tax and literary test provisions of the immigration laws to allow Texas cotton and truck growers to import necessary labor from Mexico, was urged before the senate immigration committee Tuesday by [illegible] ent law that would empower the [illegible] provisions whenever the necessity arose.

Roy Miller of Corpus Christi, editor and farm owner, declared unless the proposed action were taken a labor shortage would result in a reduction of more than 1,000,000 bales in the Texas cotton crop this year and a permanent reduction of nearly 50 per cent in acreage under cultivation.

Refuting suggestion that suspension of any part of the laws regulating migration of Mexicans to the United States would result in a movement of "reds" and bolshevik sympathizers to the United States, Mr. Miller and Fred Foberts, another member of the delegation, told the committee that they did not believe there was any general "red" propaganda being disseminated in Northern Mexico.

WESTBROOK FILES NEARLY A THOUSAND NAMES ON HIS PETITION.

The popular independent candidate for Alderman of the Second Ward filed hundreds of names more than the statute requires, attesting his popularity and support in his fight against boss-rule and dollars.

The "fear of the Lord" is now creeping into the hearts of the "Old Crowd" candidate as he fears the things that will naturally come out in a hotly contested campaign.

The United Political League, strengthened by the addition of the Warren Douglas crowd, have started the active organization for the fight for precinct supremacy and their fight will be for the sake of right and clean politics and not as paid servants who work for a fixed price, regardless of who the candidate is or what issues are involved.

Westbrooks is all primed for the fight and rumors of challenges and charges are in the air. All concede that Westbrooks will fight to the last and fight hard. Some are calling him Alderman already.

REV. L. K. WILLIAMS A MAN AMONG MEN

Olivet Baptist Church makes Pastors Anniversary Historical occasion.

The Past week and up to Tuesday 10th Olivet Baptist Church has been observing the fourth anniversary of the call of Rev. L. K. Williams and his 25th anniversary as a Minister.

Many events were planed and successfully carried out and each occasion contained some history making incidents. The [illegible] talent in the [illegible] called [illegible] way it was.

Elaborate decorations added to the grace and dignity of the occasion and [illegible] members were present in large numbers.

Rev. L. K. Williams since coming to the city has made his presence felt in many ways. He has helped the race over trying incidents and pointed the shining light to hundreds grouping in the darkness. Through his efforts 27 different departments of his church have been organized and are lively activities now among his members and their friends. His Congregation is the largest and most influencial in the city being something over 7,000.

Rev. Williams has held many positions of distinction and dignety during his life time and each is marked with some special benefit because of his splendid efforts, undaunted stand and ability.

The various committees under the direction of Rev. J. H. Branham first Asst. Pastor, are deserving of special mention because of the success of such a large well conducted affair. The occasion was historical, helpful to the church and also the city.

DUCK JUROR IN MUD TO HELP HIM DECIDE IN LA.

Monroe, La., Feb. 3—Because a juryman failed to agree to a verdict of guilty in the case of Alvin Calhoun, Negro, alleged confessed slayer of N. E. Arnold, a young white farmer, a mob publicly whipped the recalcitrant juror and then dipped him in a mud hole, say reports from Tallulah, where the trial was held. After his chastisement the mud-covered juror returned to the jury room and agreed to a verdict of murder in the first degree. He was then ordered to leave town by a delegation of citizens.

The above incident not only shows the South is a place where even a white man's mind must not think contrary to the majority much less a Negro's. The American Flag should not wave from any part of the country south of the Mason & Dixon Line as it is neither the "Home of the Brave" nor the "Land of the Free."

FOILS LYNCHER'S PLANS

Baltimore, Md., Feb. 3.—Police believe they have effectually frustrated a plan laid weeks ago by citizens of Mount Winans to lynch the Negro who assaulted Mrs. Sadie Sibley, of Annapolis Avenue, on Sept. 24, if he were caught. Not until later a Negro suspected of the crime was arrested and safe in jail did they know that a well-laid plan to get the assailant had been formed,—though they suspected that friends and neighbors would take the law in their own hands if they could.

A committee of men, whose identity is not known, had agreed to meet at a given signal, which would be the tolling of the bell on the adjoining the Sibley home. The bell Mount Winans Methodist Church, was to be rung as soon as a Negro suspect was caught by the police and taken to Mrs. Sibley for identification.

Captain Kalbfleisch, who led the hunt for the Negro, believes the people of the Mount Winans are satisfied now to let the law take its course. They believe, he said, that the prisoner will be convicted and hanged.

George Terry, the Negro identified by Mrs. Sibley as her assailant, was taken to police headquarters this morning, to be recorded by the Bertillon system. After being measured, photographed and having had his fingerprints taken, he was sent to jail. He has been refused bail.

REPRESENTATIVE DOUGLASS JOINS "THE NEW CROWD"

TO FIGHT CROOKED POLITICS AND HIGH RENTS.

Sunday Feb. 1. It was the beginning of the end of carpet bag and vice immunity politics. When Representative Warren B. Douglas and the United Civic League of which he is founder and president joined hands with the Independent Political League at a monster mass meeting held at the headquarters of the latter organization, 3303 S. State St. [illegible] ed without a dissenting vote to name the new fromed organization "The United Political League." Never before in the history of America has there assembled such an aggregation of earnest and intelligent young men. The emancipation of the race from political slavery and debauchery was their aim.

Fight To Finish.

This organization has organized every precinct in the district. They have pledged ther allegiance and best service without hope of anything except the triumph of the principles of the organization.

[illegible]

With Westbrook in the City Coun- [illegible] to do some constructive work. The first step will be to wage a campaign against the rent profiteers in the colored community. [illegible] earned dollars are being unjustly extracted from our people by these profiteers, most of whom belong to our own race. Hundreds are joining the League every day.

JACKSON GETS CREDIT DUE KRUTCHOFF

It is reported that the recent appointments of Sarah C. Minor, Mrs. Cornelia West, Miss Beard, Mrs. Jessie Bond, Mrs. Bertha Montgomery were direct results of the indorsing of the same by Robert Jackson for the respective offices.

As a matter of fact Robert Jackson had nothing to do with it, the names were chosen and indorsed by Mrs. Bertha Montgomery, president of the Women's Republican Club of the Scond Ward of which there are 900 members.

Assessor Krutchoffi carefully considered the applicants and the indorsment of the President of the Second Ward Club and made the appointments without further investigation or hesitancy.

LIBERTY LIFE INSURANCE CO., A HUGE SUCESS.

The Liberty Life Insurance Company has inaugurated the most unique stock selling plan ever introduced to our people. This plan is known among the stockholders of the Company as, "One gets One".

As soon as a person becomes a stockholder he is requested to use all of his influence to interest another person to become a stockholder. In this way, we form a chain which brings all of those interested in the Company into direct contact with one another. By so doing, we are able to get people who are interested, and if they themselves are interested, we are certain that they will work even harder to interest someone else.

When the organization is completed by the adoption of this method every stockholder will have become acquainted with one another, thereby, forming the strongest foundation of workers ever associated with any Life Insurance Company in America.

Every Officer of the Company and also, every member of the Advisory Board, have become Agents, and as the result of their untiring efforts, the organization is being concluded much sooner than was previously expected.

WRONG KIND OF CORN GROWING IN GARDEN

Vicksburg, Miss., Feb. 3rd.—That Corn Whiskey doesn't grow in cab- a cabbage patch was shown by Judge Henry Martin in the Police Court Tuesday when Will Hoskins, was brough before him to explain why five gallons of the liquor had been found among the cabbage plants. Hoskins admitted ownership of the cabbage but expressed surprise that the Whiskey should have been underneath.

He was given time to recover from the surprise when Judge Martin said he could pay $50.00 and cost or work at the County jail for a while.

NOTES FROM STOCK YARDS LABOR COUNCIL

To Fight the Battles of All Workers, Regardless of Color, Race or Creed.

The following is submitted as some of the prominent principles of the Stock Yards Labor Council.

First—That the economic status of the Wage Earners is far from what it should be.

Second—That the Wage Earners themselves must take up the solution if they would be benefited substantially.

Third—That the standards of life of the colored man should be similar and equal to that of the white man.

Fourth—That the two races when brough in contact in the field of industry should co-operate understandingly to attain the desired ends.

Fifth — That less occasion for trouble between the races would exist if each had a better understanding of the struggles of the other and such an understanding had best come thru a labor union such as the Stock Yards Labor Council.

Sixth—That no great gain can be obtained by any group of workers apart from, and independent of, the other similar groups, hence the belief that all workers regardless of race, language or creed should become factors in the movement.

Under The Lash of The Whip

Kelly Miller comes out with a pamphlet on Radicalism and proves that he does not understand either the etymology of the word, its history, or meaning. Its a pity that our 'leaders' do not contribute something worth while to the race.

The Thieves of the time and opportunity, that are trying to raise money to fight the people with.

Alderman Anderson says that the "New Negroes" are "Reds". Nobody will accuse Louis of being a RED. Every one looks for nerve and Back bone in a red.

Col. Chas. Young says the Negro should be content and satisfied. Shame Colonel! You must be locking arms with "crooked politicians".

Major Jackson the "Automan" says the Negroes do not want social equality. Major does not know what the people do want. He must be short on "jack".

Oscar De Priest in his paper called the "Peoples Voice" published in April 1918, said Edd. Wright was arrested and fined for gambling. Now Oscar says that Edd is the people's choice for Ward Committeeman. If Yellow Reynolds was living the Politicians might put him up since they approve of gamblers in office. The people are in hard luck.

The enterprise says the "Kids" are trying to buck a strong organization. Nobody will ever accuse Tipper of bucking anything but the money Barrel $ $ $

Those "ladies" of our race that paint their faces and pencil their eye brows and then go "gold digging". Shame! Shame!

The Old Crowd Politicians had better run some "vamps" for office. Ed might spoil the picture.

The Peoples Movement Club says that Alderman Jackson villifies Race women. Now their leader says vote for him. What do you take us for, any way.

The old "me too Boss" hand in hand, types of leaders have presented the people with a lovely cross. A Double Cross. Poor Kaiser his iron crosses do not compare.

A certain Reverend Gentleman says that Negro Editors are ignorant and Shear Clipping. He evidently had the editor of the Enterprise in mind. We aggree.

Roscoe Simmons because he is the worlds greatest "Orator"? Somebody ought to present him with a lip stick.

Oh! Where is "Our Boy" tonight. He is behind closed doors scheming how to exploit his race. Who is "our Boy" ask Geo. Harding. He is a fighter in his sleep. During the Riot the Alderman left orders not to be disturbed.

Take me to the Midnight Ball. The "leaders" will be there under cover. Shame!

Those Pinch Back, simpering, lounge lizards, and parlor hounds who have the immitigated nerve to refer to virile fighting Negro manhood because they do not belong to "our set". God help the race if "your set" had to direct the destinies of an oppressed people. Come out of the shaded parlors and get your manicured hands dirty a bit and do something rather than talk so much.

Why, certainly. To a Democratic administration membership in the Communist party constitutes a "perfect case" for deportation, just as membership in the Negro race constitutes a "perfect case" for burning alive.

Mrs. Louise Meredith in "The Daily News" advocating secregation. Mrs. Meredith is supposed to be a welfare worker. She proves her ignorance in the question of segregation, because of her failure to make comparative analogies. Why not write on the Fifth wheel, The 9th Wonder or the Fourth demension.

A certain "Devine" ought to be careful whose house he gets caught in, instead of criticising the Editor on technicalities.

MURDERER PARDONED

Nashville, Tenn., Feb. 3.—Spen- [illegible] from 10 to 20 years for [illegible] the penitentiary, received a commutation to voluntary manslaughter in order that his indeterminate sentence might be brough to a close.

He has been in the penitentiary a long time and has made a splendid record as a prisoner. The Pardon Board on recommendation of Judge W. A. Owen, who is thruout conversant with the case, has recommended a pardon as the Negro did not have the benefit of having his witnesses heard in court. He has a home in Lipton County to which he can go. And Gov. Roberts gave him a pardon, feeling that the ends of justice had been met.

We can understand the reason for the man's conviction, but not for the so-called "twinge of consciousness" on the part of the Governor. Why not do a complete job, why not finish the order southern "justice" has started. The governor stated that the man had been unable to bring his witnesses into court. Well we ask, who ever heard of a colored man who was allowed that privilege in the South? The governor has a tinge of conscience; we want justic, we do not want to be arbitrarily convicted of crimes of which we have no chance to prove ourselves innocent, and then after a peaceful and angelic career in prison be benevolently pardoned by a kind hearted governor. We want to be judged by the laws of the land; acquitted or approved guilty on the merits of the case. This tinge of conscience stuff is too much like benevolent despotism, like self-satisfied smirking superiority. On the merits of the case we stand or fall and not upon the "kindly" consideration of power at most times evilly disposed.

To convict a man without allowing him to testify in his own behalf, to keep him in the penitentiary the better part of his life, and then to decree that he had had enough; what irony. Is it not but another way of Judge Lynch. Is it to sacrifice justice to wreck a man's life, to thrust him into the spirit breaking cells of the penitentiary, to keep him confined the better part of his life, to deprive him of all that makes life worth living, to deliberately pluck away his years as a maid might do the petals of a flower, and to leave him broken, here, divested of hope, of love, of friends, is this to satisfy justice? What justice? Why justice never once entered this case. It was a question of "he's only a nigger," it was a question of handling a human life as though it were a thing of naught to be pushed aside with impatience. This colored man was treated as being biologically [illegible] to the white judge. He was looked upon as being some sort of inferior monkey, some sort of curiosity not to be regarded seriously.

We dare say the man was not convicted in a vindicative spirit, but rather in a mood of careless indifference. "He's not worth bothering [illegible] and should [illegible] that the Colored man is beginning to take himself seriously. We thank God he has left for behind the happy go lucky optimistic grin and bear attitude that has for so long kept him in the position of subjection and inferiority. We thank God that the Negro has come to believe himself a man, that the superstition of the South has stung him into the vital consciousness of his wrongs and that finally he has begun to realize and has willingly embraced the ductum and if necessary defend his rights with force.

Equality in this world is founded on love, on an Angelic altruism. It is respect that makes one dog regard another as his equal, it is respect in its various degrees that lays at the bottom of the various class division, it is respect that accord to Japan the place of eminence she ocupies in the politics of the World today. The Negro already respects himself—He has acquired the force that will make others respect him. The Negro already respects himself—he has indeed already advance mightily in the estimation of others. We can feel the pulse of times, the trend of events, the onward march of spirit that will crown the Negro with the light of full manhood, full fledged respect with all its glorious privileges.

The most influential paper in Birmingham discussed in an editorial last week the question of Negro suffrage. It looked upon the possibility with favor. Is it because this paper feels kindly towards the Negro, is imbued with the so-called altruism? Not at all. It is merely a bit of uneasiness, a fear that this dog has been rolled in the dust, this creature that has so mildly submitted to unspeakable abuses, this "affair" which has as it were meekly accepted the position of inferiority, in which the white race placed him, might after all prove itself to be a man. It is the same fear that sent a small army to Dumas, Ark., last week. It is the same fear that is going to grow and grow until the very vistage of civil liberty and every one of a number of constitutional prerogatives are tendered a respected race.

WILL RECOGNIZE COLORED RACE

PHILADELPHIA, Jan. 31, 1920—Mayor Moore informed a delegation of members of the Citizens' Republican Club of Philadelphia, an organisation of colored men, that their race would receive recognition from the administration.

A. F. Stevens, who headed the delgation, asked that in all cases where it was necessary to discharge colored men from the city's payroll that successors be selected from the same race.

In response, the Mayor said that there were 100,000 colored persons in Philadelphia, and as a group they deserved proper recognition, and he promised to see that it was accorded them.

NEGROES IN AFRICA TO HAVE TRAINING SCHOOLS

Plans for the establishment of three large industrial training schools for Negroes in Africa were announced by the Rev. J. I. Bartholomew, centenary secretary of the Methodist Episcopal Church in Boston for this district. The estimated cost will be $225,000 which has been appropriated by the centenary conservation committee out of the $113,000,000 offering raised last summer.

The schools will be modeled after Tuskegee Institute, Alabama, and similar in stitutions in this country, and will be at Inhambance, Portuguese East Africa; old Umtali, Rhodesia and Angola, on the west coast. The courses of study will lay special stress upon agriculture. — Boston Mass. Feb. 1st.

LINCOLN LEAGUE MEETING

Cleveland, O. Feb. 3. — Ralph W. Tyler, the war correspondent, and Auditor for the Navy under the Roosevelt and Taft administrations, Thos. W. Fleming, member of Cleveland's City Council, Samuel Woods, real estate agent, and Col. Sidney Thompson, City street inspector, will form the delegation from this city that will come to Chicago for the Lincoln League meeting. Tyler may go on ahead of the rest of the party, and arrive there on the 10th.

MINISTERS vs. JONES' CAFETERIA

MINISTER'S CASE IN GRAND RAPIDS VS JONES CAFETERIA

Before Judge Dunham of Superior [illegible] Grand Rapids, [illegible]

The Case of Rev. Alexander C. Garner, Washington, D. C., vs R. E. Jones was called in the Superior Court before Judge Dunham. By agreement of Attorneys the trial was by Judge rather than jury. Embraced in the suit against Jones (who is said to have come from Arkansas) are the cases of Rev. W. N. DeBerry, Springfield, Mass., and Rev. Chas. W. Burton of Chicago. These men were denied service in a Cafeteria owned and operated by Jones. The incident occured Oct. 26th '19 during the time these men were delegates to the National Council of Congregational Church, then in council in Grand Rapids.

The Clergymen stated their testimony in the most approved style and their lawyer Hon. Fred A. Maynard was told by the court stenographer that he had never taken testimony given in a more satisfactory way. Jones was not present but his council and one witness represented him. Jones will testify later.

The line of defense was unique. No testimony was offered to show that the clergymen were denied service on account of color, but rather it was shown Jones did this with out authority from any one. He is said to have rented the Cafeteria part of his hotel one week before the unlawful ejection of the clergymen, but the first rent was received one day after the insult to the citizenship of the clergymen.

The ministers made a clear case and the dodge of transfered authority is but another way the white man has of cheating the law, in its operation in favor of justice to colored people. This was done to avoid damages. The case was clear but the defendent does not want to pay the cost of the law breaking.

The white man cheats the law and our people by technicalities but every injustice makes enemies against the present administration of the law. Such incidents not only humiliates the pride and inflames the passion of our people, but it aids organizations that would destroy the present social order. Here is also an irreparable injury to the confidence of these clergymen in their own white fellowship, who did nothing to aid these men in geting justice, although they passed a long resolution in the Convention at the time, it never got to the Public in the form it was adopted by the Convention.

These Clergymen have risen to positions of leadership in this demonition but achievement is no barrier to prejudice and public insult. Both Drs. Gardner and De Berry were elected as delegates from the white conferences and were elected to the positions of Asst. Moderatorship by white delegates, but this made no difference to the Arkansas Restaurant Keeper, who said it was his place and he would not feed colored people and then afterward said it was not his place.

The Judge in the case has not yet rendered his decission. He is said to be widly known for his fair and impartial judgement to one and all alike and much confidence is expressed in his decision in this matter.

Nevertheless one good thing has already come out of this trial, as the new owner of the said Cafeteria gave a sworn statement that he will not descriminate against any man.

JAPANESE EMIGRATION TO MEXICO NOT HALTED

Mexico City, Jan. 27.—With regard to statements attributed to the Japanese foreign minister, Viscount Uchida, that Japanese immigration to Mexico is controlled under an agreement between Japan and the United States, officials of the Japanese legation here are quoted in a statement published today as saying that Japanese immigration is continuing now, as formerly, without any difficulty or obstacles whatever. Immigration, the statement points out, has always been very small into Mexico, however.

These facts are held by the legation officials to show that there is no prohibition against the emigration of the Japanese to any country whatever in which they desire to settle.

The legation officials are also reported as denying a rumor that Baron Fugitaro Otori, Japanese minister to Mexico, has been replaced. Baron Otori has been in Japan for some months.

It is announced the Japanese cruiser. Yakumo, after touching at Panama, will again visit Mazatlan before leaving for Japan.

DEMANDS END OF LYNCHING

Agent for Negroes Urges Constitutional Amendment if Dyer Bill Fails.

Washington, Jan. 29.—Arthur B. Spingarn of New York, representing the [illegible] Association for the [illegible] committee today urged that in event the Dyer bill making lynchings a federal offense was held unconstitutional the constitution be amended. The government must find some means of stamping out lynchings, he said, and declared that if it is not possible under the constitution then the constitution should be amended.

TEXAS EVIDENCE

What Texas regards as sufficient to lynch a man was well illustrated the other day by a letter received by the Fort Worth record from an irate Texan. The letter inclosed the pictures of the five New York socialists who are being tried for sedition, with the wise comment, "This picture is all I need to hang the whole bunch" and adds "but its agin' the constitution."

We query what does a little thing like the constitution amount to the Texan? What is the good of knowing the constitution if it cannot be broken with impunity?

HYDE PARK AND KENWOOD PROTESTED AT ST. MARK'S CHURCH

Hyde Park & Kenwood Association Denounced.

Fifteen Hundred Colored Citizens gathered at St. Marks Church last Sunday, in a monster Mass Meeting under the auspicies of the Chicago Protective Association, in protest against the Hyde Park and Kenwood Property Owners.

The Protective Circle of Chicago to combat by every legal and legitimate means the propaganda of the Hyde Park Association and to this task only is it committed.

Dr. Chas. E. Bently, Vice President of the Chicago Branch of the N. A. A. C. P. spoke in behalf of the organization, assuring full cooperation explaining that with the other tasks of the association it was fitting that a special organization assume this task.

Aderman Aderson urged that every colored person should support our own Banks and building and loan associations to the end that every colored person owning property in Hyde Park [illegible] resolutions of the Circle and Atty Lewis Johnson spoke of the legal aspect of the situation.

CRITICISM IS ABSOLUTELY ESSENTIAL TO PUBLIC MORAL AND PUBLIC TASTE

DAVE PEYTON
Critic, writer and composer who edits this sheet.

Whip makes another catch. In keeping with policy of the Whip to secure the services of the best talent of the race to edit its columns, Mr. David Peyton, one of the best composers of America has been retained. Mr. Peyton has a reputation that speaks for itself; for years he has been stage manager and leader of the Grand Orchestra. He was at one time with the Chicago Searchlight. Besides his work at the Grand Theatre he has offices in the loop where he writes orchestrations for the best shows on the American stage. Mr. Peyton is a critic of rare ability — the members of the profession are sending letters daily complimenting the Whip in its new addition to its staff. Hundreds of the Whip's readers who have been anxious to read of the amusement world will be gratified to read Mr. Peyton's criticisms.

REVIEW

By David B. PEYTON.

THE GRAND THEATER—

Miller & Lyles closed a five week run at this house on Sunday night last. The Popular Comedians will take their show to the Lyceum Theatre, Cincinnati, Ohio.

The Grand Theatre returned to its original policy, Vaudeville played to capacity on Monday night.

The Headline attraction was the team of White and Bradford. They highly please the audience and leave them applauding wildly at the close of their act.

John Woods the renowned Ventroloquist also shared honors on the bill.

Little Henry was on the job and amused wonderfully. Some Act.

Other acts were Britt Wood, Tom Foaley and Co. and Ebeneezers' Mule. All were very good.

THE AVENUE—

"The Wolf" was very ably acted at the Popular Drama House.

The story was a very strong one kept the drama fans in a lul at the exciting situation that the price affords.

THE MONOGRAM THEATRE—

They were lined up out in front of this house before the play started Monday night.

Rockpile and Buster presented a funny act and made good.

Leslie Carter a clever comedian pleased.

Original Rags, who has not been on the Stroll for a year or more mistified the fans.

White and Langford was a fine act.

AT THE PICTURHOUSES—

VENDOME — This week "Live Sparks, The Tree of Knowledge" the "Isles of Quest" and the "Temperamental Wife."

THE PHOENIX—F. B. Warner in the "Fugitive" and "Antonio Moran" in the Invisible Hand" were the features this week.

THE PICKFORD — "Within the Gates" full house at this small picture house all week.

OWL—Vaudeville and feature pictures are presented here on Monday nights. Pictures the remainder of the week.

THE STATES—Coming Friday and Saturday Feb. 6th and 7th Douglas Fairbanks in "When the Clouds Roll Back". Sunday Feb. 8th Monroe Salisbery in "The Phantom Melody".

NEWS ABOUT THE ACTORS.

Floyd and Lenoir, one of the best acts playing the big Circuit are laying off this week taking a much needed rest.

Joe Bright, the famous Actor and Producer, will open an indefinite engagement at the Grand Theatre on Thursday. Mr. Bright won great laurels in the East the past three years, and will doubtless do the same here.

Tom Cross and his Abbysinian Trio are meeting with much success on the Gus Sun Times. [illegible] Minstrel Movies will start on route shortly. He will go West to entertain the Theatrical Fans.

The eldest son of Clarence Muse, the actor, is still confined in the Memorial Hospital, having gone there to have an operation. The boy is doing fine at this writing to the delight of his parents.

Bert Williams was a caller at the Writer's publishing house this week. Mr. Williams, the peer of all comedians, is preparing a few new songs for next season.

Jerome and Williams now playing together, have prospects of a bright future. Both are clever performers.

Wilber Sweatman and his Jazz Boys were a riot at the Palace this week, in the Loop. This is their first time in Chicago for a few years. "Sweat" as he is called stopped all the shows with his Clarinetst and his two assistants. The three Clarinets played at once was original and artistic.

Dave and Lillian will open at the Grand last half of this week.

Lew Canton is no longer booking the Grand Theatre. Geo. Webster, the veteran agent, is the booker.

May Kemp, formerly of the Kemps has taken a few weeks of the consolidated time. She plays Cincinnati this week.

Willie Taylor, the violinist, is leading the orchester at Dudley's Theatre in Detroit.

Herbert Byron of the Musical Byrons was in city for one day and paid a visit to Wilber Sweatmen, leavinf that night for Springfield, where he opened on Monday. The boys are doing fine.

BOTTOMS HAS NEW IDEA.

Always in the laboratory of Bill's mind there is a series of experiments. The object of these experiments is to ferret out something new, novel, and wholesome in the amusement line. The latest product from this genius is the "Midnight Frolics."

Every night from 12 to the "wee hours" in the morn an aggregation of Chicago's Best Talent will be in evidence.

Chinese and American Foods will be served at popular price.

Bill's latest invention is causing quite some favorable comment and those who have seen and danced to the Rythmic Harmonical Straines of the Dreamland Jazz Band says that it is irrisistible.

In Class by Himself.

On the whole Dreamland is in a class by itself. It truly can be called the excelsior of the Frolic and amusement. Bottoms has set a wonderful example for race business men. He does not ask for support on a basis of sentiment but because he has the largest and most pelatial place in Chicago, and fnally he gives more equitable returns.

You can not appreciate the Dreamland until you have been to other places and seen how much they are behind and how little they have to offer in comparison with the Dreamland.

LAFAYETTE PLAYERS

Patrons of the La Fayette Stock Company were disappointed at the non-apearance of Miss Evlyn Ellis in "Fine Feathers." They were further disappointed in Miss Charlotte Freeman, who did not make [illegible] to hold Miss Ellis in the back ground a little too long is the impression the patrons are arriving at.

TUSKEGEE'S ANNUAL REPORT SHOWS PROGRESS

The Annual Report of the Famous Negro School shows remarkable progress. The report submitted by Dr. R. R. Moton to the Trustees, has been carefully prepared and covers every important activity during the School term including highly interesting and informing side-lights on the economic conditions in the South as well as inter-racial situation. The Report also shows wonderful War results of the special traning of 1,229 men as auto-mechanics, chaffeurs, blacksmiths, leather workers, electricians, metal workers and other army activities. The Tuskegee tained workers gave most efficient serviec in the camps and over seas.

Rural Schools Increased.

In May 1919 at the time the report was completed there had been erected or was in the process of completion 720 Modern Schools for Negros; this particular work was made possible by the large donations of Mr. Julius Rosenwald, of Chicago. $1,133,083 was expended in these buildings making them model schools in the miniature of Tuskegee; of this amonnt expended Mr. Rosenwald gave $227,065.00. As Mr. Moton states, "Remarkable as these figures are, Mr. Rosenwald's benefactions cannot be measured merely in dollars and cents. Itl represents increased sympathy in education on the part of white and colored people, and links these schools in a vital way to the community, county and state."

Health Record.

[illegible] organization at Tuskegee is shown in a record of the activities during the influenza epidemic. According to their record 449 cases of influenza were treated in the Hospital, 32 of which developed into pneumonia, but there was not a single death. The report further shows that during the past five years there have been 6,828 cases treated in the Hospital with a total of 28 deaths, and out of 379 surgical operations there were but 8 deaths.

Such a report shows efficiency.

Academic Department.

The enrollment this year was 2,008 with 353 teachers. This does not include the Summer school. The Summer School was attended by 572 teachers and 1,229 soldiers in training.

Wonderful Work.

Tuskegee continues to be the greatest school of its kind in the world and the good that it does and the different ways that it touches the heart of he Great Southland can not be estimated or the results enumerated.

The Great Founder, Booker T. Washington is not dead; his spirit moves on and he is still serving his people.

Tuskegee will always live and always grow.

WOMAN DOCTOR FIRST SEIZED IN WHISKEY CHARGE

Dr. Anna Schultz, 3420 Calumet Ave., was the first person to be arrested on the charge of writing whiskey prescriptions indiscriminately. It has been reported she has received between three and five hundred dollars a day for prescriptions. The new 18th amendment provides that one pint of Whisky every 10 days may be subscribed for one person.

Many Drug Stores are doing a rushing bsiness and making enormous profits.

Druggists pay $4.00 a gallon for the whiskey and sell it for as high as $10.00 a pint on prescriptions which is profiteering to the limit.

The government threatens to establish a government whiskey dispensary if drug stores continue to charge the high prices. There have been numerous complaints about the [illegible] place is established it will take it out of the hands of the druggists utterly.

Mrs. Robert Brown is very ill at this date, Feb. 2nd.

The sewing Circle of the Grace M. E. Church met at Mrs. Jessie Rogers, 905 S. 14th St., last Thursday, Feb. 5th.

The Whip is on sale at 821 E. Washington St. It is the livest Negro Paper on our list. In the Whip also will be found Springfield activities.

Mr. J. Harold White is promoting the organization of a new State Political League.

We encourage the people to raise large gardens, small truck patches, chickens, poultry of all kinds and hogs. Stop waisting so much money on trivialities and the H. C. L. will be solved.

We often advise the colored people to always use the best manners and deport themselves circumspectly on the streets and all public places. This will prove a great asset in the colored race's favor. Remember it is us and not the other race that is always on trial. Another thing to which your attention is called in the Whip, is better conduct in their place of business, not allow that rag time, vulgar, noisy crowd to perform in a business, supposed to be first class for service. Do not allow loafing in [illegible] If you are conducting [illegible] a one chair Barber shop run it decently. Our Barber shops are improving but they will not yet stand a visit from the Health Department.

Colored Women will demand more respect if they command it by their deportment and seclusiveness. No one likes a forward woman.

Atty C. S. Gibbs played a big part in law suit in which two young white men of Chicago were charged with burglarizing the Lockman Bros. Jewelry Store recently. Mr. Gibbs is an orator and forceful in his presentation.

Mayor Byrd was in Chicago last week on business.

We are glad to see the colored launching out in the Grocery Business in a big way.

It is suggested that we have a meat-market soon.

The Dunbar Grocery and Confectionary will soon be opened at 1201 E. Washington St.

Mr. Mc Carry, Mrs. Lennell, S. 17th St. and Mr. L. J. Harris, contemplate on enlarging and improving their stores in the near future.

There are a number of colored men employed at the Constitutional Convention.

A Special Programme will be rendered Feb. 12 by the Ladies' Auxiliary of Spanish American War Veterans.

C. D. Pickett and A. Duncan have purchased a small farm and may make a Summer Resort and Small Park. It is located about 2½ miles from the city in an ideal place.

Parties who want the WHIP regularity will give their name and address to the carrier boy.

CHURCH NEWS

WEST SIDE CHURCH NEWS.

Park Ave. C. M. E. Church, Park and Robey Sts.

Rev. S. S. Washington, D. D. L. B.

Highly enjoyable sermon preached at 11 A. M. by Rev. Washington.

At 3 P. M., Rev. J. W. Colemen of Central Park Baptist Church — South Side— preached the Epworth League Annual Sermon. He was accompanied by Rev. W. M. Barrie, (white.)

Night services were excellent and collection also good.

We were very much pleased to have our Presiding Elder, Rev. H. C. Coggins with us.

Rev. H. M. Carroll of Fulton St. M. E. Church will preach the Annual Sermon for the Coggins Board No. 2 Sunday, Feb. 8th at 3 P. M. All members and friends are asked to be present.

Prof. W. S. Thomas, Organist, F. L. Perdomo, Director.

QUINN CHAPEL CHURCH NOTES.

On Sunday morning, February 1, our pastor Dr. H. E. Stewart, delivered his first sermon of a series of sermons on "The Present Crisis and How To Meet It". The subject was based on the Acts of The Apostles, 7th chapter.

Dr. Stewart brought before us the crisis of the early days of the church and how it was met at that time, and further stated that the way it was met at that times is the way we must meet it today, namely: By prayer and waiting on the Lord. And whenever God knows that men are praying, he is going to help them and as surely as we wait upon the Lord, He will come and abide with us, and we will be new creatures. He will send the comforter who will walk with us in darkness if we only hear the voice of God saying, "Stand Still and Wait."

Next Sunday morning the pastor will preach his third sermon on how to prepare for the present crisis. Morning service begins 11.45 and closes 12.445. There will also be an after service.

At 5 o'clock Sunday afternoon all graduates and under graduates will meet at Quinn Chael to arrange for Founder's Day.

Bible Class taught by the pastor will continue its meetings every Wednesday evening.

LINCOLN CONGREGATIONAL CHURCH

Members aroused for New Church.

The Lincoln Memorial Congregational Church, Camplain Ave. and E. 65th St., was badly damaged by fire Wednesday, Jan. 28th and the flock of Rev. Chas. W. Burton, Pastor, is temporarely without a church home. The question as to the future of the church has not been fully determined, but there is a strong sentiment crystilizing in favor of building a great institutional Church and Community House that will stand open every day in the week to serve all the needs of the community and the complete needs of the complex life of man. The pastor of the church, Rev. Chas. Wesley Burton, M. A. of Yale has a high vision for the modern church. His hope is to build up or buy a church well equiped for social service work, and among the special features the church will inaugurate will be a Gymnasium, Swimming Pool, Shower Baths, Club Rooms, for bays and girls, men and women, Kindergarten, Night Shool, School of Commerce, Music School, Public Library and Reading Rooms, Cooking and Sewing Classes, Public Forum, Employment Bureau, and several other features in addition to the usual religious services.

The Lincoln Church is just now entering into a financial campaign to raise five thousand dollars by Easter Sunday, and the whole city of Chicago will be called upon to help the most worthy enterprise. This church is largely made up of graduates, former students, and well wishers of American Missionary Association Schools and Colleges and claim several hundred adherents and friends in Chicago.

This whole constituency as well as the public at large will be appealed to for aid and it is hoped that everybody will rally to support this deserving Church and needed Community Enterprise.

YOUNG DOCTORS OPEN MODERNLY EQUIPPED SUITE.

Two Dentists and Physician associated in program of health conservation. X-Ray and all modern appliances installed.

For the first time, colored professional men have actually initiated a program aimed definitely at scientific health conservation, through the association of specialists, and the installation of the best equipment known to the dental and medical profession.

Dr. T. C. Chapman, was for eighteen years a most successful practioner of Kansas City, Mo. He is an expert in the administration of nitrous oxide and oxygen, having acted as demonstrator for the A. C. Clark Dental Specialties Co., of Chicago in demonstrations conducted at the National Medical Association Conventions held in Nashville, St. Louis, and Kansas City. Dr. Chapman is the senior member of the dental firm. His specialty will be the administration of nitrous oxide and oxygen and conductive anaesthesia for the surgical removal of teeth and the preparation of sensitive cavities for the reception of fillings, crown and bridge work.

Dr. Park Tancil was dental surgeon for three years with the Eight Illinois Regiment, having received the Croix de Guerre for service at the front. This is significant in that only two dentists in the entire A. E. F. were awarded this honor. He has practised dentistry for ten years and while in France was invited by Dr. Goubel, Chirugien-Dentiste de la Faculte de Medicine de Paris and head of the Clinical Dental College of Paris, to remain and practice dentistry in Paris. His specialty will be prophylactic dentistry, X-Ray, crown and bridge-work. The use of the X-Ray provides an exact guide as to the actual conditions present and prevents gues-work and failure to afford permanent relief.

Dr. H. Llewellyn Harris, Jr., physician and nutrition specialist. Dr. Harris has practiced medicine for ten years. He served as first-lieutenant in the Medical Corps of the Army. His emphasis on nutrition is a result of this experience and since his return to civil practise he has studied under Dr. W. R. P. merson, Ex-Health Commissioner of New York and founder of the Nutritional Clinic of Boston for delicate children. His specialty will be diseases and disorders of nutrition. Dr. Harris believes it more important to keep well than to get well and attempts to so instruct his patients in dietary and living conditions to the end of reducing illness to a minimum.

The offices, at the Avenue Theatre Bldg., on the southwest corner of Indiana Avenue and 31st Street, comprise a suite of seven rooms and are arranged with a view to comfort and efficiency. They represent an expenditure of more than eleven thousand dollars.

SPORTING NEWS

Fighting Kid Grant, known as the Whirlwind Fighter of Charleston, S. Carolina is drawing some attention as well as some money in his direction. Grant is a light weight, 133 pounds and bids fair to be Joe Gans, the second. He fears no one and invites a bout with any in his class.

Young Grant needs no introduction to the South having fougt successfully in Charleston, Savannah, Miami, Fla., New York, New Jersey and London, Eng. He is a clean, straight fighter and knows all the points of the game.

To reach his manager white Hugh W. Thompson, 224 St. Phillip St., Charleston, S. Carolina. Grant is ready at any time to take on a real bout with some one like Arthur Stigall, Leo Johnson, or Bennie Leonard.

ST. CHRISTOPHER DEFEATS HAMPTON

By Charles H. Williams.

HAMPTON, VA., Feb. — The St. Christopher team of St. Philip's Church, New York, defeated Hampton, in one of the fastest basketball games ever seen here, by a score of 30 to 14. The "Red and Black Machine" lived up to its reputation for wonderful team work. Its passing and shooting, not only thrilled the spectators, but at times took its opponents off their feet. Hapmton scored first and led for the first few moments, but their joy was short-lived, as the first half ended 17 to 6, in favor of St. Christopher.

The second half began with St. Christopher again leading in the score. The Hampton rooters, losing all hope of winning the game, began to enjoy the sensational playing of the visitors.

This victory places St. Christopher and Hampton on an even basis. In the six games played, both have three victories to their credit.

The visitors excelled in every department of the game and gave one of the finest exhibitions of basketball ever seen here. Although the game was hard played, it was free from roughness and unsportsmanlike conduct.

The line-up was as follows:

Hampton (14)
Phillips (Captain) R. F.
McLaren L. F.
Bradby C.
Freeman L. G.
Wright R. G.
St. Christopher (30)
Capers
Robbins
Jenkins, H.
Jenkins, C.
Fiell.

Substitutes for Hampton — Jones, Saunders, Owl; St. Christopher — Robeson, Rose, Parker, Scott, Hopkins

Referee — Dr. Huddy Oliver
Scorers — Dr. Eugene Williams and E. P. Lovett
Timekeeper — Walter R. Brown
Time of halves — 20 minutes
Score — St. Christopher, 30; — Hampton, 14.

JACK JOHNSON CAN COME BACK

Jack has grown weary of the sandy arena, and click, click of the Moving Picture machines, and the dodging of the horns of the maddened bull, and wants to shake hands in the rope ring one more in the United States. He is now pining to embroce Jack Dempsey. Jack Dempsey, however, thinks he had enough trouble lately without Jack trying to add further to his mental suffering by inflicting physical injuries.

The difficulty with the government so far has proved to be an obstacle that Jasck has not been able to knock out yet. For Jack to return he would have to pay the one year and a day that he owes to Fort Leavenworth Penitentiary for violating the "white slave" law, besides Jack jumped his bail of $15,000 bail bond when he went to Montreal, before his trial came up in the "white slave" matter.

It is rumored that Jack has tried to negotiate with Charles F. Clyne, District Attorney, but Mr. Clyne says no negotiations can be mad with a fugitive from justice.

Jack says Dempsey cannot claim the world's title withot fighting him; this may be true but we hope Jack will consider well how much it may cost him to get the chance to meet Dempsey. No one should know better than Jack the ins and outs of the "Land of the Free and the Home of the Brave."

FULTON KNOCKS OUT FOE

BOSTON, Mass., Feb. 4. — Fred Fulton, the Minnesota plasterer, put a decided damper on the heavyweight aspirations of John Lester Johnson, Negro boxer, at Mechanics Building last night when he won their scheduled twelve-round bout in the eighth round on a knockout.

MISSISSIPPI NIGHT SCHOOLS

Jackson, Miss., Feb. 3.—Dr. S. O. Redmond, physician of Jackson and one of the most prominent citizens of the state has inaugurated a movement to establish consecutively thru out the state a system of night schools for the benefit of all colored people above school age. In this undertaking Dr. Redmond desires to enlist the co-operation of all preachers and school teachers in spreading the information. [illegible] ing these derelicts in reading and writing once started would be easy for I feel sure that most persons of education would be only too glad to assist in this great work." The plan adopted will seek to teach any adult to read and write within sixty days and under an intensified campaign it is hoped that fully half of Mississippi's illiteracy among Negroes should be wiped out within the next six months, thereby giving the state a higher rank among the states of the nation as well as equipping its colored population with that intelligence which will make them better appreciate their surroundings.

Dr. Redmond firmly believes that the future welfare, progress and prosperity of every people, race and nation depends almost wholly upon the intelligence and mental development of the people and that the abnormal ignorance of the Negroes in Mississippi serves as a barrier to all progress.

THE WHITE MAN'S BURDEN

Burlington, Vt., Feb. 1, 1920. — "Governor Thomas W. Bickett, of North Carolina at the closing session of the Tuskegee Negro Conference said, "The white man owes it to his own tradition to his own self-respect and to his own self-preservation to guarantee to the Negro the fullest protection of the law. The South, in denying to the Negro any participation in the making and in the administration of the law, makes him in a very sacred sense the ward of law."

"Real greatness and progress of men, of races and of nations are measured not by power or possessions but by their contribution to the forces that make life brighter and sweeter for the average man. I urge you to hearken to the wisdom of Booker Washington when he said 'we ought not allow our grievances to overshadow our opportunities.'"

"White men owe it to themselves, the community, the State and nation to keep the laws which they themselves have enacted and to see to it that all law-abiding Negroes are guaranteed such protection and enjoyment of every right and privilege that any other good citizen enjoys. If this is done the Negro will be content to live in the south and will prove as valuable and trustworthy citizens as any other group in the nation, and particularly in the south, which will then be secure against Bolshevism and other dangerous isms."

PLATFORM OF THE UNITED POLITICAL LEAGUE.

Because of the present unsatisfactory order of social, political and economic affairs we feel that it is incumbent upon us to offer substantial remedies thru an intelegent constructive political organization. We are further cognizant of the fact that if the present conditions prevail the social, political and economic rights [illegible] and in the end we have organized the United Political League and adopt the following platform.

1. We believe that any clearly differentiated group is best represented by a member of that group; therefore, we reccommend that this principle be applied in the selection of a representative to Congress from the 1st Congressional district and a State Senator from the 3rd Senatorial district. And we further believe that all groups should be represented on the Board of Health and the Board of Education.

2. We advocate a general educational program in economic and politics to insure a fuller knowledge of American Institutions and to enable the voters to procure the proper kind of representation.

3. We stand for the abolition of all institutions and propaganda that seek to discriminate, segrogate, intimidate and deny equal privileges to American citizens, most specifically the Hyde Park, Kenwood, Marquette, Park Manor, Oak Park, Englewood and all kindred organizations.

4. We stand for Public ownership and the democratic operation of Public utilities.

5. We stand for Civil Service free from political influences.

6. We favor federal legislation against lynching, Jim Crowism and disfranchisement with adequate enforcing measures.

7. We stand unqualifiedly for full suffrage for Women.

8. We are opposed to Boss rule, machine made candidates and sinecure positions.

9. We stand for the election of men to office on the basis of merit and qualification and feel that their official conduct should be closely scrutinized.

10. We are unalterably opposed to vice, immunity priviledge and graft.

11. We believe that our ordinances relative to city contracts should be scrupulously enforced and not subject to patronage abuses.

12. We stand for better housing conditions and cheaper rentals.

13. We favor the employment of more effective means to have cleaner streets and alleys in all districts populated by working people.

14. We favor the extension of free milk and infant welfare stations into all districts.

15. We favor the establishment of a well equipped Public Library and Public park within the district bounded on the north by 31st St. on the south by 37th St., on the west by State St. and on the east by the lake.

16. We endorse the principle of a 100 per-cent true and genuine Americanism.

T. S. WADE TAKES BUSINESS TRIP TO OKLAHOMA

Mr. T. S. Wade, wealthy race man and Vice-president of the Universal Profit Sharing Stores Company left the city this week to surprise his large oil interests in his former home town Enid, Okla.

A Thoro Race Man.

Mr. Wade is reputed to be worth not less than $500.000. Despite this immense wealth he is a very plain [illegible] too busy to listen to anyone, who [illegible] eral uplift of our people, since his advent in Chicago he has purchased a palatial home at 3715 Vincennes Ave. which is a credit to his taste. Thru the efforts of Mr. O. E. Robinson and T. W. Allen, Mr. Wade persuaded to become interested in the Universal Profit Sharing Stores Co. Thru his assistance and cooperation this company is second to none of its kind in the civilized world.

Mr. Wade says that he does not wish publicity or notority, but, he is going to use both his money and brain to the best interest of his race and community.

SOCIALISTS PROTEST DELAY OF N. Y. TRIAL.

Albany, N. Y., Jan. 28.—Public sympathy, as manifested by the attitude of 800 spectators who jammed the assembly hall of the capitol the third day of the hearing of the suspended socialistic five, seemed to swing slightly in favor of the five assemblymen when Morris Hillquit and Seymour Stedman, for the Socialists, put up a scintillating defense, only to have every motion overruled by Chairman Martin.

Seventh—That the colored workers should be benefited and taken into consideration in all labor operations and that they should perform their duties in making such operation successful.

Eighth—That there should be no discrimination in any industry against a worker because of his color, creed or nationality.

Ninth—That is a business proposition of the employers, and especially those who employ in large numbers men and women to keep the workers divided in sentiment wherever and however possible to prevent [illegible] workers.

Tenth — That all conscientious leaders of all the workers who have an interest in the welfare of the working men should lend their moral support to a safe and sane solution of so important a problem as the one in question, namely: that of encouraging and advising the workers to come to an intelligent understanding of the general problems confronting all.

Riot Claims

(Continued from page 1.)

people, a majority of whom are the sufferers and contenders for their civil and legal rights in these cases.

Now we ask you, Mr. Corporation Counsel, what you intend to do to settle up these existing conditions and grievances among the people, after the Courts have sustained the Declaration fied, and olverruled your demurrer on behalf of one of these sufferers. We await your answer and especially the colored voters of Chicago.

Hundreds of thousands of dollars of personal property was lost. Hundreds of persons sustained, injuries during this unmerciful, unwarranted and undeterred riot in Chicago. Children have made to become fatherless; women have become widows, as a result of its damnable stench; yet you, the city of Chicago, County of Cook and State of Illinois have refused to listen to the appeals for succor, guaranteed to these people by the laws of our Commonwealth.

Again, we ask: "What are you going to do?"

Judge David first became known throughout the world when he took the bold stand for Asst. U. S. Attorney General Wm. Lewis, when an effort was made to expel him from membership in the American Bar Association on account of his color.

Renfroe was represented by Attyney James A. Terry, assisted by Atty. A. L. Williams, who represented the Chicago Peace and Protective League, and Attorneys Richard E. Westbrook and George W. Blackwell, appeared in behalf of sixty three other claimants, this being the first test case.

FRENCH FLOCK TO SEE APPARATION OF VIRGIN

—Although claims that an apparition of the Virgin had been seen at Noveant, a village near here, have been proved without foundation, crowds continue to flock to the place. So great is the throng wishing to see the phenomenon, which is caused by the shadows of two trees, that special automobile service has been established between this city and the village. Every house in Noveant and in the adjacent country is filled with pilgrims who believe there is something supernatural in the illusion.

CAPITAL AND LABOR MEET IN CHURCH CONFERENCE

Pittsburgh, Jan. 29.—John D. Rockefeller, Jr., and Frank Morrison secretary of the American Federation of Labor, were announced today as two of the principal speakers at a national laymen's conference to assemble here Saturday to "consider the whole task of the Protestant Churches of North America at home and abroad."

The conference will last three days. Daniel A. Poling, director of the laymen's activities department of the interchurch movement, who planned the conference, announced that about 250 delegates representing every state, will be present.

Among the other speakers announced are Gov. Henry J. Allen of Kansas, Gov. Carl E. Milliken of Maine, Attorney General A. Mitchell Palmer, John R. Mott and a number of others closely connected with the interchurch movement.

Subjects to be considered will be the "Layman and his life," the "Layman and the evangelistic programme," and the "Layman and his money."

WHITE MAN GETS SEVEN YEARS FOR KILLING NEGRO

Augusta, Ga., Feb. 3rd.—James Shipps, a young white man who recently killed a colored cook in a local hotel, where, it is alleged, the latter refused to serve him a gizzard with a chicken order, Monday was was found guilty of manslaughter and sentenced to seven years at the State Farm.

This seems too astonishing to be true. We wager the man will be released after the noise of the affair has blown over. He was convicted, let it be known through the intervention of the manager of the hotel who vigorously prosecuted the white man. This is only a starter. The Negro in America will never rest satisfied until cases like this have become the rule, not the exception.

TEARS CISTERN AWAY TO RESCUE COW

Calls Out Fire Department.

Louisville, Ky., Feb. 3.—Taylor Standard, colored was subjected to an experience of excrutiating agony and suspense yesterday. His cow dropped down the cistern. Uh, huh! right through the hole and into five feet of water. How Bossey ever took it into her head to investigate the mossy coolness of the well, is not known, but it is believed that like the dog in the fable, her ire was aroused by the presence of cow No. 2 in the bottom of the well.

At any rate Standard heard the plunge and rushed out frantically with the clothes line. After unsuc[illegible] her aloft [illegible] called the Fire Department, [illegible] sponded to his call, dug a trench, tore out the side of the well and led poor Bossey forth in to the light.

The unfortunate bovine was nearly frozen after her two hour stay in ice water, and Standard was left frantically massaging her legs in order to restore circulation.

The Firemen though Standard would probably have ice-cream instead of milk for supper.

HUMANE SACRIFICE MADE IN HAITI

Reports from Haiti tend to show that the efforts of America to civilize the natives are being offect by the practise of Voodooism. This savage and almost increditable weird superstition is supposed to have been brought to America and West Indies when slaves were imported from the Wilds of Africa.

In the milder manifestations as in America, it has seldom passed the bounds of comparatively harmless play upon the superstitious fears of illiterate colored people. But in Haiti human lives are being sacrificed, and cannibalism is practised. The Jungle cult teachers think Evil is stronger than Good, but the souls of the departed become furies, and that one's deceased relatives try to bring them harm.

These forces of iniquity, it is taught can be frustrated by charms sold by priests, male and female, called respectively, "papalvi" and "wamam-loi."

When the priests hold their secret meeting a human being is killed and the priests drink his blood. 90 per cent of the natives in Haiti practise Voodooism, believe in it or are in fear of it and its devotees. Just how much voodooism has survived in the Southern states is not known, but in recent years traces of it have been developed in testimoneys in the police courts. On many occasions fights have been caused by plaing crossed sticks on door steps. Little twists of human hair cunningly arranged have been long held in awe.

DEAN WILLIAMS PICKENS JOINS N.A.A.C.P. STAFF

Noted Orator Resigns as Dean of Morgan College to Devote Himself to Organization.

The National Association for the Advancement of Colored People, 70 Fifth Avenue, New York, announces that William Pickens has resigned as Dean of Morgan College to join the Association's staff and will devote his entire time to the organization of Negroes throughout the United States.

No orator of the race is so well known to colored Americans as Mr. Pickens. Native of Anderson County, South Carolina, where he was born in 1881, he migrated to Arkansas with his parents in 1888 and entered the schools of North Little Rock in 1891.

His oratorical ability was manifested at an early age as he was valedictorian of his class in the Union High School of Little Rock. During his career in Talladega College, Alabama, he led in all his studies and won a number of oratorical and literary prizes. Upon his being graduated from Talladega, Mr. Pickens entered Yale University in 1902 and here, in a class of 300 men, he captured one of that institution's most coveted honors, the Henry James Ten Eyck Oratorical Prize.

He was also elected to America's foremost honorary society among college men, Phi Beta Kappa, and was graduated from Yale in the highest rank of his class, delivering the Philosophical Oration.

From the time of his graduation from Yale, in 1904, until he joined the staff of the National Association for the Advancement of Colored People in 1920, Mr. Pickens devoted himself to teaching. He was teacher of languages at Talladega College and Professor of Greek and Sociology at Wilely University, Tex., becoming dean of Morgan College in 1915. In the year 1913 Mr. Pickens interrupted his academic career to travel in Europe.

With his election as vice president of Morgan College in 1918, Mr. Pickens established a record as the first of his race to hold that office and the office of dean also.

The record of Mr. Picken's service to his race is a long and a varied one. He was a member of the Niagara Movement and with J. E. Spingarn he started the movement in Louisville, Kentucky, which resulted in the decision of the United States Supreme Court against segregation in American cities.

When he became dean of Morgan College the plant consisted of one building on a fraction of an acre. He leaves it, after five years, with [illegible] buildings [illegible] and with great [illegible] promise of a bright future.

During [illegible] was instrumental, together with Major Spingarn, in originating the movement for a colored officers training camp and the result was the first of such camps at Des Moines, Iowa. He was in addition a member of colored section of the Maryland Council of Defense.

The National Association for the Advancement of Colored People announces that Mr. Pickens is to have the title of Associate Field Secretary.

PYRAMID MUTUAL.

Mr. Edward Bowen, who was formerly with the Union Mutual, a Million Dollar Colored Insurance Company which operated in all the southern states, is now General Manager for the Pyramid Mutual Casualty Company of Chicago. Mr. Bowen, has had fourteen years of Insurance experience and was at one time Supervisor of Agents in several of the southern states.

The Pyramid Mutual Casualty Company is fortunate in obtaining the services of this high-class Insurance man.

The city of Chicago hands Mr. Edward Bowen the keys to the city, and hopes that he will assist in making Chicago the foremost Insurance city of the world.

He is now located at the Home Office of the Pyramid Mutual Casualty Company, 3539 So. State St., where he will be glad to see his many thousands of friends.

TO THE VOTERS OF SECOND WARD

It has been repeatedly said that the voters of the second ward of the City of Chicago, had not the independence to cast their ballot for their best interest, but were led by job holders who were under instructions from the Bosses and did not have the interest of the People at heart. For many years in political circles it has been presumed by the Bosses that the voters could be bought and sold as chattels and therefore no consideration has been given to the interest and condition of the Ward, but by giving a few jobs to the so-called leaders and distributing money on election day, under the guise of employing workers, the will of the Bosses has been carried out to the letter. In the campaign of 1918 there were two contending forces bidding for the suffrage of the voters of this ward. Much publicity was given through the press and various pamphlets concerning the unfitness of the candidates and signed by men prominent in the affairs of this ward. We have now the same candidates who after a Harmony Dinner attempting to tell the voters of this ward that the information then given to the voters in 1918 concerning the charges of graft and incompetency one of the other should be forgotten and that you should re-elect to the City Council one of those candidates. At times one is compelled to wonder whether the Bosses think the voters can be misled in such crude manner. In accord with the presumption of the Bosses a few jobs have been given and the Ward neglected, and again the Bosses have selected as the representative of this Ward against the wishes of the people an official who has failed to represent the voters of this Ward. A look at the streets and alleys in this Ward will convince the most casual observer that the filth and stench therein found is nowhere in the City of Chicago duplicated, for instance compare the Hyde Park, Kenwood and Lake Shore Drive districts and then consider that each Ward has an equal number of Aldermen and the evidence is conclusive that the representatives of this ward have not served the interest of the People who gave them their suffrage and made it possible for them to be elected, but that they have served the interest of the Bosses who distributed the funds on election day. Again during the past several months many homes of Negro Citizens have been BOOMED and not one substantial move has been made by the representatives of this Ward in the City Council. We ask you, Mr. and Mrs. Voter: If you know of any other Race of People whose homes have been destroyed, for no other reason, than the fact that they were members of a particular race, except the members of the Negro Race and their homes? If you know of any other group of people whose representatives have failed to take any action to protect their homes and lives? We ask you if you believe that if the homes of other racial groups had been destroyed as our homes have been and their representatives had sat like dumb cattle being driven to slaughter would they re-elect them to represent their interest in the City oCuncil? We ask you if the police officers unjustifiably raided the homes of decent and [illegible] citizens [illegible] household [illegible] call for their friends to obtain bonds for their release, and their representatives had utterly failed and neglected to protest against such outrages perpetrated on the citizens, as is now being done in the Second Ward, would any other racial group re-elect such representatives to the City Council? We ask you to inspect the bathing beaches in other districts, then go to the 26th Street Beach, in this Ward and note the comparison. The Bosses have other work for their selected Alderman to perform and your interest are therefore neglected. The Bosses spend the money on election day and thereby reap the results of their investment. These conditions will continue to prevail unless you Mr. and Mrs. Voter have reached the point, wherein you cannot be bought and sold on Election Day and persuaded by the petty job holders and hangers on to vote for the candidate selected and dictated to by the Bosses, BUT WILL EXERCISE YOUR INDEPENDENCE AS AMERICAN CITIZENS AND VOTE FOR THE CANDIDATE OF PEOPLE, WHO WILL BE SUBJECT TO YOUR ORDERS AND NOT TO THE BOSSES BECAUSE OF THE MONEY THEY HAVE SPENT PAYING YOU FOR YOUR SUFFRAGE. The UNITED POLITICAL LEAGUE, composed of citizens who want an ALDERMAN to represent the People and not the Bosses submit to your consideration RICHARD E. WESTBROOKS, Republican, Candidate for Aldeman of the SECOND WARD. Election February 24th, 1920. Both Men and Women vote for this office.

COLORED PARSON SEEKS TWO BARRELS OF IT

New Orleans, Fb. 3.—A colored parson clad in his ministerial garb, entered the office of Rufus W. Toutmet, collector of Internal Revenue, a few days ago. He inquired of the collector, whether his office was the place where the chrch wine was to be had.

"This is the place where permits are issued for the use of sacramental wines," answered Mr. Toutmet, "How much of it do you want?"

The Parson replied that he needed two large barrels of good claret, "because I've got quite a large flock."—He got it—not.

8th REGIMENT NOTES

Colonel Otis B. Duncan adressed a large and enthusiastic audience at Indianapolis a few days ago. His subject "Moral Reectitude" was well received. After returning from Springfield, the Colonel made a hurried inspection tour of the down State Companies, and found the 3rd Battalion progressing nicely with their recruiting campaign.

Orders from Governor Lowden have been received directing that Headquarters Company, including the Band Section, the Supply Company B, be formally mustered into the service of the State of Illinois on the evening of February 11th. These three companies have filled their quota and after the muster requisitions will go forward for their arms and equipment. Lieutenant Colonel John H. Patton has been appointed Inspection and Mustering Officer to muster the above mentioned Companies. The remaining companies will be mustered as soon as they secure the required number of men.

The 17th Annual Military Ball will be given on Thursday Eve, February 12th (Lincoln's Birthday) and this affair promises to eclipse all previous affairs. All soldiers and former soldiers are invited to attend in uniform and all our overseas heroes are expected to be present. Miss Essie Arnold, who is in charge of the Ladies' Committee, has been succerrful in creating added interest in the Ball.

Captain Robert L. Chavis, Commanding Company F, has returned to the City after a very pleasant sojourn in the South and is in active charge of the recruitment and reorganization of his Company.

The Regimental Basket Ball Team journeyed to Gary last week and added to its collection the scalp of the Gary Independents. A red hot game has been scheduled with the Emmerson St. Y. M. C. A. Team at Evanston and Lieutenant Johnson is putting his team through some strenuous practice in order to get the team in the best possible condition for the game.

The Prairie Tennis Club gave a very delightful Whist Party and Dance in the Colonel's Quarters last Thursday Evening. The Indoor Tennis [illegible] the court has been started.

[illegible] recruits needed to fill the regiment extra effort is being made to induce former service men to re-enlist while there is a change. Former service men are being enlisted for one year and all others for either one or three years, in the latter case the proportion of one and three year enlistments is in the proportion of one to two. On account of enlistments being practically all made within the past few months, there will be no discharges within the next year and after the quota is filled it will be impossible to join the regiment until some man is discharged.

Y.W.C.A. NOTES

The opening of the Blue Triangle Club was Tuesday evening, Jan. 27, from 3 to 10. A number of visitors were present and a most enjoyable time was had. The club is beautifully decorated. The color scheme being of blue and gold. It contains an Assembly Room, Library, Rest Room, a Kitchenette and shower bath. All girls are invited to become members of the "Girl Reserves" and help share these comforts and privileges.

The Vesper services Feb. 1, were largely attended. Rev. D. V. Bower of Liberty Baptist Church gave a very interesting talk. A female choir and the regular Liberty choir, both under the direction of Prof. A. W. Berry rendered most excellent music.

Julius F. Braum, L. L. B. will be in charge of Vesper services next Sunday, Feb. 8, special music is being prepared for the occasion.

Next Thursday evening's social will be held Feb. 5, in the Assembly Room of The Blue Triangle Club. Games and Community singing will be a part of the program. The public has a standing invitation to these socials.

When passing the Association building at 3541 Indiana Ave. don't forget to observe the servicable gift which has just arrived, "A Bulletin Board" given the Association by Aldermen Jackson and Anderson.

Y.M.C.A. NOTES

Success is the goal of all right thinking and forward looking men. Many elements enter into the winning of such a goal. The Y. M. C. A. mindful of all round manhood, has developed various methods of assisting men to reach the goal of success. One of the methods the Y. M. C. A. uses is to help men master money rather than to be a slave to it. The ability to earn adequately, spend wisely, and save consistently may mean the difference between success and failure — between prosperity and poverty — between a christian home and a prison cell. The following ten steps to success are suggested:

1 Work and earn
2 Make a budget
3 Keep a record of expenditures
4 Have a Bank account
5 Carry Life Insurance
6 Make a will
7 Own your own home
8 Pay your bills promptly
9 Share with others
10 Join the Y. M. C. A.

Mr. B. T. Ransom, Chairman of the Board of Directors of the Y. M. C. A. in Indianapolis, paid us a visit last week. Mr. Ransom is also General Manager of the Madam C. J. Walker Company, and is a great man. The Y. M. C. A. needs more men like Mr. Ransom.

The Morris Glee Club is out for 200 members. The Armour Glee Club is out for a like number.

Mr. Robt. F. Tinsley has joined the staff as Activities Secretary. Mr. Tinsley is an ordained minister with seventeen months experience as Y. M. C. A. War Service Secretary.

Mr. Geo. W. Johnson is now in charge of the Boys' Work. Mr. Johnson is an Oberlin graduate with several years teaching experience at Morehouse College, Atlanta, Georgia.

Judge Victor P. Arnold of the Juvenile Court will deliver an adress on "Juvenile Delinquency," Thursday evening, February 5, under the auspices of the Ladies Auxiliary club. Music will be furnished by the Imperial Four.

The Subscribtion Campaign closed Tuesday with Wabash Avenue Department securing $7100 of the $10000 needed for the year's subscribtion budget. The campaign lasted eight days.

EDITORS' MAIL

Detroit, Mich., January 27th 1920
The WHIP, Chicago, Ills.
Gentlemen:

In behalf of the Publicity Committee selected for the politial prisoner recently arrested in Detroit, I am herewith mailing you a compilation of some of the facts conneted with the recent raid in Detroit.

Your paper is at liberty to make use of this Verbatim if they desire without credit, or they may boil it down, reduce or revise it in any manner they may see fit, as long as the changes are not inconsistent with the contents.

Sincerely yours,
Henry Glicman,
Attorney for Publicity Bureau
1023 Penobscot Bldg., Detroit, Mich

In the recent raids on "Reds" in Detroit carried on by the Department of Justice, the agents of the "Justice Department" of "our" government displayed a brutality and "efficiency" as man-hunters which compares quite favorably with the vandalism of the horrible Hun.

Promptly at nine in the evening of January 2nd, these "agents" together with several hundred police descended upon 23 different halls in the city, where meetings, dances and socials were being held. Men of every nationality and creed, and of all shades of political opinion, were thrown into waiting patrol wagons and herded into the various jails and "bull-pens". On the top floor of the Federal building seven hundred men were kept for days without food or water, and without toilet facilities were safety razors. The authorities, in their mad search for "evidence" immediately saw in this an attempt to arm the prisoners, and a statement was given to the press that a plot to arm "the reds" had been frustrated. Seven hundred men, confined in the Federal Building and surrounded by armed guards are accused of plotting to overthrow constituted government in these United States with The Department decided it would

At first the authorities stated that they were holding the prisoners on 'presidential warrants", although such things are unknown in America. The letters de cachet of Louis XV has been introduced into America, although the divine right of kings is supposed to be abolished.

After habeas corpus proceedings had been started and it appeared that all would be released by court order, the Department of Justice operatives condescended to accept bail for the release of the prisoners. Many have been released on security ranging from $1,000 to $10,000. Real estate security, such as is usually accepted in the case of criminals was refused. The Department deided that it would accept only liberty bonds. Everything has been done to make it difficult to secure the release of the prisoners. People who might be inclined to assist these men have ben intimidated by the brutal and high-handed methods of the agents of the government who seem to have unlimited power. It is considered dangerous to lift a [illegible] word which would indicate that you are in sympathy [illegible] ideas and opinions [illegible] to meet the approval of Attorney Gen. Palmer—the uncrowned king at Washington. Many American citizens who were caught in the "dragnet" were interrogated as to their Americanism by foreign-born agents of the Department of Justice. It is said that a large number of these 'agents" have been recruited from the former Russian secret police who found themselves without employment after the collapse of the Imperial Russian government. These men have wormed their way into the organizations under investigation and are to a large extent responsible for the alleged "criminal anarchy" and 'criminal syndicalism". It is an old trick, this, the agent provocateur cleverly leads his victim into acts or statements in violation of the law, and then conducts the raid and appears as the accusing witness against his victims.

Following the raids the prisons of the city were so over-crowded that men were packed together like sardines in a box. Cells 4x10 ft. were occupied by as many as twelve men. There was just room to stand up and many remained in this condition for days. Finally the local health authorities demanded that the men be removed to more sanitary quarters, fearing that epidemis would result. This fear became so real that employees of the Municipal Building threatened to strike unless the hundreds of prisoners crowded together in the "black hole" in the basement were removed and sanitary conditions maintained.

Prof. Wood of the Sociological department of the University of Michigan has vigorously protested against the brutality of the raids and the menace of persecuting and deporting men who have advanced ideas.

Among the "dangerous characters" taken in the raids and held are John Keracher, well known as a lecturer and writer. He is charged with being a criminal anarchist and is held on $10,000 bail for deportation. Albert Renner who is widely known through his activities in the Socialist Party and in educational organizations is charged with violations of the Michigan criminal syndicalist law and has been released on $5,000 bail. John Kolik was caught in the raids and is held for deportation. Kolik saw service in France and has not yet been discharged from the United States Army. His activities consist in nothing more dangerous than working for The Ford Motor Co. Geo. Possukow, another soldier not yet discharged from the army, is also held for deportation. Both of these men have back soldier's pay coming to them from the Government. Peter Messeka when arrested had in his passession passports just granted which would enable him to return to his native village in Poland. His passports have been taken from him and he too is held for deportation. William Krispenzi who had previously been arrested as a dangerous alien and released on $10,000 cash bail, was re-arrested and held for eleven days and then released. The charge against him is that he is a "dangerous alien anarchist", all of which he most emphatically denies.

The raiders strove to emulate the example of Atilla and his hordes of barbarians. They prefered to open doors with an ax in preference to using keys, desks were jimmied open in true burglar fashion, they seized everything that was not nailed down, including postage stamps of the usual red variety, rubber bands, and paper clips and dangerous looking pens. One officer was after some difficulty convinced that what he thought was an infernal machine was in reality an entirely harmless Corona typewriter.

Large quantities of books were taken and these the authorities have refused to return. Among the "revolutionary literature" seized are such works as Darwin's "Descent of Man and Origin of Species", Spencer's "First Principles, Data of Ethica," Smith's Wealth of Nations", Marx's Capital, and other classical works on economics, history, sociology and kindred sciences. It may be that the agents of the Department of Justice wish to implicate Herbert Spencer and Darwin and Marx in the Communist Party or indict them under the criminal syndicalist laws.

The attorneys for the prisoners held for deportation have asked the gods of the Immigration Department to issue passports for the men held and their families, thus saving much inconvenience and delay. These men have all expressed their willingness to return to their native lands, many of them have applied for passports which have been refused. As it is they are confined in unsanitary jails and barracks. Many of them have families dependent upon them for support. If the government is sincere and has no ulterior motives in the matter, there can be no good reason for denying these men passports, and allow them to leave the country at their own expense.

The Communists [illegible] destruction of the government. They are being raided and hunted not because they have committed any actual criminal act, but because they hold certain unpopular political opinions. We frankly admit that we do not agree with their contentions, but even though they are all that has been charged against them, the fact remains that there is no justification in the present persecutions. Let their political opinions be what they may, they are entitled at least to a fair and open trial in the courts of the land. As it stands now, the agents of the Department of Justice have assumed the duties of accuser and judge and jury. If this sort of thing is permitted to continue, no man who does not agree with Mr. Palmer's department is safe. These man are told to use the peaceful means guaranteed to them by the Constitution. But this means of political expression is denied as shown by the refusal of Congress to seat a regularly elected Congressman from Wisconsin. In New York the Legislature refused to seat several men elected by socialists. A former judge of the Supreme Court, Charles E. Hughes, in a letter to the Speaker of the New York Assembly, called attention to this and well said that if such methods were persued then the people would have no recourse by peaceful means and would be compelled to resort to violence. We can agree with him when he says that those who foster such actions are the real enemies of the government.

Politicians who are intoxicated with ursurped power represent the foremost lawless element in this country to-day.

MAY PASS ANTI-LYNCHING BILL

The National Association for the Advancement of Colored People, 70 Fifth Avenue, New York, announces that the Judiciary Committee of the House of Representatives is considering three bills which would make lynching a federal offense.

Captain Arthur B. Singam and James Weldon Johnson, representing the Association, as well as William Monroe Trotter of the Equal Rights League, argued for the bill at a hearing in Washington on January 29.

Colored Americans throughout the United States are urged to write to Andrew J. Volstead, chairman of the House Judiciary Committee in Washington, D. C., endorsing the proposed legislation.

WITH DUE REGARD FOR RIGHT, WITH PURITY OF MOTIVE IN OUR EXPRESSION, WITH CONSCIENTIOUS COMPASSION FOR STRICKEN HUMANITY, WITH UNSTINTED CREDIT TO THOSE WHO MERIT, WITH TRUTH AS OUR GUIDE POST AND LOVE AS OUR INSPIRATION, WE HAVE COMMITTED OURSELVES TO THE WORLD OF JOURNALISM. WE HAVE DEDICATED OURSELVES TO PUBLIC SERVICE.

CONSTRUCTIVE JOURNALISM

The newspapers are truly the mouthpieces of the races, groups, clans and classes. They are the mediums of current happenings, current sentiments. They herald the affairs of the people. It is a matter of common knowledge that newspapers are the sources of more liberal educations than all of the universities combined.

We have in our race only about 7,500 college graduates. We have uncounted educated individuals upon whom the world has fixed its O. K. These individuals have been lettered and tutored by books, periodicals, magazines and newspapers. The newspaper occupies a unique and indispensable position among our people. Opinions rot and decay, ideas become rusty, history [illegible] if newspapers do not carry them [illegible]

THIS RACE OF OURS IS NOW at the CROSS-ROADS. "The DESTINY THAT WILL SHAPE OUR ENDS," Is BEFORE US. IF THE RACE IS TO TRAVEL ALONG THE ROAD OF CONSTRUCTIVE AND PROGRESSIVE EVOLUTION, THE VOICE OF THE NEWSPAPER MUST DIRECT THE PILGRIMAGE, MARSHALL THE VANGUARD AND KEEP THE PEOPLE INFORMED ON THE ISSUES THAT CONCERN THEM VITALLY. NOW IS THE TIME FOR THE NEWSPAPERS TO SEIZE WITH INTELLIGENT UNDERSTANDING AND SERIOUS CONCERN THE VITAL ISSUES OF THE DAY.

IN 1863 there were only two colored newspapers, only one of these is now being published, THE CHRISTIAN RECORDER. Never-the-less, we have now 472 newspapers and periodicals, classified as follows: Religious, 70; School periodicals, 85; Organs of Associations, and Magazines, 35; Newspapers, 222. WITH 12 MILLIONS OF PEOPLE WITHIN OUR RACE, IT WORKS OUT THAT WE HAVE ONLY ONE PUBLICATION FOR EVERY 25,000. MAKING A FIFTY PERCENT DEDUCTION FOR ILLITERACY, WE FIND THAT WE HAVE ONLY ONE PUBLICATION FOR EVERY 12,500 READERS.

This appaulling state of facts proves to every open thinker that every colored newspaper should be a medium of high intelligence with diffussed information on all matters that concern the race.

The newspapers of our race are being held under constant and continual scrutiny by the Government officials. They are arduously and assiduously read by both race haters and race friends, and the unbiased white man or foreigner is compelled to appraise the race values according to the intrinsic merit of race periodicals. These race papers are sent all over the world, and place before the judgement of myriads of people. THEREFORE IT IS ENCUMBENT UPON ALL EDITORS TO DISSOLVE ALL COMPROMISE THAT HAVE SUBSIDIZED THEIR PUBLICATION. It is further encumbent upon them to sever all quasi-political connections and questionable financial relationships. It behooves all editors to consider all issues that effect the race only after intelligent research and fact finding has been made. It is regrettable that some of our papers are made the object of ridicule and disgust; it is regrettable that some of our papers have no editorials and no opinions on current race issues; it is regrettable that some of our papers have collected a lot of junk and handed it broadcast to the world.

It is regrettable that ignorance lurks behind the trenchant pen of a large degree of our editors. It grievs us to realize use pen and ink thought; it grievs us that some of our editors have sold us out and avoided important questions because they were paid to "lay off". It is disgusting to us to discover that men have ventured into the newspaper world with base ignorance and without fundamental knowlege of their huge task.

Regret, grief and disgust will not change this condition of affairs. It will take the infusion of new courage, a broader vision, healthier thinking and more intelligent editors in order to make our newspapers truly constructive.

THE NEGRO AND CHICAGO PAST AND PRESENT

Cassius King.

ARTICLE IV.

Cassius King, is without dispute the oldest living settler in Chicago identified with the colored race, he was born on the Northwest corner of Madison and Wells Street, (Formerly 5th Ave. and Madison) at the time of his birth in 1846 this territory was considered to be the Suburbs of Chicago, and the houses consisted of a number of small frame shacks. He is the son of H. D. and Diza King, his father was a native of Washington D. C., his mothers birthplace was given as the State of Tennessee. For many years his father followed the barber trade and was succesfully engaged in this line of business until his death about 1884. His mother died about 1870.

Cassius King, was one of the most remarkable characters of his day and was considered to be a very clever student of human nature and he utilized this gift to good advantage in connection with his management of various clubs. He was educated at the "Old Jones School" which was situated at the Northwest corner of Clark and Harrison Streets, on the side now occuppied by thee Rand McNally & Co. building, after the Chicago Fire the Jones School was moved to its present site on the S. E. corner of Harrison and Plymouth Place, formerly 3rd Ave. In reference to the location of the "Old Jones School" Mr. King, gives the following reminisence;

"The Southwest corner of Harrison and Clark Street was occuppied by a grist mill owned and operated by a colored man by name of Henry O. Wagoner, who specialized in "Hominy and Grits". Many times in my [illegible] days I was called upon to shoulder a sack and go to [illegible] mill from 1857 to [illegible], as I remember he was a native of Old Virginia and migrated from Chicago to some place in Iowa. My father and other male relatives were connected with the "Underground Railway" and actively identified with this movement until the close of the civil war. I had three uncles who became famous thru their connections with the movement, their names were John Jones, Lewis Isabelle, and Henry Bradford. John Jones, was a close friend and confident of Wendal Phillips and John Brown. Mr. Wendell Phillips oftimes came in the tailorshop of Mr. Jones, and together they would formulate many plans which were later executed to the betterment of the colored race. John Brown, always made his home at my uncles house (John Jones) whenever he came to Chicago, and the last visit he made to Kansas before he was captured and hung at Martins Ferry, he was our guest. During this last visit he said to Mr. Jones: "John, take what ever spare money that you have and lay in a supply of tea, coffee, sugar, and such other necessities that your table may call for as you may find them hard to get after I leave Kansas for I am going to start something that will make these articles scarce". Well, you know the answer — shortly after he started the movement that resulted in the bringing on of the Great Civil War, and freeing of the slaves. John Jones was from Alton, Illinois, and was undoubtedly the greatest colored man of this or any day. There was another great character that this generation knows nothing about — Isreal Bunch. Isreal Bunch, owned and operated the largest teaming and tranfer business in the City. I do not mean the largest operated by a colored man but the largest operated by any concern. His residence and barns were located on Monroe Street, West of State, and on the property now known as the Majestic Theatre; this property was owned by the City of Chicago. Isreal Bunch, held a long term lease which after his death was sold by his wife who bought a home out on South State Street, near 29th Street. Mr. Bunch had his home — a brick house — built on the front lot with his barns in the rear. I thing that he died about 1866. After leaving the tailor shop of my Uncle I became identified with the Club business and until most recent years I made the management of clubs my life work. I started under John Shaw, who was Steward of the Illinois Club, as his assistant. Shaw later recommended me for the Stewardship of the Lincoln, LaSalle, Sheridan, and Menokin Clubs. I always made it a practice to give my employers the best that was in me and made it a rule to select only competent men for the different departments and treated them with the consideration due an honest employee. When I entered the business I knew very little about decoration of tables and etc., but I selected men for my staff that knew the business from end to end. Many of my former employes [illegible] in business and in the majority of cases made good. [illegible] distinction of being in the employe of Mr. King, who was then Steward of the LaSalle Club, located at 542 West Monroe Street, (old number) and from experiendes knows that Mr. King, stood unique among men employed in a similar capacity. The club membership of those days was made up of Chicago's most exclusive business men — and the thing that impressed itself most upon my boyish mind was that these men in addresing the club steward always addresed him as "Mr. King." I later found that this was prompted by the great esteem in which the individual was held for he never allowed his position to make him become unduely familiar with those of whom he came in contact.

Cassius King, is still active and is employed in one of our busy downtown stores located near the corner of Monroe and Clark Street. The contact I had with him in the early days of my manhood has served me in great stead as many small favors gained by me were done so thru copying the principles of Mr. Cassius King.

NEW PARTY TO PROTECT RIGHTS AND FREEDOM OF AMERICANS.

Labor union circles are discussing the use of the general strike as a protest againsst the expulsion of the five Socialists, if the New York Assembly is idiotic enough to go that far.

The politicians who hatched this attack upon the right of representation certainly have small brains and small loyalty to the Constitution of the United States and to our American spirit and institutions.

Still, a strike is not the way to correct this wrong.

The way to correct is to start a new party, a Constitutional party, a party that believes in American institutions, that respects the laws, that reverences the Declaration of Independence and the guarantees of the Constitution;

That stands honestly and sincerely for liberty and democracy, the thing we fought for abroad and are endeavoring to destroy here at home.

A party which is a conservative party in the highest sense in its desire and determination to conserve the spirit and the letter of our Declaration of Independence, of our Constitutional Bill of Rights, and of the examples and injunctions of all our great Presidents and public men up to the time of the present administration;

A party which is opposed to revolution — to either the revolution of radicalism or the revolution of reaction;

A party which is not willing to deliver the government into the hands of extremists of poverty and ignorance of wealth and selfishness;

A party which believes in continuing the principles and the high purposes, the plans and policies, the means and methods, the republican forms and democratic fundamentals which have made this country the greatest country in the world, the most prosperous country in the world, the freest country in the world, until the ranting "reds" of radicalism and the sordid communists of wealth and privilege started out to undermine our government and destroy our democracy, each class with its batch of stupid, selfish,

Of the two classes, the communists of wealth and privilege are the more dangerous because they are the more powerful and because their lawlessness breeds lawlessness in nearly every other class.

If we are going to deport the men who stand on soap boxes and preach anarchy, we ought to deport some high financiers and some subservient politicians whose illegal, unconstitutional, un-American acts CREATE anarchy and ARE anarchy.

WHERE IS AMERICA NOW?

(An Editorial by Edwin O. Grover.)

Where is America now?

Your America? My America? The land of unselfish ideals; the land of representative government; the land of democracy?

A year ago the heart of America throbbed to the sorrow of the world and she gladly gave her food, her gold, herself for the cause of humanity.

A year ago her sons were dying in the far corners of the earth for human peace.

A year ago the Stars and Stripes was the symbol of all our hopes, and the hopes of all the world.

A year ago the voice of America spoke from the White House and all the world listened and believed.

A year ago the thought and will of America was translated into heroic action by her representatives in congress.

Where is America now?

Gone are the unselfish ideals for which she fought, and in their place selfishness and petty strife.

Gone for the moment her representative government, and on one hand sits Personal Autocracy and on the other hand misrepresentative partisanship blocking the will of the nation.

Gone is the spirit of brotherhood that made men of all races, all creeds and all classes glad to fight side by side for their common ideals, and lie side by side in common graves, and in its place sits enthroned the spirit of selfishness, the "I should worry" of the slacker.

Where is America now?

Her ideals, her prestige, her flag hands at half mast in the eyes of all the world; her usefulness lessened; her helping hand palsied; her professions doubted; her motives misunderstood, while the world waits and starves and wonders!

And this because she has lost her spokesman and her moral leader, who prefers to isolate and discredit America in the eyes of the whole world rather than share with congress the treaty-making power of the government; and also because there sits in congress a group of self-willed, small-minded and partisan men who misrepresent the thought and heart of America for selfish ends.

Where is America now?

Silent, for lack of a spokesman; powerless for lack of a leader, she waits the man of vision who will again speak her thoughts and lead her to glorious deeds.

How long will she be silent? How long will she let personal stubbornness and selfish partisanship misrepresent her and make her a byword among the nations?

How long before she will find her voice in some great leader who has seen the Holy Grail of Human Brotherhood and who can lead her to take again her high, unselfish place among the brotherhood of nations.

Where is America now?

North, south, east, west—deep down among the common people the heart of America beats true, loyal to her old ideals, eager to take her place among the brotherhood of nations and fight for right in times of peace even as in times of war; self-reliant, independent, unafraid, yet eager to "do her bit" wherever the great cause calls.

The Galahad of nations, the white republic, the hope of humanity!

Oh, where is America now?

If this country is to remain a republic, the next Ark that sails should contain a proportion of corrupt privilege seekers and crooked politicians.

If we are to preserve our democracy, maintain our Americanism, guard our liberties and restore respect fo the Constitution and all our American institutions, we should start a truly American party, a truly democratic party, a truly republican party, for both of the old parties have lost their democracy, lost their republicanism, lost their Americanism, and are nothing but shells that shelter the hermit-crabs of wealth and privilege, nests that hatch the cuckoo's eggs of tyranny.

PLAYING SQUARE

The best thing which we do today
Is not expressed in cash,
Nor in the gain we turn our way
Because we hold the lash.

There is a thing a man can do,
Unconscious, perhaps,
Which rolls up big the revenue;
Be square with other chaps.

It's possible to play the game
Of life so all can win,
For honors are about the same
When tricks don't enter in.

The good old game of being square
All men should play today,
But some, we fear, are playing where
'Twere better they stay away.

Who pay you off with smile on smile
Because you didn't cheat.

SUCCESS

The weakest spot in reaching the goal of success, is the lack of Service to the Buying Public. The only way to gain is to locate your competitor's weakness in service giving and make this a big feature in your sales practice.

The successful merchants realize that the good will of his customers is sacred and maintained by serving him well, promptly, honestly and courageously. Let the customer point out the service he desires and then supply his demands.

If a merchant looses one customer a week that would show an alarming decrease in his sales at the end of the year. Make your customers satisfied. Every one knows that the [illegible] is known as "Satisfied Customers". Wake up when a customer enters your store and render him service.

BOMB WAR RAGING

"OLD CROWD LEADERS SILENT"

SPEECHES INFERNAL MACHINES PLAY HAVOC

YOUNG MEN TO TAKE THE OFFENSIVE

Monday morning about three o'clock, residents in the 35th street section on Grand Boulevard, were aroused by the recoil of a bomb that was mysteriously placed in the hallway of Mrs. W. D. O'Brien at 3632 Grand boulevard.

This building was recently purchased by the Appomattox Club, one of the wealthiest colored clubs in the United States.

Citicens Revengeful.

The whole colored population is full of revenge. One member of the club said that he believed, that the bomb was the result of Kenwood and Hyde Park propaganda carried on against the colored pepole. He said, that he would give fifty thousand dollars to ascertain the real facts.

Sold Old Home.

The AppomattoxClub has just recently sold its old home at Wabash avenue and Thirty-fifth street to the R. R. Men's Benevolent Ass'n. and was just making plans to enlarge not only thir club rooms but their activities in community welfare. They will continue their plans, according to one of its members, if they have to have it surrounded with sentinels.

JESSE BINGA BOMBED AGAIN.

Says He'll Stick to Last.

Bomb fiends are still active and carrying on a militant campaign against race people living in the Hyde Park and Kenwood sections. This is evidenced by the recent attack upon Jesse Binga, wealthy colored banker, who lives in the 5000 Block on South Park boulevard.

4th Attack.

This is the fourth attempt of the human parisites to destroy the home of the colored banker. Mr. Binga says that he is unafraid and that he is convinced that it is purely the work of hoodlums. He also says that nothing less than death itself will make him move out of a house for which he has spent his hard earned cash, especially when he has not violated any of the neighborhood standards.

"If men can give their lives to save their country, I would be less than a man unless I was willing to give as much to defend my home."

Seek to Stab Wendell Phillips Star

Colored Player Incites Tilden Men.

A Great Basket Ball Game was marred when personal feeling caused the exhibition to resolve itself to a toughing contest.

Trouble started when the referee called a "foul" on the Wendell Phillips Team for getting out of bounds.

Wendell Phillips quits.

The High School of the South protested and when the referee would not retract the decision, the team started to walk out of the cage.

Mob encircles colored players.

Immediately a mob of Tiltons students formed around the colored players of Wendell Phillips, one of them displayed a "Bowie" knife and uses very undignified language to the colored gladiators.

Colored players show resentment.

The Colored Players with their white team mates immediately showed their teeth and a serious fracas was avoided by the appearance of the Stock Yards Police squad and a Patrol Wagon. The colored Players and their Comrades were escorted to safety.

The Athletic Association of Wendell Phillips should sever all further relations with Tilton and they should be barred from inter-scholastic Sport for their ruffian Tactics.

Start Drive for Lake Park Hospital

The Lake Park Hospital Auxilliary has started a drive to raise a thousand dollars for the hospital. At a meeting at the home of the president, Mrs. Emma Smith, 2928 So. Federal St. Wednesday night, doctors, George Washington Prince and S. W. Smith told of the great needs of the Institution. Mesdames, Bertha Montgomery, Lucy Hayes, Lillian Duncan and Miss C. M. Reuben were appointed with the president to arrange for a mammoth theatre party for the hospital.

HALTS MOB WITH MACHINE GUNS

GOV. EDWARD P. MORROW OF LEXINGTON, KY., PUT TO FLIGHT LYNCHING POSSE AT THE COST OF 6 LIVES.

Apparently Lexington, Ky., is quiet as any Southern City is usually quiet soon after a Lynching Bee. But this time the 'Bee' did not accomplish its aim and as result of the effort five white men are dead and one colored woman. Very unusual result we will admit, but just the kind that will put an end to lynching.

It happened on February 9th that six persons were killed and 14 injured seriously and a number of others received minor injuries when State troops turned a machine gun on a mob which had attempted to storm the Court House to reach Willim Lockett, colored, confessed slayer of 10 year old Geneva Hardman, following his conviction and sentence to electrocution. Martial law has been declared.

The mob composed of white men, approached the Courthouse with a rope. They were warned away by Cap. I. V. Crockett, in command of the State Troops, who told them of the conviction of the slayer. They refused to heed the warning and continued to advance.

Men ordered to fire.

When they were within a few yards of the Court House door, Captain

WHIP Feb. 11 Mach

Crockett ordered his men to fire a volley over the heads of the crowds. This failed to stop the angry mob and they continued to advance. Then a machine gun was aimed and fired directly into the approaching mob. Six men, Benj. F. Carrier, Lexington, John Thomas, Versailles, L. M. King, Lexington, J. M. Rodgers, Lexington, William Ethington, Versailles and one colored woman fell dead. Fifteen persons were injured so seriously that some of them will die and a score of others were slightly injured. From the court house windows came a volley of shots down on the mob also and they then withdrew. Seeing some of their numbers lying on the streets they started breaking into shops and stores to get fire arms.

Crowd shocked by shooting.

The crowd was shocked at the shooting but continued to gather in small bunches and there was muttering of further trouble and 400 troops from Camp Taylor arrived and the city was put under Martial Law.

Prepared for trouble.

Trouble was feared by the authorities as soon as Lockett was captured

LAUNCHES [illegible] DRUG SYNDICATE

Chicago to have a chain of Drug Stores.

Harvey Saunders, prominent and progressive south side cut rate druggist has incorporated and will launch a $50,000 Drug Business.

This capable race man will open a chain of Drug stores on the South Side which will be complete and modern in every respect, including Drug Warehouse and manufacturing plant as well as an ice cream plant.

No colored druggist is better fitted for this large task than this energetic and capable young man, who has built up a sound efficient Drug Business in Chicago on sound efficient methods.

The second Store of the Chain will be opened up about April 1st at 500 East 39th Street at the corner of Rhodes Ave. This store will be the must beautiful store in the South Side.

Options have been secured on three other locations and numerous contracts have been let for advertising.

Saunders has surrounded himself with a number of efficient registered pharmacists who are fully capable of managing these stores and will be colored.

This enterprice will bring cut rate prices in drugs to all neighborhoods occupied by our pepole and will deal a direct blow at the high cost of living.

Mr. Saunders has been in the Drug store business since 1908 and has had the experience which will make this undertaking a tremendous success and at the same time demonstrate the Negro has really gone into the field of big Business without the old time fear.

Saunders contemplates buying his stock in car-load quantities rather than by the dozen and will then sell at price much below those charged by the average store.

A complete stock will be placed in every store, and his present plans indicate that he will have 5 stores by first of next year, all managed by colored help for every position.

Many are congratulating Mr. Saunders on this progressive step and are waiting the opening of the first of the chain of stores.

[illegible] SPURN CHARITY

By Andrew Holmes Sec'y-treas. Local 20 Stockyards Labor Council.

The task of the men and women who advocate unionism among the colored workers of today is far from being a simple one to successfully perform. There are, to be sure, difficulties encountered in the organization of all races and nationalities, but, in the main, this difference seems to assert itself on the racial phase of the subject. There exists among workers of the white race, generally, regardless of nationality, an opinion that a worker should be a member of a union wherever practicable; such is the opposite opinion among the colored people, as a rule this opposition has to be overcome, a favorable sentiment has to be created, in most instances, before the colored workers can be organized with any degree of success.

Let us discuss a few common-place reasons why the colored workers do not take an enthusiastic interest in labor unions and also a few pointed reasons why they should give the matter more serious consideration.

Why the colored workers are not inclined to unions when first approached.

1. Because of Traditional Ideas.

Frequently we encounter those persons who seem to profess no belief in the principle that "All men are created equal." We conclude that this may be due to inherited ante-bellum traits, engendered into the slaves who regarded the "Aristocracy" of the white race as super-natural beings, and who regarded the poorer class of whites as not much better than they (the slaves) themselves. Such persons of today present such arguments as these: "The rich man has everything and all the power. There is no need of resisting his authority. We get more consideration by trying to merit his approval of our acts. He does not like the union so we must not invoke his displeasure, we must disregard the appeals of the White workers for they are as powerless as we. Money always did rule, and always will" and so on.

2. Because of belief of employers Interest in colored man's welfare (also traditional).

The organizer also encounters those persons who point with great pride to the fact that some employers have made members of the race beneficiaries of charitable donations. They point out that many of the race's educational institutions were donated, and often times supported and maintained by capitalists who during some time were great employers of labor, and also great enemies of organized labor. They contend then, that any tendency of the colored worker in the direction of belief in unionism might be interpreted as ungratefulness to benefactors. The fear exists they say, that if once offended by rebellious action on the part of the race these high essential manifestations of sincere interest might cease forever and the race lose thereby. They even point with pride to the fact that donations were received by appreciative sufferer during the recent race riots and the givers were the capitalists, enemies of unionism. The writer admits seeing the famous "bread-lines" of last summer but failed to arouse in himself very much "pride" at the unique illustration.

3. Because of Duplicity of self-styled Race Leaders.

Another opposition frequently met is the influence wielded by race leaders who, out of deception or blundering tactics inculcate in the workers spirit of dependence upon them to

WOUNDS SIX—NO REGRETS FOR FATE

"TAKES PLENTY OF OTHERS WITH HIM"

Special To The Whip

Pine Bluff, Ark., Feb. 10th.—This city for about two hours was a scene of battle and bloodshed. What added to the intense excitement was the fact that the battle came from an unexpected source. George Vicks, a highly respected colored citizen resented an unwarranted and uncalled-for insult from a white farmer. A quarrel ensued. City Detective Lynn demanded that the colored citizen apologize to the farmer for talking back to him and for refusing to take off his hat while doing so.

The detective, intoxicated with authority and arrogance attempted to teach the colored man a lesson by putting him under arrest. The colored man refused and fight followed, both men reaching for their guns. The colored man, having recently "been over the top" was the quicker. The detective fell with a bullet in his heart.

Barricades Himself.

Realizing that he was in Lynchland where justice for a colored man was unheard of, Vicks went into a basement where he had stores of amunition and defied all comers. A posse of brave (?) white men was then formed and surrounded the house. Like Horatius at the bridge, Vicks mowed them down one by one until his amunitions were exhausted and then some fine spirited white citizen set fire to the house.

Vicks then attempted use his two good fists as he ran from the house, but was felled by a volley of bullets. His last words were: "I have no regrets as I will have plenty of company as I make the journey to the world unknown."

Attack On Girls Brings Fear of Race Riot.

Mansfield, O., Feb. 6. — Police are searching for a mulatto seen in the vicinity of the big storage house back of which was found the mutilated body of the pretty 18-year-old Ethel Dudley of Princeton, W. Va. Fear of a race clash is expressed should the crime be fixed on a Negro.

ATTY. GEN. PALMER TAKES STAND FOR FREE SPEECH

Correctly Traced By Attorney-General Palmer, Tribune Says.

(New York Tribune.)

Attorney-General Palmer, in his statement to the House Judiciary Committee, correctly traced the deadline of free speech.

The constitutional guarantee does not protect one who, by word or implication, urges or incites resort to physical force or violence to overthrow our democratic institutions.

Free speech is a flower of democratic freedom. It blooms from no other soil. Destroy democracy and there is and can be no free speech. A rule of force means the application of a gag.

So, to defend free speech it is necessary to deny to any one the privilege of attacking its roots. Any one who upholds the doctrine that it is permissible in a free country to advocate the establishment of a regime of force in an enemy to, not a friend of, free speech.

This country, as the Attorney-General says, has had its revolution. Those who come to our shore accept the results of this revolution are immutable—self-evident, as Thomas Jefferson wrote—and one is that government must rest on consent, and not force.

Under The Lash of The Whip

Fighting (?) Bob Jackson for raising a rucus over the publication of his attempt to get undue credit. Ask Krutchkoff, he knows.

The Hyde Park Journal vilifies Oscar De Priest and "the great race banker". The Journal says they are misleaders. We agree for once with the filthy Hyde Park yellow sheet. Oscar wanted to fight a ten round bout with "Kid Linton" for exposing him. We wonder if he will stage a fight with the Hyde Park "Champeen"?

Wanted: A remedy for the sleeping sickness. Louis Anderson has it.

All those of our race who go weekly to the pawn brokers and pay extortious interest for the loans of a few bits.

Charles B. Travis says that he is back in the race for Ward Committeeman. Nobody knows it but Travis. Has the charm of the Harmony bird worn off, Charlie?

Who are those gentlemen (?) who are continually sick with the "flu" and pray for liquor prescriptions? The country has gone dry, boys.

The Franklyn Bank at 35th and Michigan Blvd. does not follow the theory of George M. Cohan. They do not believe that "it pays to advertise"—that is—in race papers. Maybe an ad will appear in the Hyde Park Journal.

The Harmony scheme is causing a deal of discord. George Harding "knows his stuff". He can live in the Sixth Ward and boss the Second. Of course "our representatives" are for the people though.

Look at the mountains of ashes under the Elevated at 35th Street! The Alderman certainly do favor a clean ward. In Hyde Park.

Ed. Wright is certainly trying to get a place in the sun. Oscar, "the people's choice", (?) is his Joshua. Be not deceived, the clouds hang heavy.

Distinguished Georgian Passes Beyond

AUGUSTA, GA., Feb. 13.—After only a few days illness, James S. Harper, pioneer citizen of this city, died at his residence, 913 Ninth St., Sunday morning, Feb. 8th. Mr. Harper recently retired from the U. S. Railway mail division after having served continuously for 42 years as clerk. He was one of the founders of the Ga. Mutual Company, being its first president. His latest business venture was the organization of the Penny Savings Bank, which has a paid in capital of $100,000; last year doing a business of over $250,000.

He is survived by a wife, Mrs. Ellen J. Harper, four daughters, and two sons, James S. Harper, Jr., and Lucius C. Harper, city editor of the Chicago Defender, who is here to attend the funeral. He was 65 years old.

Fearless Editor Refused Shave in R. R. Depot

William Monroe Trotter, Editor of Boston Guardian refused by Italians.

William Monroe Trotter, editor of Boston Guardian, entered an Italian Barber shop and waited for hours, after which he was refused a shave in Philadelphia the other day.

The Colored Protective Association has taken the matter up and the Zoar M. E. Church resent the insult offered the distinguished citizen. A test suit is to be made of the affair as Mr. Trotter is going to fight the matter out.

It is recalled that Mr. Trotter was refused a pass port to the Peace Conference and worked as a cook on one of the vessels to get over. He got nested in many farty and ferreted out many rumors while there.

He is a fearless race man and the outcome of the trial is anxiously watched.

COLORED FAMILY ORDERED OUT WHEN THEY WERE FOUND NOT TO BE WHITE.

Michigan City, Ind., Feb. 6th.—John Henry Sales was fined one dollar and cost in the city court today because he refused to deliver the keys within 24 hours to the house in which he was living and vacate in the same length of time.

Mr. Sales rented the house from Leroy LaGess, rent to begin on Dec. 15th. Mr. Sales says La Gess knew he was colored at the time the house was rented, but the Mother Mrs. La Gess says he did not. Soon after they moved in it was discovered they were colored and they were asked to vacate by Jan. 12th. Mr. Sales contended his rent was not up to 15th as he took possession on the 15th. It was reported that the neighbors were shocked when they saw the new tennants were colored and they also had apparently lots of colored friends, who lived with them making the block not exclusively white.

Schools to Train African Negroes

FITCHBURG, MASS., January 29, 1920.—The establishment of three large industrial training schools for African Negroes will be the next move of the Methodist Episcopal church in its work to help Christianize Africa, according to an announcement today by Rev. J. I. Bartholomew, D. D., centenary secretary of the church for this district. The estimated cost will be $225,000, which has been appropriated by the centenary conservation committee out of the $113,000,000 offering raised last summer.

The schools will be modeled after Tuskegee Institute, Alabama and similar institution in this country and will be located at Inhambane, Portuguese East Africa; Old Umtali Rhodesia; and Angola on the west coast. The courses of study will lay special stress upon agriculture.

Dr. Bartholomew also announced that the board of foreign missions of the church had appropriated $500 for the personal use of Queen Marie of Roumania for relief work among her people and that $20,000 had been voted to purchase foodstuffs and clothing to be sent to Roumania as soon as possible.

Board to Give Raise to Colored Teachers

ATLANTA, GA., Feb. 10, 1920.—At a meeting of the Atlanta board of Education in the city hall, Superintendent W. F. Dykes, of the Atlanta public school system presented a plan by which he believes it will be possible to increase the salaries of the colored teachers in addition to the $10 a month raise recently authorized.

Dr. Dykes stated that his plan would be worked out on a basis that would give the Negro teachers the same percentage of increase, approximately, as that granted the white teachers, but as the proposition had not been placed before the board of education, he declined to go into details concerning it.

He did state, however, that the plan which he placed before the board of education will work out to the satisfaction of the colored teachers, and that it does not propose to take anything from the white teachers. A sum of about $6,000 will be required to make the proposed increases for the colored teachers, and it is believed that this amount can be found by the board of education.

The board of education will also discuss a new location for the Commercial High School, the lease on the present building on So. Pryor street expiring with this year.

At least two proposals have been submitted to the board for consideration, one of which is the Joseph Brown lot on Washington street, which was purchased by the city several years ago for school purposes. It is also understood that the owner of the present Commercial school building, C. P. Byrd, has submitted a proposal to sell the building to the city for $150,000. This is the amount provided in the appropriations of the money raised by the recent emergency tax levy.

Inventor of New Diving Model Sees Great Success Ahead

Boston, Mass., Feb. 10.

The Jackson Diving & Construction Company, through its advertising manager, K. Hundell, 34 Cornhill, Boston, gives out information to the effect that the U. S. Government has submitted to the Company enough [illegible] Atlantic Ocean [illegible] for over 25 years. [illegible] machinist, is the inventor and the largest stockholder. The Company was organized to promote and exploit the ideas of Mr. Jackson. The Company will start within a few weeks to salvage lost treasure. Now is the time to buy shares in the Company at par $10.00.

The height of Mr. Jackson's ambition is to conduct a great Corporation that will be a credit to his race. Mr. Jackson has spent many days and weeks working to this end. The fight that Mr. Jackson had was to maintain his patent rights and to hold the control of the Company.

The greatest success ever known to mankind awaits the development of this great idea. There has never been in the World's history such opportunity for large salvage exploitations than there is now, at the close of the great World War.

The first week in December, 1919, the model was completed and diver Turner, (a diver of International fame) submerged to the depth of about 360 feet and found that he could do work on the floor of the ocean. When Turner returned to the surface he said that he was ready to go for the $30,000,000 in gold bullion that is lying in the hold of the British liner Laurentic which is lying off the Irish coast, a victim of the submarine warfare.

This is only one of the many opportunities waiting for the demonstration of this machine.

Defend Negro Press at Washington Hearing

The National Association for the Advancement of Colored People, 70 Fifth Avenue, New York, announced in connection with the report that the Graham Sedition Bill would probably not pass in its first form that James Weldon Johnson, Field Secretary of the National Association for the Advancement of Colored People, had vigorously protested certain provisions of the bill at the hearing on it in Washington. Mr. Johnson appeared before the House Rules Committee and made the following statement:

"If section six is enacted, it will be possible to construe and interpret it in a manner as to bar Negro publication from the mails.

"I refer to that part of the section which says: 'That every book, magazine, newspaper—wherein or whereby an appeal is made to racial prejudice the intended or probable result of which appeal is to cause rioting or the resort to force and violence within the United States or any place subject to the jurisdiction thereof, is hereby declared to be nonmailable.'

"The Negro press is opposed to racial prejudice," Mr. Johnson continued, "and one of the chief reasons for the existence of the Negro press is to fight appeals to racial prejudice, but if this section of the bill becomes a law, Negro publications may be denied the right to voice the just and legitimate protests of the colored people against wrongs on the ground that such protests appeal to racial prejudice.

"Under such a section the mere printing of facts and data about lynching might render a publication nonmailable."

FOUR MEN WITH GRAIN ALCOHOL

Engaged in Wholesale Theft.

Memphis, Ala., Feb. 11.—Four colored men suspected of being engaged in a wholesale theft of grain alcohol within the last few weeks from several local Chemical Companies, were taken into custody last night at 10 P. M. by Police Inspector Bell, Detectives Peters and Hagle at the Yazoo and Mississippi Valley tracks, after two of them had been shot down.

An auto express truck, 50 gallons of pure Grain Alcohol and one half dozen empty kegs similiar to those stolen from the Webster-Warmack Chemical Company were confiscated and taken to the police station.

The colored men gave their names as Gus Mitchell, 40, expressman, 378 Butler, shot in the left leg—Joe Williams, 41, 1178 Eight Street, shot in both legs—Jerry Love, 21, 1156 Florida Street; Harry Williams, 404, 685 Phelan Place.

Mitchell and Williams were fired on by the officers when they stopped teh auto truck at the Yazoo and Mississippi Valley tracks and volted into the darkness, having become suspicious of the officers' automobile trailing them.

The wounded men were treated at the General Hospital after they were place under arrest; neither is [illegible] Detectives [illegible] and Peters [illegible] truck [illegible] spector Bell and Officer Lundy. They secreted their auto on the Horn Lake road, in the suburb near Noucounah and waited for the Alcohol truck.

Took Up Trail of Truck.

When it passed they began trailing it in effort to locate the place to which it was being taken. The sides of the truck were covered with canvas, the officers could not determine how many colored men were in the car. The officers opend fire when two of them abandoned the car and tried to escape.

According to the officers the colored men are supposed to have brought the 50 gallons of alcohol from Horn Lake, Miss., where it is alleged they have in their possession a large tank containing several hundred gallons of the stolen fluid. It is believed they were engaged in selling the alcohol in Memphis after hiding it out a few weeks to avoid suspicion.

Cruelly Beaten by Detectives.

The most deplorable feature of the whole affair was the wholly uncalled for treatment of the two wounded men by the officers. None of the men were armed yet after Mitchell and Williams had been shot they were pounded on the heads with the butt end of the guns of the detectives, after being knocked into insensibility they were pitched into the car and allowed to remain as they were.

Gus Mitchell, the expressman, told the officers at the police station last night he had no connection with the other three in the alleged liquor traffic. He also related to the reporters of the third degree methods to which the men were subjected. With their heads bound up, their faces cut and bruised, eyes blood shot they looked as thoug they had been struck by a cyclone. Mitchell says they were whipped with leather thongs, beaten by huskies with their bare fists and subjected to continuous cross fire of questioning for sixteen hours. They were booked on charges of larceny and violation of liquor laws. Their trial has been set for next week.

THEATRICAL AND MOVIE REVIEW.

By DAVID PAYTON.

Frank Montgomery riots at the Grand

It seems as if some one had sent in a riot call to the police on Monday night from what the writer says in front of the house just before curtain time. The large crowd was clamoring to get to the box office, and over five hundred were turned away. So HELLO 1919 opened to a capacity house.

Well it is about the best that has been offered at this house for a long time, and Frank Montgomery takes his place among the foremost comedians of the race.

The First Scene: A minstrel scene was elaborately displayed. A new idea was advanced by Montgomery of a first part setting with miniature boxes on either side of [illegible] Mr. Butler and Mr. Thomas kept the throng in laughing hysterics [illegible] capers. The [illegible] of the circle added wonderful color, and alas! the center gentleman was interrupted by some one in the audience with whom he took issue. After a gang of nonsense, the gentleman in the audience was invited on the stage to do what he could and it proved to be none other than Frank Montgomery the star comedian, who made a nice prologue speech, accompanied by sweet musical strain and there the show began.

Space will not permit us to give detailed facts of this grand array of talent but I can say, that to really appreciate a really good show do not miss Hello 1919.

The Co-Stars.

Miss Florence McClain has no peer as comedienne. She is both pretty and talented and her display of wardrobe was gorgeous. Miss McClain has a style of her own in putting over her numbers and scored heavily with each number that she rendered.

Miss Evon Robinson, who was here last year, was the welcome guest, judging from the reception that was given her upon her appearance. Her rendition of "Sand Dunes" was heartily applauded and all her oriental numbers captivated the audience.

Miss Daisy Martin, the clever actress, performed in black face and was a decided hit. Miss Martin is original in her line and puts over her songs wth plenty of pep.

Miss Alice Ramsey, registers 100 per cent. This tall beautiful lady is both charming and attractive. Her enunciation was perfect in her song offering and every move of hers was a revelation in grace. Her song, "Great Big Baby Boy" was the popular hit of the show.

Mr. Gus Butler, the clever dancer and fun-maker was much in evidence and went great with the audience.

Montgomery has not been selfish, as he has allowed everyone the chance to display their goods in his production. He gives them all a chance and does not stick to the old idea of featuring one or two stars. The situations were all clever and funny and the dances were staged to perfection. The costumes were very showy and the Parisian styles were worth the price of admission. My pen cannot give full appreciation. You must see it yourself.

The male members are all good. Amongst them are Dick Thomas, an old timer, whose style of work has always been admired. Mr. Montgomery and his flock will play an indefinite engagement and when he leaves, we will have nothing to say about Hello 1919 but praise and we will welcome Hello 1920 with open arms.

Song Hits.

"Ballyhoo Babe" was capably rendered by Ethel Williams.

"High Brown Babies' Ball" was a winner by Miss Alice Ramsey.

"In My Bay's Arms" and "Mandy" went over big with Miss Evon Robinson.

Montgomery's comic hit was "Fiddling." All the latest song hits can be found in Hello 1919.

THE AVENUE THEATRE.

"The Lure", a very strong and gripling play, was presented here Monday night by the La Fayette Players. The caste ably performs this wonderful play and their rendition should add more laurels to the bevy that has already been bestowed upon this company.

THE EARL.

Martin Lien's new Earl Theatre opened on last Monday night to a packed house and it looks like a winner. Leclair and Samson opened the bill with a strong balancing act. Brown and Blaine made good in a clean comedy role. Charles Anderson, the yodler, scored. A girl dancing team and a bicycle act made up a good bill.

THE MONOGRAM.

A live bill is presented here this week. Among those appeaing are: Frank Rodgers, whom we are all glad to see and hear. House and House amuses everyone immensely. Cornell and Cornell are good. Dick and Dick won much applause.

The Movies at the Monogram.

Coming Tuesday, Wednesday and Thursday: Nell Shipman in "Back to God's Country".

Friday and Saturday: Alice Brady in "The Fear Market".

THE PHOENIX.

Coming Sunday, February 15th, Louise Glaum in "The Lone Wolf's Daughter", a story of the underworld of Chinatown.

[illegible] "Broken Blossoms", the mammoth production is making a successful run [illegible]

FLU BAFFLES SCIENCE.—CLAIMS MANY VICTIMS.

The Spanish Influenza has again come to Chicago and baffled science, which has been studying for the past year to not only cure this dreaded disease, but to prevent it. The professional and commercial fields of the city have been greatly incapacitated because of this terrible delema. Lodges and other organizations have sustained large sick lists which demand an outlay of large sums of money.

Among the Masonic members ill were T. H. Samuels, 54 E. 43rd St., Most Worshipful Prince Hall Grand Lodge of Illinois and Jurisdiction his wife Mrs. M. Samuels, founder and Matron of Corner Stone Chapter U. D. Order of Sast. Star that lodge's secretary Mrs. Ella Humpford, 22 West 22nd St. and Mrs. Gladys Johns, 2958 So. Wabash Avenue, a member of Corner Stone Chapter, O. E. S. and Exalter Toyal Dstrict Deputy of the Royal Order of Menelik and Princesses of Abyssinia.

Almost the entire corps of officers of this organization were Influenza victims. Among them were the Exalted Royal Sovereign, Mrs. Lottie A. Callaway, 3764 S. State St. Mrs. Myrtle Fischer, 3316 Calumet, Exalted Royal Scribe, and her husband, A. M. Fischer, Mrs. Alice Ware, 3328 S. Park, Royal Countess, who is also a prominent masonic women; Mrs. Mary Kyle, Royal Guard, 3724 So. State St.; Mrs. Susie Harris, Royal Chaplain and Mrs. A. Baker, 4518 Indiana Ave.

Robt. Rortch, Expressman and his assistant, 37344 So. State Street were unable to attend to their business, being attended by a physician at their bedside twice daily. Mr. T. G. Williams, 4330 Langley, Deputy Sheriff and his wife, formerly of New York, who have introduced the Brown Skin Doll in Chicago, were both incapacitated, as was H. M. Cheefus, 4512 Indiana Avenue, who has a meat market at 3742 State St.

Provident and Lake Park Hospitals were filled almost beyond capacity, and worked under strenuous odds because of the shortage of nurses. Both graduated and practical nurses were employed at their own prices. Provident was sorely relieved of six of her nurses who were all confined to their beds at one time, with the disease.

STAGE.

James Bailey, formerly of Bailey and Bailey, will appear Feb. 19th at New Kinsington, Pa., Feb. 23rd, New Castle, Pa., Feb. 26th Uniontown, Pa., March 8th Stiverville, Ohio, and March 11th, Wheeling, Va.

NEWS OF THE ACTORS.

The report in last week's issue, concerning the death of Miss Teresa Burrows was found to be untrue. Miss Burrows is in the best of health out west in Billy King's Company.

Tom Lemonier is looking like ready money at the Rialto. Tom always has a good word for a good man and does not waste any time discussing the bad ones.

Jones and Allen have dissolved partnership. Mr. Jones suddenly left the city without telling his partner his intentions.

Frank Montgomery is all smiles over the success of Hello 1919.

Leon Diggs, the famous tenor is in Cincinnati this week, with the Miller and Lyles' Extravaganza.

Joe Bright, who made a hit at the Grand last week, has gone to Philadelphia to open up for Gibson at the Standard Theatre.

Billy King is in town for a rest, having left his company in the west to fill important engagements.

Mr. Webster, the booking agent at the Grand would be pleased to see the actors at his office at any time, as he has some consecutive time to offer them.

Elenor Wilson is holding down the Entertaining with Allie Powers at Bottom's Famous Dreamland. The Jazz Band here is a great attraction. Bojangles, the race's greatest entertainer, danced at Dreamland last Tuesday night and has taken home the fifty dollar prize.

Wilbur Sweatman will be at the Majestic Theatre next week.

Moss and Fry are now being featured with a big vaudeville act and will soon appear in our city.

HERE VISITING SISTER.

Mrs. Effie Taylor-Jordan, Kansas City, Mo., is here for ten days visiting her sister Mrs. Ada Irby, 4553 Wabash Avenue. Mrs. Jordan is making [illegible] and will visit her mother Mrs. [illegible] Taylor, Columbus, Ohio and [illegible] South Boston, Mass. She will probably return to [illegible] before returning to Kansas City in March.

Mrs Marion Handy, 4767 Federal Street, has returned to the city after spending the holidays in Pittsburgh, Pa.

Leaves for New York.

Florence Mills who has served so efficiently as the Spirit of Dreamland since the Tennessee Ten have been here for the past two weeks, left Tuesday night with her company for New York, where they will continue an indefinite contract playing big time on the Orpheum Circuit. Robt. Johnson, whose brother is owner of the original Creole Jazz Band, playing at the Royal Gardens was royally entertained by his many friends while recuperating here with the company.

Charmed Life Wins as Negro Fires 14 Times.

Selma, Ala., Feb. 5. — Policemen J. L. Malone late yesterday was shot at fourteen times by Sam Bennett, alias Tom Cleveland, a desperate negro, wanted in West Virginia for the murder of a justice of the peace some time ago and for whom a reward of $500 was offered.

When Malone attempted to make the arrest he was met by a double barreled shot gun in the hands of the negro who demanded what Malone wanted. The negro raised the weapon as Malone pushed the gun aside, both barrels being fired, passing through Malone's overcoat.

The negro's mother then grabbed Malone around the neck before he could draw his revolver, thus giving the negro a chance to get two Winchester rifles in one corner of the room. Malone broke the negro woman's hold but could not get to the negro in time to get the rifles. Malone went out the door to phone police headquarters for help when the negro opened fire with the rifles, firing twelve shots at Malone as he left the house. Four shots in all passed through Malone's overcoat, but the officer was uninjured.

The negro was tracked to a swamp several miles from Selma and his capture is expected to be made soon.

Clarence Muse Gives Statement.

Mr. Clarence E. Muse, celebrated actor of the La Fayette Players was questioned by one of the Whip's reporters regarding the casting of certain members of the La Fayette players and he stated emphatically that he had nothing to do with the business of the corporation. The management reserves the right to place the actors and actresses where they think best and as the patrons see them, is the correct answer as to what the management thinks of them. Mr. Muse says that he is above personal animosity and at present is very busy preparing a new drama, the first to be produced by the Quality Amusement Company from a colored writer.

Johnson Books Passage! Hopes to Fight Dempsey.

Mexico City, Feb. 5.—Jack Johnson, former champion heavyweight pugilist of the world, said yesterday he had engaged passage on the steamship Monterey and would arrive in New York the first week in March. He declared he was confident he could arrange differences with the United States district attorney at Chicago so that he might challenge Jack Dempsey, present heavyweight champion. — Examiner 2—6—20.

American Negro Academy Formed to Promote Arts.

WASHINGTON, D. C., Feb. 6. '20.—Articles of incorporation for the "American Negro Academy", an organization of forty-two colored citizens of the District, were filed in the Recorder's office. The new organization is founded for the publication of works by colored authors and the promotion of the arts, sciences and letters.

The president of the organization is John W. Cromwell; treasurer, La Fayette M. [illegible] ing secretary, T. Montgomery Greg[illegible] Kelly Miller, George W. Lightfoot, Freeman M. Murra, William Pickens and John E. Bruce.

Liberty Sifa Meets Public Approval.

At last an investment which has as its sponsors some of the most conservative men in our group, has been submitted to us and never before in the history of Chicago has a financial proposition met with such enormous success among all classes of our people. Among some of the largest stockholders in the organization are men whom the public in general thought could not be interested in a stock proposition of any kind.

While it is true that we have lost thousands of dollars in numerous stock selling enterprises such as oil, copper, zinc, coal, automobile, gold mine, silver mine, and numerous others which have proven to be absolutely worthless, nevertheless we cannot afford to pass up the opportunity that is now being offered to us to purchase stock in our first Old Line or Legal Reserve Life Insurance Company, and there are several good reasons why we should invest in a Legal Reserve Company.

First: At the present our people in Chicago are paying almost Two Million Dollars every year for premiums on policies in Legal Reserve Companies that do not employ our people in any capacity whatever.

Second: We know that they do not insure us for love. So if our business is profitable to them, it should doubly so to ourselves, because, a Company of our own will give employment to hundreds of our young men and women as agents, clerks, stenographers, superintendents, medical examiners, dental examiners and numerous other positions that are necessary to operate an Old Line or Legal Reserve Company.

Third: Within a few years Chicago will have the largest population of our people of any city in the United States, and a better field than Chicago cannot be found in which to launch such a large financial institution, besides, our people are doing better as a whole in Chicago than in any other city.

Fourth: When you take into consideration the large number of our most responsible citizens who are directly responsible for the ultimate success of this organization, then there is no wonder the organization is meeting with such wonderful success, and there is indeed a very good reason why some of our most conservative business and professional men are buying stock in the Liberty Life Insurance Company.

Women Uses Gun Slaying Man who Enters Room.

Toledo, Ohio. — The first murder to mar the records of the police department in the last seven months occurred early Friday morning when Mrs. Blanche Weir, 27, colored, 226½ Ziegler street, shot Oliver Bledsaw, 38, colored, residing at 226 Ziegler street, through the heart with a 38 calibre revolver, presumably in self defense.

According to police, the shooting occurred when the man broke through the door of the woman's apartment shortly after her husband, Otis Weir, had left the house for work. Reports of the affray were immediately given police, who arrested the woman after, they say, she attempted to effect her escape by climbing from the porch of the second story of the house and sprained her ankle in a fall to the ground. She was taken to Miami Valley hospital, an after first aid was taken to central police station. It was there learned that her left heel had been broken in the fall and she was returned to the hospital. It is thought that she will be removed to the county jail under murder charges where she can secure the proper medical attention and be under guard. Charges of murder will probably be preferred against her in police court either Saturday or Monday.

Letters Found.

According to neighbors, the Weir woman was residing on the second floor of the house occupied by Mrs. Pearl Henderson. Her husband is employed as cook at a lunchroom. She also has a child about two years of age who was with the woman at the time of the shooting. It is said that Bledsaw, who is an uncle of the Henderson woman, has lived with her for some time. His wife is said to live in Xenia.

From letters addressed to Bledshaw from the Weir woman when she was working in Evanston, Ind., it was inferred that they had had a love affair.

According to the woman's story to police her husband had just left for work, when Bledsaw came up the stairs and knocked at the door, [illegible] She professed [illegible] came into her room [illegible] her, she said. She therefore denied him [illegible] the room. Upon his threat of breaking in the door she said she would shoot if he did so.

The supposition is that the threat did not frighten the man, who placing his shoulders against the door, forced the lock, tearing the door from the frame and hurling it into the center of the room. She then fired at him, the shot going wild and striking the wall to the right of the door. Passing through two rooms the women retreated to the front of the house. Bledshaw following. There more shots were fired, all of which went wild, before the two gained the front room.

From the position in which the dead body was found it is thought the woman retreated to the very front of the house, sent the fifth bullet thru her assailant's heart. He fell to the door in such a position that in order to escape the woman would have been compelled to step over his dead body. It is thought to have been dread that prompted her to open the front door and from the porch attempt to effect escape.

At the advice of Mrs. Henderson, who had heard the shots, Mrs. Weir attempted to descent from the porch by sliding down a large cement pillar. She fell, spraining her ankle. Recovering herself she went to the house of William Smith next door. It was here she was found by the police and placed under arrest by Officers Mapes, Vermillion, Potter and Kincaid.

Of the four bullets that went wild two have been located by Coroner Willoughby who was on the scene sortly after the shooting. Bledshaw was found lying on his face in the corner of the room. He wore his overcoat and his hat was found a short distance away.

Several articles of furniture in the room had been shoved to one side indicating, according to Coroner Willoughby, that the woman had fled from the man. The lamp on the table in the center of the room had been upset, the oil spilling on the table.

Under the man's pillow in the room below were found a knife and fork crossed with the woman's picture and a bible. According to Mrs. Henderson Bledsaw "had been acting queer" for the past week or two, and had antagonized the Weir woman to such an extent that she was afraid of him.

The body is being held by Undertaker Jones.

TWO RACE MEN FROM DES MOINES PROMOTE BIG BUSINESS PROPOSITION

While in the city this week, Mr. L. L. Shelton and E. Tracey Blagburn told of the plans they have on foot in Des Moines to erect a large building in the heart of the Negro District at the cost of $35,000.00.

The building will be large and completely modern. Work on the first floor is to start right away.

The Basement will be a well lighted moving Picture House.

The building will contain Dining Room, Dancing Rooms, Halls, Skating Rink and other activity quarters.

Later on other stories will be added and will be offices and places of business.

Messers Blagburn and Shelton are managers of the Investment Concern.

We are pleased to hear such good news from Des Moines

SPRINGFIELD, ILL., NOTES.

The National Father and Son Week will be observed by the churches February 16th to the 22nd. A special meeting will be held at the "Y" Sunday, February 22, at 4 P. M. All fathers and sons are cordially invited to attend. The purpose of this program is to lead both fathers and sons to deeper respect for each other and to lead both to regard the church and Sunday School as necessary to the finest development of their spiritual lives and to secure their cooperation in the work and support of the church.

Rev. James W. Burton speaks Sunday, February 15th, at 3 P. M. on "The New Negro in the New Era."

Woodlawn Community Association Notes.

The Woodlawn Community Association is now the temporary home of both the Lincoln Memorial Congregation Church and the Young Girls Patriotic League, which with its own affairs makes the rooms a very busy place. The Young Ladies of the League gave a Valentine Party Friday evening.

The Association continues to have excellent programmes every Sunday from 5:30 to 7 P. M. Last Sunday Mrs. J. A. Gilbert spoke on the power of words. Next Sunday Government

New Stock Company.

Another Stock Company has been organized by six business men of the race who met and pledged one thousand five hundred dollars in the interest of establishing a first class Ladies and Gents Furnishing and Tailoring Store. The official body of this organization are namely: E. S. Johnson, President, A. D. Brim, Vice-President, R. A. Dickens, Financial Secretary, A. Gree, Recording Secretary, D. McClendon, Treasurer, and W. L. Watkins, Chaplain. At the next meeting of the corporation it is expected that there will be a larger sum of money raised in the interest of the affair.

Inspector E. E. Thorne will deliver an address on "How the Government Protects your meats".

H. W. Rhea, Chairman of Programme Committee.

Dr. Davidson to Open $15,000 Drug Store

New Era In Race Business.

Dr. Geo. E. Davidson and brother, who for years has successfully operated a drug store at 3858 So. Dearborn St., in order to accomodate their increased patronage, has leased the building on the South West corner of 39th and State Sts. In about ten days they will open their doors for public inspection. The barber shop, formerly owned by Geo. Bynum, is also included in the lease which will give Davidson more street frontage than any other drug store in the city now enjoys.

DR. GEO. E. DAVIDSON.

Serve Lunches.

In connection with the soda fountain, which will be the finest in the city, there will be a light business men's lunch served. The very best service that can be rendered in this line can be expected will be given by the Davidsons. They are getting congratulatory letters from all sections of the country for their extensive adventures.

Example for Others.

Several race men have complained of not getting support in business. Dr. Davidson thinks that the public mind is ripe for colored enterprises. He also is of the opinion that a good many failures is due to the inability or the unwillingness of on the part of some men to stick strictly to business and to properly advertise. Watch for the opening.

N. A. A. C. P. ANNUAL MEETING GREAT AFFAIR.

Great preparations are being made for the annual meeting of the Chicago Branch of the N. A. A. C. P. to be held on Monday Night February 23rd at Wendell Phillips High School.

Labor Organizer's Troubles.

(Continued from page 1.)

adjust all grievances real and fancied.

During the year 1918 when in a certain department at Armour & Company's plant, the colored girls who applied for employment were always turned away while white girls were being continually put to work in that department. When finally a note was found that was left by a subordinate for the forelady the reason the policy was discovered.

The note was as follows:

"Miss ...., Please do not hire any colored girls if you can help it. Lillian!" As the union was waging a fight that no discrimination be shown to employees or prospective employees on account of race, creed or color, and as such was part of the agreement, the write appealed to certain colored non-union men to come into the organization and protest such conditions.

One made this reply:

"The matter has been reported to the Alderman and will be ajusted". Of cource, the Alderman knew they could correct the evil, but these men had been misled to believe so, and hence thought that united effort on their own part was unnecessary. — Numerous other similar instances can be cited.

4. Because of un-explained injuries substained from organized Labor Circles.

In the attempt to organize the colored waiters in this city some years ago this case seems to have developed. There was a strike of all waiters and the strike was broken by non-union waiters and waitresses (all white, we are told); all who still had jobs were ordered back to work; then the colored boys were called out again (Contrary to the agreement) and were replaced by whites probably by their own brothers in the organization. The result is that among the colored waiters there is very little if any tendency toward becoming organized. [illegible] that they had jobs that [illegible] were [illegible] best houses they had.

They haven't been informed that they were called out illegally the second time, that some officers of the union, members of their own race, are alleged to have done the stunt for a financial consideration; that their International officers seized this opportunity to suspend them. — Neither have they been informed that the Chicago Federation of Labor, the Local central body, stayed with the boys paying them strike benefits even after the International had several connections with them. In doing so the Chicago Federation of Labor risked its charter, it being in violation of one of the laws of the American Federation of Labor under which the local body is governed.

All of us remeber the race riot of last summer. Most of us know that for several days the colored workers were unable to get to their places of employment in the yards. Some of us read in the big dalies that the white union men had united in an effort to keep all the colored workers from ever returning. The writer, however, knows positively and can prove that aside from the fact that the interests seized the occasion to prejudice colored against white by those statements the union attitude was never made clear.

The writer with several other colored members of the union went on three (3) consecutive days to the International headquarters of the union and made effort to secure a statement from that source to counteract some of the evil effects among the colored workers that the newspaper statements were creating. To avoid making such a statement having anticipated such a demand from the colored union men, and fearing the consequences of refusing the demand, our International Secretary-Treasurer either left the city or pretended to be gone and remained in obscurity until the issue was settled and the colored workers return to work, in the meantime the officials of the Stockyards Labor Council, the central body in the Stockyards Union (which has since been severed from the International) were busy allaying the feeling among the workers back of the yards and keeping in touch with the colored union officials and met a committee of them at Stanton Avenue Station to discuss means of relieving distress and making arrangements for the return of the colored union men to work. The writer was a member of the committee, while the International Secretary-Treasurer of the Stockyards Union was thus in hiding, an official statement was requested of the Stockyards Labor Council, the central body, and it come from Secretary J. W. Johnstone as follows: "We regard a union man as such regardless of his color, consequently we are interested in the welfare of our colored brothers, and will welcome them on the job any day, but we confess we are not interested deeply in the colored men who do not belong to the union. We, however, have still less regard for the white non-union man, for there are some excuses for a colored man being nonunion, but for the white man there is none."

The officers of the Council Bros. Johnstone, Kikulski and Murphy also managed to control the situation which otherwise would have been disastrous when paid fire-bugs with faces blacked set fire to the homes of the workers back of the yards.

(To be continued.)

The Black Fighters

By W. A. Phelon

Hard is the colored boxers' lot—unless
they fake or "fall"
The champions pass up the black—
freeze out and bar them all!
Not since Jack Johnson lost his crown
will even half a chance,
Be given to the dusky boys—and yet
—they fought in France!
Preliminaries, little cash—the price of
cigarettes—
Or, an agreement to "lay down"—
that's what the black man gets!
Jack Dempsey "draws the color line"
—and so does Mike O'Dowd—
The Zulu boxer may not mix with
that exclusive crowd.
But Benny Leonard dearly loves, with
all his youthful soul,
To smite the dark ones on the brow
and knocked them for a goal!
To him the color matters not, if but
the coin be shown,
The other champions pass them up and
Leonard stand alone!
Heavies and middles, bantams, too,
refuse the black their chance—
They get no show for fame or wealth
—and yet—they fought in France!

Clyne to Ignore Return Plea by Jack Johnson

District Attorney Clyne received a letter from "Jack" Johnson, former heavyweight champion, now a fugitive in Mexico, yesterday. Johnson is attempting to negotiate his return to the United States, and said in his letter he desires to return to Chicago this month.

He requested Mr. Clyne have federal agents meet him in New York for "save escort" to Chicago. If Johnson returns it is expected he will appeal to the Supreme Court.

"I'll not answer the letter." Mr. Clyne said. "The government cannot negotiate with a fugitive. He must return and take his chances."

Kentucky Governor Halts Mob With Machine Guns

Continued from page one

and confessed to the assault and murder of the little Hardman girl on last Tuesday. At first the prisoner was lodged in the Penitentiary at Frankfort. When he was indicted it was decided to hold his trial in Lexington and 300 state troops were ordered there to guard him. The state troops closely guarded the streets when the Negro was taken from the train. Heavy wires and ropes had been stretched along the streets to prevent the crowd from charging the prisoner and military escort. Long before the trial the court house was crowded. No one was permitted to enter until searched for weapons. Orders to "shoot to kill" had been given if any one attempted to accost the prisoner and guards on way into the court house.

Girls' body found near school.

The body of the Hardman girl was found by school mates a short distance from home last Tuesday morning, a few moments after she had started to school.

The girls body had been dragged into a corn field and her head crushed with a stone and the body partly covered up with corn stocks.

In a short time a posse was formed and search began for the murderer. Lockett was suspected and later at night found at a friend's house about six miles from the scene. He was taken into custody by Lexington Physician and friend, but defied the charge. He later confessed and added he did not "know why" he had killed the girl.

Speed in trial.

Lockett was arrested Tuesday, indicted Friday and was tried and found guilty a few moments after, the trial lasting about 35 minutes. He was sentenced to die in the electric chair on March 11th.

A new record of speed was established in conducting this trial. Im[illegible] the negro was hurried away to safety.

[illegible] at trial.

The brother of the girl issued a statement saying [illegible] of the relatives wanted any violence manifested during the chase for trial of the victim, who murdered his sister. He asked that none of their friends or sympathizers resort to or do anything rash. He said he had confidence in the actions of the law and justice would be meated out. The injury to innocent people was a disgrace to the state and law and he urged that the law be allowed to take its course.

Governor on the job.

The thorting of the mob in its every detail and the fact that the State Militia was called to protect the prisoner at the loss of life, if necessary, showed that Governor Edward P. Morrow, governor of State of Kentucky was determined to do his duty to the extreme end. The law abiding people all over the entire United States surely feel a deep sense of gratification for the governor of Kentucky.

A federal law would not be necessary to punish lynchers and lynching would not exist if there were other southern officials with principle and who would stand upon the constitution they have sworn to uphold.

The governor of every state is responsible for the acts committed in his state and he has every power in his hands to control every situation that may arise if he is only man enough to do it.

To Gov. Morrow and Sheriff Bain Moore of Franklin County we commend to the civilized world as men who are not afraid of public sentiment and who will stand for the right thing in the face of death.

RIGHTS NOT MONUMENTS

It is fitting to honor the dead. It is proper to give tribute to the illustrious dead. It is also proper and fitting that the living should have that for which others fought, bled and died. We hear the appeal for funds to erect marble shafts and bronze tablets that the fighting black soldiers who have made the supreme sacrifice might have lasting tribute to their heroic deeds and glorious death. The Bourbon South accords and condescends to aid financially in this effort to show apreciation of of the "faithful" blacks who helped make the world safe for democracy —A WHITE DEMOCRACY.

The Democracy that was in the heart of every black soldier of America was that by his effort those bound to him by color ties should enjoy the fruits of that true democracy. If the South and the people throughout the country want to properly commemorate the black fighting men who gave their lives, let them bend their energies to giving to the relatives and others of their race that which is their birthright — full, unqualified citizenship rights and privileges.

Let the South turn her eyes from rising spiral of smoke of barbaric burnings and let the North open her eyes and heart to real manhood.

BRIEF HISTORY OF ONE RIOT VICTIM

Submitted by James A. Terry, 3456 S. State St. sole atty.

Henry Renfroe, 3114 Cottage Grove Ave., was arrested on the morning of July 29, 1919, and taken to the County hospital from which he was transferred to the Bridewell hospital, after being beaten and seriously injured by a mob at or near 40th and Halsted Sts. The police of the 13th precinct (47th and Halstead sts) precinct (47th and Halsted Sts.) A. Terry appeared before Judge Hugo Pam with a writ of habeas corpus, they then booked him on the charge of murder of Joseph Powers.

On 8/12/19. Att'y Terry before [illegible] preliminary examination of Renfroe [illegible] 1919, before which [illegible] jury ordered his dismissal. The [illegible] precinct police refused to release him claiming they were holding him at the order of the States Attorney's office for complicity in other murders. Attorney Terry appeared before Judge Barrasa on 9/8/19. and showed that Renfroe's record was clean and had the case against him dismissed. On Saturday 1/31/20. when Judge Joseph B. David, against the vehement objections of asst. corporation counsel Righeimeir, overruled the city's demurrer to Renfroe's right to sue the city for the damages he received at the hands of a mob. Atty. Terry won another of a series of contest for his client.

JAPAN FINDS U. S. DISCOURTEOUS.

Washington, Jan. 22.—Asserting that the success or failure of the peace treaty "altogether depended on the spirit and manner of its operation," Premier Hara, in an address at the opening of the Japanese Diet yesterday at Tokio said Japan would "be one of those states which will strictly carry out every term of the treaty."

The text of the premier's speech was received today at the Japanese embassy. The Premier said in part:

"The Japanese government has consistently stood for a policy of international concord in Siberia. Accordingly, it approached the American government of late with a view to arriving at an understanding with them on the question of sending reinforcements.

"While their reply was being eagerly awaited the commander in chief of the American army in Vladivostok sent a communication to Gen. Chi on the 8th inst., that in accordance with instructions from the military authorities in Washington, the American forces would be withdrawn from Siberia.

"On the following day the American representative declared at the meeting of the special inter-allied commission that the American government had come to the decision to cease their participation in the supervision of the operation of railways in Siberia, and charged their representatives to withdraw from the board of committee.

"Subsequently, on the 12th inst., a formal reply to our overture was received, and it was explained that it was by mistake that the American commander's communication to his Japanese colleague at Vladivostok as above alluded to, was made before the reply of the American government was sent to the Japanese government. For this the American authorities expressed their sincere regret."

There are many natives who have been converted and they set good examples for the others. They are very neat in their homes. When the missionaries go into the country they frequently stay in the homes of the native evangelists.

The life of the missionary is not very unpleasant. We used to live in mud houses with straw roofs altogether, but many are building brick houses now. The big white ants eat wood houses, but the furniture can be protected by care. The ants do not sting. The natives eat them at certain seasons. We have very good food, as most of it comes from Europe. There are always plenty of eggs, chickens, goats, sheep and frequently we get canned goods. Fruits are very plentiful.

Snakes have been known to get in the houses, especially the mud houses, [illegible] the crocodile. They live in rivers [illegible] ry them away. Five men were in a boat one day near the place I was stopping and a crocodile turned it over and carried one of the men off. His comrades followed the crocodile down the river and finally killed it. I went through the village and of all the noise that was going on I never heard the like. It sounded like a baseball game in the ninth inning. I later learned they were celebrating the massacre of the crocodile. The Belgian government aids in exterminating the crocodiles by furnishing ammunition to boats."

CAPTURE EGRO AND CIGARS.

One case containing approximately 5000 cigars, believed to have been stolen from the W. D. Winn Cigar Company, 1701 First avenue, Tuesday night, were found by Officers Howell and Cartwright late last night near the corner of Twenty-fourth street and Seventh avenue in the possession of Caesar Perdue, negro, who gave his address to the officers as 14 Short Twentieth st., north. The negro was placed in the city jail on a charge of burglary and grand larceny.

The negro was seen on Seventh avenue by the officers, who were on bicycle duty, driving an old dray wagon on which was the case of cigars. The officers interrogated the negro, who stated that he found the horse and wagon on Fifth avenue and was driving it to his home. The outfit was brought to headquarters by the officers and will be turned over to the owners today.

FACTS YOU SHOULD KNOW IN REGARD TO THE INCOME TAX.

Numerous inquires are received by collectors of internal revenue concerning depreciation and the allowances therefor in the filing of an income tax return. As the rate at which depreciation may be claimed is dependent upon local conditions, the use to which the property is put and its probable life-time under normal business condiitons, no specific rate is established by the law or regulations. The word 'depreciation' is not used in the law, which provides a "reasonable allowance for exhaustion, wear and tear of property used in trade or business, including a reasonable allowance for obsolescence."

To compute the amount of depreciation which may be claimed, a taxpayer should determine the probable lifetime of the property, then divide the number of years it will be usable in the business in which employed. The result thus obtained will represent the amount which may be claimed as a deduction. For example, a frame building, the probable lifetime of which without repair or replacement is 25 years, cost $5,000. Divide $5,000 by 25 and claim $200 each year as an exemption.

Average depreciation.

While each taxpayer must determine the probable lifetime of his property, without regard to the following figures, it has been estimated that the average usable lifetime of a frame building is 25 years; a brick building, 35 years; a stone, steel, or concrete building, 50 to 100 years. The estimated life of ordinary machinery is 10 years, that of automobiles used for business or farm purposes and farm tractors, 4 to 5 years.

[illegible] a taxpayer claims the full amount of depreciation he can not claim as a deduction the cost of re[illegible] same year. If he wishes to claim a [illegible] full amount of depreciation and the balance may be claimed under the heading of "Depreciation." "Repairs" in this connection means repairs and replacements of a kind tending to make good the depreciation such as a new flooring or new roof. Small items such as replacements or broken windows, paperinf, and minor repairs are allowable, even though the full amount of depreciation is claimed.

Principle to Be Observed.

In claiming depreciation the following fundamental principles must be observed.

Only such depreciation as results from exhaustion, wear, and tear of property arising out of its use in business or trade is allowed. Depreciation in the value of a home, or property such as automobiles used for pleasure or convenience can not be claimed.

Depreciation due to changes in the social or business conditions of a neighborhood, or changes of street grade, or fluctuations in market values can not be claimed.

Depreciation in the value of land, whether improved or unimproved, due to erosion, exhaustion or any other cause can not be claimed.

When, in the course of years, the owner of property has claimd its full cost as depreciation; no further claim will be allowed.

The value to be cared for by depreciation is the actual amount invested in the property.

The White Man's Conscience

A great meeting was held at Tuskegee Institute recently. A great array of educators and leaders were in evidence. Dr. Durkee of Howard University, Dr. Rendall of Lincoln University, Bishop Clinton of the A. M. E. Zion Church, Mr. H. H. Pace of Atlanta and Governor Bickett of North Carolina. These gentlemen or at least some of them, discussed with intelligence the so-called race relation. Colored newspapers of the South were much enthused over the emotional address of Gov. Bickett. The "voice of the child race" was raised in appreciation for the balm of Gilead that the Governor offered to salve over the festering sores of Southern corruption. Everybody went away happy, lullabied by the sophormoric vaporings of "the fair minded champion of justice".

The colored southern papers state that Governor Bickett was right. We state that the Governor was wrong. Either the editors are unforgivably ignorant or unquestionably afraid. Gov. Bickett stated in part, "I urge you to put every question that touches upon your wellbeing squarely up to the conscience [illegible] to no other tribunal".

The time has arrived for the race to get down to the facts of life. Emotionalism and word pictures belong to the horrible past. The colored people of America must realize that the white man's conscience will not be the omnipotent, magical salvation and solution of our race and its difficulties. Human nature has not changed materially in the last few years. THE APPEAL TO THE WHITE MAN'S CONSCIENCE HAS NOT AND WILL NOT SOLVE OUR PROBLEM. NOTHING SUBSTANTIAL HAS EVER BEEN ACCOMPLISHED BY THE EMPTY APPEAL TO CONSCIENCE.

The history of civilization is the history of war. Even the history of religion and Christianity is a record of blood. Everything under the sun has been worked out by some kind of force and pressure. The conscience of mankind is an intangible moral guide that works intuitively. The moral philosophers say that conscience is that within us that thinks, feels and wills. Without dipping into metaphysics, it is easily discernable that mind is to be distinguished from conscience. The mind considers cold facts. Conscience considers right and wrong. LET US APPEAL TO THE MIND OF THE WHITE MAN. LET US GIVE HIM FACTS TO CONSIDER. LET THESE FACTS BE BACKED UP BY POTENTIAL ENERGY. LET THE FACTS BE ORGANIZED ECONOMIC STRENGTH AND INTELLIGENT VOTING CAPACITY.

The Governor of Kentucky this week protects a Negro and orders the militia to shoot to kill. This is the result of the new propaganda which has undoubtedly brought the facts to his mind. The Governor sees that the South will lose her labor strength and her latitude for money making will be curtailed unless the colored man is absolved from lynch law. The colored man has been absorbed successfully in Northern industry, and the South begins to realize his great economic and industrial awakening. The spirit of the New Negro suggests retalitory measures and foreshadows force and violence. Therefore the mind of the South has been penetrated. The 20th Century conscience is seared. Forget not that this is a commercial age. Let no appeal to conscience override our preparations. Let us organize our economic and political forces in order that we can demand by our multiplied strength full liberty and citizenship. The doctrine of "appeal to conscience" is for the slave. Let the doctrine of intelligent collective demand be our method.

Our Next President

After the smoke of war has faded and the roar of guns has ceased, this great nation begins to reconstruct herself from the devastation of the great disaster. The process of reconstruction is mixed up with post war unrest and general dissatisfaction. Labor troubles foment unrest in the economic sphere. The reactionaries and radicals split up popular opinion. Political hypocricy and exploitation has awakened the torpid minds of the masses to realize that readjustment of all disorders must be effected to a large degree through the President of the United States and his cohorts. Apologies to democracy.

A new president will soon take over the governmental reins. For four years the country will worship at the shrine of "democracy's elected apostle". One twelfth of America's population, the outcasts, called colored people, are waiting with bated breath for a President with broad vision and firm courage. The presidential election is the most weighty issue of American moment. In the support of a candidate, the race must no longer be lulled into a voting mood by illusory promise and giftatory eloquence. We must support a man who is morally and mentally Right on the race question. The record of the individual must be closely scrutinized and this above all other things, let us find out what he has ever done for us.

It is imperative to protect and ameliorate the political and economic status of the race. Where we are compelled to take a chance with a white man, let us reduce the chance element by supporting unqualifiedly some candidate that has been inclined to play square with us. Let us vote for a MAN and support him. If he is defeated, the man who wins cannot insult us any more than we have been insulted. If he wins, let us trust that a new era will truly dawn.

New Blood

The changing order of affairs calls for new thinking, new actions and new results. In order to get the elemental and necessary requisites we must get new blood, redder blood to course the arteries of the race.

We are compelled to realize that the veins of colored Americans leadership are filled with stagnant fluids that will keep race energy immovable and race success static. In the history of races it is scientifically proven that new blood gives satisfactory results. We have new blood within our gates, blood that will fill the great system of Black citizens with new momentum and new vigor. The great question to be decided is, is the race willing to accept and absorb it?

The constant cry for a square deal in this country proves to us that the bulk of our people feel keenly the sting of injustice and the stigma of prejudice. The evils can and will be alleviated when the race demands respect and can command by virtue of her intelligence and virile leadership.

We have the new blooded individuals, ready and willing to bear the burdens of this over-tasked people. We have new blooded groups fresh from France, fresh from the fountains of learning, fresh of the virdure of the broad and enlightened vision. These individuals with new blood are to be considered seriously. The social, political and economic position must be elevated and improved. The "New Crowd" with red blood are simply waiting for the confidence and support of its fellows.

The race must be saved. It cannot be saved by stupid, ignorant representatives. Let the people catch the spirit, feel it and absorb the new blood that will throw off the disease of "misleadership".

Stock Yards Labor Council and The Colored Workers

Some months ago there appeared in this paper an article: "Where Do We Go From Here?" In this we analized the industrial situation facing the American Negro to-day. We did not endorse any national labor organization as being the salvation of the Negro worker. After extensive research we found that the Negro worker was in an anomalous position. He is suffering from the iron heel of capitalism, he is undergoing excruciating agonies as a result of the prejudice in the ranks of labor. Despite all these obstacles, that stand as almost insurmountable barriers, we did say that his salvation was in organization.

This is a day of organization. The period of individual success and accomplishment has passed. A glance at the gigantic enterprises that have grown up over night as the result of intelligent combination makes this fact too obvious to warrant elaboration. The Negro must organize if he expects to go forward. He must get together if he expects to demand an equal place in the affairs of the future.

He has more in common with organized labor despite its fallicies than he has with capital. Therefore his future affilitions should be with labor whose interests are common with his.

In Chicago more of our group are employed in the Stock Yards than in any of the industries. The Stock Yards Labor Council according to the NEW MAJORITY, the official organ of the Chicago Branch of the A. F. of L., has been largely responsible for the increase in wages and the decrease in hours and a general improvement in working condition in the yards. The Amalgamated Meat Cutters and Butcher Workmen's Union has organized a District Council. According to law, they have the authority; according to good judgement, it destroys the chances of the progress of the worker's cause.

We trust that labor will soon bridge this chasm which deteriorates its strength. We hope that the colored workers will not get "cold feet" on account of this controversy but will continue to support the Stock Yards Labor Council which has worked overtime for their interests.

Johnstone and others of the labor movement should not become discouraged at their scepticism of some colored men. Past experiences with the labor movement no doubt gives them sufficient cause.

Yet at the same time, there are ample numbers and intelligence among themselves, represented in this particular industry not only to ask for but to force a square deal in the future.

THREE YEARS IN RUSSIA.

(Providence Journal.)

We are now approaching the third anniversary of the beginning of the Russian revolution. It was on March 12, 1917, that the Czar's Government gave way before the uprising of the people. In the interval what a marvelous amount of history has ben recorded in his former empire. No one could have foretold a quarter of it—the capture and assassination of the imperial household, the overthrow of the moderate Government of Lvoff, the rise of Kerensky to power, his deposition at the hands of Lenin and Trotzky, the present chaos from the borders of Poland to the Pacific Ocean.

And who can say what the next three years will bring forth. If any one wishes to realize the futility of prophecy, let him set down now his opinions as to what conditions will prevail in Russia in 1923—and then lock them up for safekeeping until that time.

The Negro and Chicago Past and Present

By Lieut. J. E. Hawkins

ARTICLE V.

George W. Mead, follows Cassius King in being the next oldest settler; he was born at Culpepper Court House Virginia, in 1835, and came to four are living. The wife of Mr. Mead, was Elisabeth Johnson, who was a native of Philadelphia, Pennsylvania.

Mr. Mead does not lay claim to any great performace of life other than that of raising a family that has long ben a credit to the community and all of the children graduated from the Chicago public schools. For a great many years he was in the employ of Kellogg the Hatter, but later followed the catering business and eventually became headwaiter for the Eckhart catering Co. The Eckhart Catering Co. was one of the largest concerns in this line of business and was later bought out by French and Shaw, two colored men who operate the business successfully for a number of years. This establishment was located on West Madison Street, between Ogden and Ashland Avenues, and at that period the Elite of Chicago's Four Hundred lived this locality but later moved over on the Northside around Lake Shore Drive as this territory had just been open up and Lincoln Park was being remodeled from a grave yard.

Mr. Mead, tells many very interesting stories of the old days when the West side was the high class residential section of the city, and Ashland Ave. and Washington Boulevard were what Lake Shore Drive and Sheridan Road are today. Garfield Park, was located beyond the city limits, Western Avenue and the park was used as a picnic ground surrounded by a white picket fence. The park at that time was bounded by Lake Street on the North, and Madison Street on the South, and ran about five block West of Homan Avenue.

French and Shaw, who purchased the Eckhart Catering Co., were oftimes referred to as the "Two Johns", John French and John Shaw; these men were past masters of the profession and owed the success to their treatment of the men under their employ, and oftimes rival catering companies made flattering inducements to the employes in order to get them over but the men remained loyal Franch and Shaw.

The living children have made great success in life and two of them reside in Chicago; Mrs. Georgiana Mead Jones, Mrs. Lucy A. Harris, who marrid Adolphus C. Harris, the successful real estate dealer, and a son Edward R. Mead, lives in the East.

Mr. Mead lives with his daughter and son-in-law Mr. and Mrs. Harris, and spend a great part of his time at the real estate office on State Street, and can be found there most and evening around four oclock. He has always been considered one of the best colored citizens and has devoted all of his energy in the direction of raising and educating his family and in during this he has reached the highest pinnacle in manhood.

DEATH MESSAGE SENT TO RACE

★ ★ ★ ★ ★ ★ ★ ★ ★ ★

27 Homes bombed, 1 Arrest Since May 1918.

WOMEN HYSTERICAL CHILDREN TERROR STICKEN MEN STRANGELY SILENT

7 Homes Burned—Damage Runs Into Thousands of Dollars—Women Hysterical, Children Terror Stricken—Men Silent.

The Colored pe[illegible] of Chicago are [illegible] burnings of [illegible] homes are mute [illegible] empty and idle threats. Human [illegible] is not considered and the munic- [illegible] life of the Colored Citizens is at [illegible]. The Bombs sound the death knell to Freedom and liberty. The important and hidden message to the race is "Get out or be killed", this is the death message.

Homes Bombed.

Since May 1918 27 homes have been bombed. These homes were in possession of Colored People of the highest type. Two deaths have resulted. Many have been forced into driving snow and bitter cold by the internal disaster of race enemies.

A strong Anti-Negro Association basks and revels in Hyde Park. They have by their violent propaganda proven that they are not above such tactics and since bombing and burning follow in the wake of their meetings, everybody except the police officials believe them to be mixed up in the sabotage.

One Man Arrested Out on Bond.

The city has only been able to catch one suspect and he is out on $500 [illegible] were caught in a two-day drag net. Yet for 6 months not one of these violent anarchists and fire bugs can be caught. The bombers have even had nerve to warn their visitors over the phone. All of the colored people who have been intimidated are those living in white districts, and the cause is clear.

Mayor Thompson Silent.

The Mayor whom the city papers declared was elected by the Colored people has been skillfully silent and the people are beginning to doubt his position in the Race question.

Men of Race Afraid.

The men of the Race have only held indignation meetings and drawn up resolutions and petitions, and made petty speeches. The Bomb Warriers are meeting no resistance either from the law or the besieged colored people. The people's nerves are on edge and they wonder who will be bombed next.

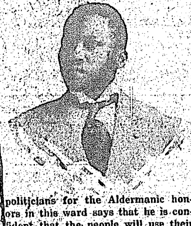
Westbrooks: I Will Be Next Alderman!

WESTBROOK NEXT ALDERMAN.

Latest Political Forecast.

People's Candidate Confident.

Atty. Richard E. Westbrook, who for two months has been carrying the banner of the United Political League to defeat ignorant boss-ruled



politicians for the Aldermanic honors in this ward says that he is confident that the people will use their best judgment at the polls on Tuesday and send Bob Jackson back to the Post Office where he belongs.

Represents New Crowd.

Atty. Westbrook is considered one f the ablest Lawyers of this city without regard to race. He is a atural fighter, uncompromising with stice, he belongs to the young inelligent regime, who not only have ermination but intelligence suffici- t to get things done. He does not lieve that all of the old leaders are ooks by nature but that they suffer and the slave psychology, which rves to make them spineless and unmanly. He believes that the hope of the race is at the young men of today. He has faith in his people and believes if their case is presented intelligently that the better class of white people will have more respect for the race politically and economicaly.

Hundreds Volunteer Services.

The most striking feature of the campaign is the many applications that are received every [illegible] from hundreds of citizens, wh[illegible] anxious to see the race and th[illegible] community represented by its best [illegible]. And also to stop forever the advance of the "me too Boss, hat in hand" misleaders.

Black Star Line Ship Gets Away.

Yarmouth Sails for Havana With Precious Freight.

New York, Feb. 12.—The Black Star Steamship Yarmouth sailed today for Havana with a Negro captain and crew, 34 negro passengers and a cargo of liquor valued at $4,800,000 comprising 21,419 cases of Kentucky Whiskey, 500 cases of Champagne and 350 barrels of wine.

This was the vessels second departure for Havana with almost the same cargo. She staggered out of port the day prohibition became effective, but had such a heavy load she got into trouble in the storm off the New Jersey coast and had to return, after dropping 500 cases overboard.

Since then the disappearance of small lots of the cargo caused federal authorities to keep ten prohibition agents aboard at the cost of $100 a day. A few hours prior to her departure a white was arrested while leaving the boat with a quart of whiskey.

Why Colored People Don't Organize

CONTINUED FROM LAST ISSUE

By Andrew Holmes, Secretary-Treasurer of Local No. 20.

(4) BECAUSE OF UNEXPLAINED INJURIES FROM ORGANIZED LABOR CIRCLES.

[illegible] Union's attitude towards its colored membership, during the greatest crisis the city has ever passed through. We showed at considerable length just what part was played by the International, and also by the Stockyards Labor Council; and we made mention of the fact that these two factions had severed relationship. They are now actively opposing each other in every respect. The fact is that the two factions had entertainel different convictions, as to methods of organization had placed them in such spirit of antagonism that even the great race riot failed to have any tendency towards reconciliacion; hence we noted the International representatives as disappearing during the height of the disorder leaving the colored members to their fate, while the local central body, the Stockyards Labor Council, put forth every effort to adjust matters to the advantage of its members; but w[illegible] not concerned to any great extent about the colored workers who wel[illegible] not members of the union. Before passing over this phase of the subject we may as well mention the fact that during the early part of last Spring when men and women were "laid [illegible] from their jobs in the various packing plants, many who were members of the union found themselves unable to readily find employment elsewhere and as a result were in need of financial assistance. As the International union's treasury was in a prosperous condition, the writer approached the International Secretary-Treasurer and proposed that the organization do some relief work among its colored membership, as their contributions were a part of its resources. This suggestion was completely ignored by that official, yet on his recommendation a salay of more than two hundred dollars ($200.00) was being paid monthly to two (2) individuals, who were employed in a line not directly connected with the organization. One of these individuals has never worked a day in the yards within the writer's knowledge, but the International officers thought those two persons to be influential and thought the money of all the workers spent to a better advantage when used to incur the favor of a few big "I's" than when spent to relieve the actual forced suffering of those who paid it in. Such political propaganda, neglecting the welfare of the rank and file, and making favorites of a few picked individuals who were supposed to influence the masses—this on the part of the International, has been the basis of many disputes between that body and the Stockyards Labor Council, and accelerated the arrival of the day when the final rupture came and the factional fight began.

DAVIDSON BROS. OPEN WONDERFUL STORE

Saturday, February 21st will be a gala day in the history of the colored people in this vicinity. [illegible] of the race have longed for the time and waited for some of the race to enter into the field of big business in a manner that in every way would equal the best in the field regardless of color. The enterprise of these [illegible]cessful business men have

Dr. George E. Davidson

made this dream come true and when the doors of this modern and up-to-date drug store is opened on Saturday, a new mile stone in the business progress of the race will have been reached.

Dr. George F. Davidson and his brother, Charles E. Davidson have for years satisfied a large trade at their store at 39th and Dearborn Streets and their new venture is backed by both years of experience as well as extensive credit and capital.

Thousands To Attend Opening.

The doors of the new store at 39th and State Streets will be opened to the public on Saturday. Indications show, that a record breaking crowd will visit the store on this day. In view of the fact that it is exceedingly difficult for colored men to obtain first class business locations, these two race men are to be congratulated in securing this location.

Store a Real Paradise.

The fixtures of the store are of solid mahogany and a wonderful soda fountain occupies a large space in order to accommodate the large patronage expected for liquid refreshment and light lunches. Every modern, sanitary convenience has been installed for the comfort of patrons. Mahogany booths with leather cushions, artistic decorations give the place an air that shows nothing has been stinted in order that the people of the southside might have a first class place.

Effort Will Inspire Others.

The success of these pioneers will serve as an inspiration to others. This expression is found in the conversations of business men in other lines.

SLAYER OF COLORED HACKMAN CONVICTED

Tried For Murder Five Times. His First Conviction

Jacksonville Jury Brings in Verdict of Guilty Against Murderer of Colored Hackman.

Jacksonville, Fla., Jan. 20. — Manslaughter was the verdict of the circuit court jury, Judge [illegible]immons presiding, in the case of Moses Anglin [illegible] first degree in connection with the shooting and killing of Charles Jones, a colored hackman, on Adams street, near Da[illegible], on the afternoon of December 12.

The maximum penalty for manslaughter is 20 years in the penitentiary. There is no fixed minimum, so the sentence imposed may be anywhere up to 20 years.

Anglin claimed he killed Jones in self-defense. He admitted to firing three bullets into his body, but declared that he could not remember all the shots that were fired. The post mortem showed that four bullets penerated Jones' body. A fifth bullet lodged in the hack.

Anglin went to trial with a black record behind him. He killed two men in Mississippi, getting a life sentence in one case. He pleaded guilty to manslaughter in the other case while the jury was out deliberating. He was pardoned by former Governor Vardaman. On the stand in court yesterday he said that when he left Jackson, Miss., he went to Atlanta, and from there came to Jacksonville, and that he had been here about three years.

Since he has been here he has been tried three times for murder. Early last year he was arrested in connection with the killing of two Syrians, was tried and acquitted by a jury on both charges. This was the fifth time he had been tried for his life.

A CHINESE LEADS IN THE BOLSHEVIKS.

Chinese Ex-Barber One of Arch Bosses of Bolshevist Russia.

Berlin, Feb. 15.—The Severity of Ipak Yen, Mongolian, has made him one of powers of Russia. Confident of Lenine and Trotzky, the one conciliating element in the whirlpool of Russian Graft and plotting, he has, thanks to his oriental origin, raised himself in ten years from a barber to a statesman.

Ipak Yen was scraping China in Manchuria when he was captured as a spy. Being totally innocent he yet pleaded guilty and under the pretex of inside knowledge of Japanese affairs insinuated himself in to the grace of Trotzky. From that time on his power has grown.

He has three automobiles, 30,000 rubles, five wives and lives in the Kremlin, the most magnificent palace in Russia. He controls the foreign policy of Russia. He is quick, resourceful, suave, a natural associate for Lenin, and he is not a bolshevick, —only a Chinaman. Chinamen are never anything but just Chinamen.

Japanese have found cement mortar mixed with volcanic ashes valuable for work that is submerged in sea water.

TROOPS PATROL STREETS NO RECURRENCE OF RIOT SLAYER [illegible] GIRL INSANE

Lexington, Ky., February 20.—No lessening of military precautions to prevent a recurrence of mob violence in Lexington was apparent today. Federal soldiers continued to surround the Fayette courthouse where Will Lockett, negro, slayer of 10-year-old Geneva Hardman and center of the disturbance Monday, in which five persons lost their lives, was [illegible] guarded every avenue to the city and detachments still were stationed in the warehouse district.

Brigadier General F. C. Marshall characterized the[illegible] so satisfied was he in the situation that after a conference with Major Gen. Charles P. Sumerall, commander of the First division, who arrived during the day, he annouced the number of patrol gradually would be withdrawn, and that one brigade, or approximately one-half of the troops here, would entrain for Louisville, probably tonight.

Lockett, heavily guarded, remained in his cell in the courthouse.

General Marshall announced that the federal government had no authority to take him out of Fayette county, now under martial law, unless Governor Edwin P. Morrow requested it.

General Marshall paid a tribute to the people of Lexington and Fayette county for their ready submission to martial law and characterized it as "the first evidence of a big reaction in the whole country which is beginning to swich back from bolshevism to law and order."

Citizens, both black and white walked the streets unmolested night, except that each imparti[illegible] was searched for weapons wh[illegible] they entered the restricted di[illegible] the vicinity of the court[illegible]

Two civilians were [illegible] the day. One engaged [illegible] other was charged [illegible]

Reports [illegible] taineers were en rou[illegible] to lynch Lockett cause[illegible] ing officer to thro[illegible] the city [illegible] ments at every [illegible] the city.

No attempt will be made by authorities to remove Lockett fr[illegible] the steel cage in the courthouse [illegible] danger of further violence is pass[illegible] it was announced.

"I don't know why I did it," [illegible] negro is quoted as having said in [illegible] course of a statement prepared [illegible] submission to the jury which con[illegible]ed him yesterday. Lockett th[illegible] himself on the mercy of the co[illegible]. Only one witness, a neighbor of the dead girl's father, was placed on the stand by the state. The witness identified the stone with which the girl's head had been crushed. The jurymen returned their verdict without leaving their seats.

Commonwealth's Attorney John R. Allen stated that no prosecution of members of the mob was contemplated by the authorities.

Run on Lincoln Bank Unwarranted

Bank Has Plenty of Money.

A run on the Lincoln State Bank of Chicago lasting for several days has been in evidence. The run it is claimed by leading citizens was caused by leading citizens was a certain newspaper and other dissatisfied individuals.

The bank is solvent and has plenty of resources. The Lincoln officials have done more for this colored community than the Franklin State Bank and other institutions. They are compelled to depend on some institution to float their mortgages and protect their interests. The Lincoln Bank according to record has done more than any other institution. Snap judgment and financial hysteria has overcome the sober reasoning of the depositors and their action will work against their own interests.

Hyde Park Gang At Work.

It is claimed by several people of authority that the Hyde Park property enemies of the race have added fuel to flames and have stirred up feeling against the Bank.

These enemies have played upon the sentiments and distrust of poor people and have caused them to draw out their money thereby losing the interest and the protection afforded by the bank.

Pickpockets Fleece Poor Misguided People.

Poor people who have drawn their meagre earnings out have been made the target of crooks and pickpockets who have stolen the Life Savings of many. It is hoped that the calm judgment of all good South Siders will lead them to stop the run and play fair with the bank.

Mississippi Chinese Kids Can't Attend White School.

Jackson, Miss., Feb. 17.—Attorney General Frank Roberson ruled today that Chinese children in Mississippi cannot attend schools with white children.

CONVICT IS KILLED.

Dublin, Ga., February 21.—Special).—A negro convict on the Laurens county road gang was killed this afternoon about 5 o'clock when he jumped from a truck into Sandy Ford creek, five miles from Dublin. Reports of the accident coming to Dublin were that the Negro was on an automobile truck which was hauling water from the creek to the camp nearby.

[illegible]

Under The Lash of The Whip

Colored people are being bombed and burned, discriminated and lynched, yet every night the same giggling, silly, insipid faces can be seen sucking caberet "liquid" thru a straw and dancing away the time that should be used for organization and preparation. What should be done to wake the race up? Probably the politicians that protect the vicious institutions have a remedy.

When will the young men of our race take an interest in their own future and cease running around, trying to "shark" every young lady that passes.

The old, crooked, cowardly politicians that control the Second Ward certainly do fight dirty. They "snoop around" the offices of the white "bosses" and tell lies and playing Uncle Tom in order to get a little more "blood money." Who went down town last week from the People's Movement Club and lied about the NEW CROWD? The "Keen Observer" saw you and your henchman, Uncle Tom.

One of those who professed to join the NEW CROWD has sold out! He did not have enough NERVE AND BACKBONE to stand on manhood principles. Traitor, Number One has been discovered. He is too insignificant to get publicity in this paper. Write for his name and history from Oscar De Priest. Shame on you! Shame on your selfishness! Shame on your ignorance! Shame on your lack of vision!

Major Jackson, "The Fighting BOOB," said concerning the Harding Harmony Plan, "What God has joined together, let no man put asunder." If God joined Louis Anderson, Fighting BOOB, Oscar DePriest and Ed. Wright together, the devil must either been asleep or in company with George Harding.

The social standards of our society girls are something fierce. The "best producer" is generally the lucky dog.

President Wilson says that if the Irish support the Peace Treaty and the League of Nations here in America, he will get them freedom over in Ireland. If the colored man supports the treaty and the League over here, will he give us freedom and liberty here?

Figthing Boob Jackson, the Alderman or rather the "oughter be man" said in the Business Men's League Thursday night that they should start another newspaper in Chicago. Good idea, "Boob." The Whip will not sell out the race. Who's going to print that paper, Boob?

The "management" of the Clarence Cameron White Recital for making "announcements" between the numbers of the artist. It really isn't done! We'll learn some day how to do this kind of a thing right.

The members of the "cod-fish aristocracy" who held themselves aloof from the "common crowd" at the Eighth Regiment, get off your perch! You can not stand the Spotlight, [illegible] Crowd can.

[illegible] Courage to do anything that all conformity [illegible] picking flaws in those who are in the fight with their [illegible] ed up.

[illegible] sickening female "cats" who scandalize other women [illegible] carefully scrutinizing their own shady acts [illegible]

Millionaire dollars to "boom" Chicago! Don't think it costs that much to "Bomb" 27 colored homes! Wonder if the Hyde Park Gang know how much it has cost. They say Italian Labor is cheap. They don't like the work of jews though.

If it takes "Hoyne's" office 48 hours to round up 5 suspects in the Enright Murder, how many YEARS does he want to catch ONE bomber of colored homes?

All those colored "brethren" who believe that if a white man talks to him for 10 minutes without calling him "Nigger" that he is a "friend to the race". Watch all those friendly White men, they want something.

That snooping individual who thinks he can "ajust" the situation in Hyde Park to the satisfaction of all parties concerned mostly about how many dollars you will be able to hold out.

From Slavery to Wealth

One of the distinguished race men in attendance to the Lincoln League organizations was Scott Bond of Forest City Arkansas, who ranks among the wealthiest and came up from the lowest circumstances of our race. In his autobiography many incidents of the apparently impossible were bridged and a path hued from the depths to the top of success. Such men are inspiring what he did surley the men of today should be able to do.

The Following is his latest transaction:

Scott Bond Pays $145,000 For Farm.

Forest City, Ark., Feb. 17. — Scott Bond of Madison, one of the wealthiest farmers of the race, purchased from Judge E. A. Rolfe, and Dr. O. N. Warren the Captain John Young estate, containing 900 acres, for $145,000. The place was formerly owned by J. W. Gordon (white).

"Colored Beecher" Makes Address

"Colored Henry Ward Beecher" Addresses Americanization Conference On "The Cure for Race Troubles and Riots."

William Pickens, associate field secretary of the National Association for the Advancement of Colored People, known for his oratory as the "colored Henry Ward Beecher," was to address the Christian Americanization Conference in Philadelphia today (February 12). Mr. Pickens who won the Ten Eyck Oratorical prize for oratory from a class of 300 men at Yale University, recently resigned as Dean and Vice president of Morgan College in order to join the Advancement Association's staff.

"The chief cause of race riots in the United States", said Mr. Pickens, "is the attitude of mind in the white public toward the Negro race.

"As long as and intelligent and religious white man discriminates against the Negro race, regardless of individual merit, the ignorant and irreligious white man will do the same —but that ignorant and irreligious white man will be cruder and more brutal in his dealings with the Negro.

"The politician in Washington attemps to lynch the Negro civilly and politically, the man at home in Texas attempts to lynch him with a rope. The one lynches him in soul, the other in body. If where the Negro is concerned, the senator respects no law, human or divine as one of them said, then the lynching of the Negro is the most logical thing in the country.

"The better classes of both races must deliberately and consciously seek out co-operation and acquaintanceship with each other's aspirations, needs, worth. Interracial committees should exist wherever there is an appreciable number of colored people, to promote interracial amity. And an organized effort to affect the race problem in any particular, must be along the lines of the National Association for the Advancement of Colored People, — that is it must consist of both white and colored men, deliberately pursuing this solution. Neither race can settle the matter alone. The white man has already failed in that method; the Negro need not try it.

FATALLY STABBED IN ROW OVER TWO CENTS

Chattanooga, Tenn., Feb. 15.—Believed to be fatally stabbed in the abdomen, with other slashes across the arms, Will Myrick, negro railroad section laborer, is now in the hospital as the result of a fight with John Roberts, member of the same gang, over two cents last night in a crap game Roberts is being sought by the officers.

This incident is one of many of like deplorable cases that must be contended with. It is regrettable that the incident occurred and we print it only as an object lesson. It represents all that is evil and all that must surely be eradicated.

THREE DEPUTIES GO TO OHIO AFTER COLORED MAN

Threats of Lynching heard.

Flemingsburg, Ky., Feb. 14.—The blood of the Southerners has been aroused again, this thin charge that shirks the light or reason. This community is up in arms and is demanding the life of Grant Smith, charged with attacking Ruby Anderson, daughter of Leonard Anderson, prominent farmer of Johnson Junction.

Smith who has been in the employ of Anderson for some time is now in Ohio. The attack alleged to have occurred on February 10. Relatives of Smith received a letter from him postmarked Ohio on Feb. 3rd. How these two facts are to be reconciled is a delicate question, but one which is not worrying the Southerners.

Two sheriffs left for Columbus, Ohio and other for Cincinnati yesterday with the avowed intention of bringing him back to appease the wrath of the whites.

Interest is centered now on the Ohio's granting extradition papers. On the face of the evidence, colored citizens say it is highly unlikely that extradition will be granted. That the sheriff will invent some tale is highly probable but whether Ohio will be deceived is the question.

The whites are bent on wrecking [illegible] men from Lexington and secondly the activities of a certain lawyer of that city, who in good old fashioned style addressed the Whites on street corners inflaming them against the Negroes.

The city, indeed the whole country has been ominously sullen over the astonishing events that have occurred in Lexington. Threats of violence have been uttered against the colored population, have been uttered repeatedly, and it is believed that the linking of Smith with the attack on the white girl is merely a pretext for the outbreak of the Mob Spirit.

SHOT IN QUARREL OVER SWEETHEART

Negro Shot in Quarrel Over Sweetheart.

Memphis, Tenn.—As the result of the rivalry between "Slim" Jackson and Frank Adams for the hand of Miss Elsie Newman. The later is in the hospital with a bullet lodged in his chest, while Slim is a fugitive.

The rivalry has been between the two men for some time, but until Miss Newman began acting in favor of Adams, the relations of the two men had been amicable enough.

"Slim's" night was Tuesday, Adam's was Thursday. Last Tuesday night Adams was seated in the parlor when "Slim" came, and what is worse sat tight. Slim expressed a desire to take the young lady to a show, but she expressed a desire to remain at home. Slim took exception to this and left in a huff.

On Tuesday the two met in a restaurant at Georgia & Wellington Sts. Words developed into blows and into gun play. It seems that it was all off for Slim, for Miss Newman visited Adams in the hospital yesterday and treated him most tenderly. Slim not only faces jail, but defeated in love. Poor Slim. He'll say it's a cruel world.

GERMAN PROFESSOR GIVES BACK HONORS.

Meyer Says U. S. Rewards Are Detestable.

By Wm. C. Dreher.

Berlin, Feb. 12. — Prof. Edward Meyer, rector of Berlin University, who, on the day the list of Germans demanded for trial by the allies was published, issued a statement saying he had sent back to Harbard and English universities diplomas conferring on him the degree of doctor of divinity, after having torn them up, indicated in a card printed today that he intends to snub all Americans, English and French. The card addressed strongly to the pro-German Edward Emerson, who claims the title of colonel. Col. Emerson has printed a card remonstrating with Professor Meyer on behalf of Harvard, because, he pointed out, the United States did not join in the demand for the surrender of the Germans, and ever in previous wars treated its vanquished foes magnaminously.

"IRISH ROSE" TO RECEIVE $10,000 HEART BALM.

Indianapolis, Ind., Feb. 12.—Amy O'Connor, the "Irish Rose", will receive $10,000 heart balm from her aged suitor, Allen Gray, the Evansville multimillionaire, whom she sued for $500,000, alleging that he had "stolen her soul." The jury's sealed verdict, opened in court today, assessed her damages at $10,000.

The plaintiff's attorney declared the verdict paves way for a $100,000 suit against Gray's brother for alleged alienation of affection.

AMERICAN WOULD CONTROL FRENCH TOBACCO MONOPOLY.

Paris, Feb. 19. — America has sounded France on the subject of the tobacco monopoly for this country being farmed out to the United States for 25 years, according to a report current on the bourse Monday, says the Journal.

In exchange, the United States would guarantee, in one way or another, a sum totaling about 60,000,000,000 francs, says the newspaper, which prints the news with reserve.

MURDER CONVICT PARDONED.

Little Rock, Ark., Feb. 19.—Gov. Brough today pardoned Oliver Rider, convicted of murder at Batesville recently. The petition filed with the governor stated that Rider was convicted on the testimony of an ex-convict, who is now serving a term in the Kansas penitentiary.

DAVE PEYTON'S GREAT STAGE REVIEW

Theatrical and Movie News.

THE GRAND

Frank Montgomery and his "Hello 1919" Company are still holding the Board at the popular playhouse. Their engagement has been extended two weeks more, in order that all may get a chance to see this great Negro Production.

A new addition was made by Mr. Montgomery in securing the services of Madam Margaret Scott, a prima Donna of rare ability.

THE AVENUE

"After Office Hours", a three act drama by Ray Foster was presented here on Monday night. The piece is most daring and sensational in character. Clarence E. Muse as a modern business man was perfection as was Evelyn Ellis the stenographer. In fact the entire cast performed in a capable manner.

THE MONOGRAM

This week's bill included Dick and Dicks, Chas. Anderson, Davis and Davis, Tim Ousley and Jackson, the latter one of the funniest teams in Vodeville.

A fine post card arrived at the WHIP dramatic Office from Leon Diggo who is with the Miller-Lyle Company in Cincinnati, Ohio.

Louie Taylor is in town taking a few weeks rest. Mr. Taylor was the straight man in the famous "Kid Thomas Review".

Rucker and Winfred are going great guns in the east, a riot on all bills and are at a premium in the booking offices.

Miss Evon Robinson, the famous Commedian and wife of the late J. Lubin Hill has severed connection with the "Hello 1919 Company" and will leave Thursday for New York.

Martin Kline is doing a fine business act at the Earl Theater. His policy is five acts of vaudeville and select pictures.

The Harvey DeVora Trio, closed a weeks engagement at the Rialto Theater on last Sunday night.

Bojangles, is still the undisputed champion of hoofers, and will hold that title for some time as Bo is in a class by himself.

Lizzie Wallace is producing a new act now in rehearsal and will soon be seen on the Stroll.

Dink Stewart, the commedian is still with the quality Amusement Co. Mr. Stewart was recently seen at the Avenue Theater in "Baby Blues" made an impression that will always be remembered.

The Billey King Company arrived in the city Sunday morning, all looking well and prosperous. They will start rehearsal next week.

MUSICAL NOTES

Elgar and his Creole Players are still at Harmon and Coopers west side Dreamland. Elgar will have the Municipal Pier again this summer.

Henderson Smith, the master comedist is leading of the Atlas Theater Orchestra. Mr. Smith is one of our best musicians and a pioneer at the game.

Erskine Tate, leader of the Vendome Orchestra, is a capable musician and very thrifty aside from the orchestrial work, he is running a music school and store at 3204 State St.

Mr. Wm. Berry has charge of the 8th regiment Band and under his supervision it should be one of the best bands in the country.

Geo. Smith, Drummer of the Avenue Theater has built up a substantial business on East 39th Street.

James Bell, violinist, Raymond Woodset, Cornetist, Edward Adkins, Trombonist and Danney Parker are the competent members of the Dave Peyton's Famous Grand Theater Orchestra. Their concerts every evening from 8 to 8.15 are a wonderful feature to the house.

Will Marion Cook the famous composer and orchestral director has returned to Europe to take charge of his famous organization.

Mr. Will Vodey, the arranger will leave shortly for Paris, France, to take the scholarship he won while with the Army.

Joe Jordan's new song "Great Big Baby Boy" is a feature in "Hello 1919". It is sung by Miss Alice Ramsey.

"Dreamland Blues", by Dave Payton and Spencer Williams will soon be off the press. Many prominent actors are rehearsing the song.

Pace and Handy, the music publishers are further to the *front*. They [illegible] among the leading publishers in the country. Their organisation is perfect and they open a channel for the publications of the colored composer's material.

N. A. A. C. P. TO HOLD MONSTER MEETING

The people of Chicago will have an opportunity of hearing on February 23rd at Wendell Phillips High School, Rev. John Haynes Holmes of New York City, whose eloquence has given him a place among America's foremost pulpit orators.

Rev. Holmes will speak under the auspices of the Chicago Branch of the National Association for the Advancement of Colored People at the Annual meeting of the branch. As pastor of the Community Church, New York City, a church which occupies much the same as Plymouth Church under Henry Ward Beecher, Rev. Holmes has shown what liberal opinion and constructive endeavor among the clergy can do for a humanity and human ills. As associate editor of the Unity and as contributor to the Survey, he has shown his comprehensive grasp of the race problem in America. Chicago people remember that he was called to the pastorage of All Souls Church after the death of Dr. Jenkins Lloyd Jones and know of his splendid and consistent work as a member of the Board of Directors of the National Association for the Advancement of Colored People.

The subject of his address will be "The Race Problem in America." The meeting is to begin at eight o'clock sharp, and the public has been invited to attend without any admission charges.

The musical program of the evening has been arranged by Mrs. Antoinette Carnes, the noted prima donna, who will also sing.

Election of officers of the branch for the year and the annual report for the year will be made [illegible] of this monster mass meeting. The program for the year's work will be outlined and prominent local speakers will present matters that are of interest to all of the ciy of Chicago.

The Branch is to be congratulated in giving the south side an opportunity to hear this brilliant orator. Rev. Holmes is to speak at Abraham Lincoln Center while here in the city.

TO REVIEW COLORED BRANCH OF CHARITIES.

Atlanta, Ga., February 4, 1920—A mass meeting of the colored men and women of Atlanta is to be held at the Big Bethel Methodist church Sunday, February 15, at 3:00 P. M. Orchestra music and other entertainment will be provided and there will be speeches by prominent Atlanta men, Robert C. Dexter, general secretary of the Associated Charities, and Dr. David Marx are among those who will talk.

Review of the work among colored people the past year will be given and plans for the coming year made. Reports from the colored workers of the Associated Charities will be made.

As part of the preliminary plans for the mass meeting, Miss Louise Ware financial secretary of the Associated Charities and other workers have been interesting colored churches in the work. Sunday afternoon they talked at the Mount Olive Baptist church and Sunday morning at the Friendship Baptist and the Central Methodist churches.

So interested have the colored people of Atlanta been in the work of the Associated Charities that they have formed an auxiliary to the charities. The Rev. P. J. Brown is the chairman of the auxiliary and there is a finance committee, of which Dr. Thomas J. Ballou is chairman. Last year the auxiliary raised $1,200 among the Negroes of the city, which paid the salaries of two of the four colored workers of the Associated Charities. They want to raise sufficient money to pay for all of the colored workers the coming year, which will amount to $3,000.

U. S. A. Has "Ground Hog Cabinet", Says Senator.

Washington, D. C., Feb. 17.—"What is left of the mutilated remains of President Wilson's cabinet," Senator Poindexter, Washington, told the National Press Club tonight, "ought to be called the groundhog cabinet.

"This cabinet undoubtedly will be afraid of its shadow and stay close in its hole for more than six weeks. One safe bet is, that, the minds of its members will 'go along with his' hereafter; that is, whatever independence of mind they may ever have had. It is true, that they have been quite good in that respect, heretofore.

"Secretary Lancing himself was also the victim of unfortunate circumstances. It may be true, as charged by the president, that Secretary Lansing's mind did not 'go along with his.'

"Nevertheless, Secretary Lansing went along with him."

Colored Medicos Learn About Tuberculosis.

Richmond, Va., Feb. 6, 1920—A unique post-graduate course in the early diagnosis of pulmonary tuberculosis has just been concluded at the Piedmont Sanatorium, Burkeville, Va. This course was offered to the colored doctors of the State and was made possible thru funds secured by the Virginia Tuberculosis Association from the Missionary Fund of the National Association. It was the first attempt to give such training in Virginia, and, so far as is known, the first in the South.

The heads of the Virginia sanatoria, Dr. B. L. Taliaferro, of Catawba, Dr. W. C. Klotz, of Blue Ridge; Dr. H. G. Carter, of Piedmont, and Dr. D. B. Cole, State Tuberculosis Director, delivered the lectures which were heard by the following colored doctors: Dr. R. A. Deane, Lawrenceville; Dr. J. W. Pierce, Dendron; Dr. J. J. France, Portsmouth; Dr. D. W. Byrd, Norfolk; Dr. E. B. Harris, Crewe; Dr. Taylor, Burkeville; Dr. J. J. Jones, Hampton, Dr. A. C. Johnson, Portsmouth; Dr. G. W. Lacey, Waverly; Dr. G. W. White, Richmond.

Evidencing the great interest taken the Negro Organization Society of by the leading Negroes of the State, Virginia was represented by its president, Major Allen Washington, Secretary T. C. Erwin and two members of its board of directors, T. C. Walker and Rev. F. E. Davis.

A Model Negro Town.

Near Portsmouth, Virginia, is a community of over two hundred colored families, forming a town called Truxton. This town was constructed by the United States Housing Corporation of the Department of Labor for Negro war workers employed at the Hampton Roads Naval Base. Its Town Council of 9 members is truly democratic. The meetings are open to all the residents of Truxton, and a majority of the male members invariably attend its meetings which are held each Friday. The discussions of the Council are open as well as the vote. It has never held a meeting secretly or behind doors closed against the public. The United States Housing Corporation appointed as town manager Mr. Fred D. McCracken, who has had considerable experience in housing problems and who is deeply interested in the industrial advancement of the members of his race. The administration, aside from that portion vested in the town manager, is carried out in detail by four committees of the Council. One has under its supervision health and sanitation; another, law enforcement; one, social betterment and community welfare; and another, fire protection. These committees make written reports from their departments to the Council at each meeting. It has no written laws, but every question is discussed from the point of view as to whether or not a certain recommendation, act, or social habit is in harmony with, or opposed to, the spirit of Truxton. Expulsions from the community have been made for abuse of property, for misuse of the heme, and for dishonesty.

DOG SETTLES DISPUTE BY PERFORMING FOR JURORS.

Greencastle, Ind., Feb. 19. — "Shep," a big, well trained shepherd dog, appeared as a witness today in a suit brought by D. E. Bush of Cloverdale against Joseph Disney of the same place, to decide the question of the dog's ownership. The jury, being in doubt after hearing the testimony, asked to see the animal, and "Shep" was put through his tricks by Disney's small son. It took the jurors only a few minutes to decide in favor of Disney and "Shep" left court with him, frolicking and wagging his tail as if pleased with the verdict.

LINCOLN LEAGUE CONVENTION

Thirtyone states were represented in the Lincoln League convention, which convened at South Park Church Wednesday and Thursday of this week.

Governor Lowden and Mayor Thompson were among the principal speakers. Each session was crowded with things of great importance and the whole was a historic event, the church was crowded at all times and much inspiration and many new ideas were advanced as well as plans for bigger and greater things to be accomplished by the race in the future.

The league bore out in all its doings that the solution of the problems that confront the race cannot be solved by the propaganda of race hatred.

The enthusiasm and interest taken by the gathering of notables at this convention was highly commendable and bore much weight with the people of both races.

WHY COLORED DON'T ORGANIZE

Continued from page 1.

Now, that we have admitted that the Stockyards Labor Council engineered the affairs during the race riot, we must satisfy the curiosity of these persons who wish an explanation of the "walk-out" that occurred in the yards when the colored workers returned to work after the riot.

The Stockyards Labor Council, in conjunction with the active colored membership, was exerting every effort to occasion the return of the colored union members to their places of employment, before a general call was issued from the packers for the return of all the colored workers. The moral effect of such a measure would have been far reaching in the waging of future organization campaigns. This was known not only by the Stockyards Labor Council and the colored union members on this side, but by the Packers themselves as well as our International office, but as we have noted the International office evaded the issue and all others by getting out of reach. The packers, however, got busy to hasten the return of all the colored members while the newspaper announcements, that the union was opposing its colored members, were fresh on the minds of the public.

When the next conference was held by the Stockyards Labor Council and the colored union officials who lived on this side it was mutually agreed that the colored union members be instructed not to return on the first day that colored workers returned. It was further agreed that when the colored workers did return (non-union and those union members who had failed to follow instructions) the stockyards Labor Council should pull out its membership, and endeavor in that way to suspend operations until some agreement could be formulated on trade union lines. All the instructions were [illegible] non-union white [illegible] in the walk-out thinking it to be a race issue. The writer can, however, [illegible] abundant proof that the colored union men sanctioned and heartily approved the walk-out ordered by the [illegible]ards Labor Council and the colored [illegible] way, parties to it. It, [illegible] entirely a trade union [illegible]

LINCOLN MEMORIAL CONGREGATIONAL CHURCH.

Rhodes Avenue at 64th St.
Rev. Chas. Wesley Burton, M. A., Minister.

Chicago, Illinois, Feb. 10, 1920.

Dear Friend:

The burning of our church on January 28th brought common sorrow and grief to us all, and not all of us have yet recovered from the painful shock. But it is fine to see how quickly our people readjust themselves to a new situation even in the midst of a crisis.

A new day has dawned upon us and a most glorious opportunity is now at hand. Next Sunday, February 15, the future and fate of our church will be decided. Hence, the pastor and officers are calling the entire membership together in extra ordinary business session at 11 o'clock next Sunday morning at 6359 Rhodes avenue to consider a proposition of very vital importance and to decide upon the destiny of our church. Every member and friend of the church is wanted at this special meeting and YOUR presence is urgently requested.

This is a time of crisis in the life of our church and all loyal members and friends of Lincoln will come to her rescue in this crucial hour. A brief service will be held from 11 to 12 o'clock and the special business session will follow. We refuse to believe there are any "slackers" in our church, but if there be any—they will stay away from this meeting Sunday. This is the time to "throw" [illegible] horn". Let's all do it together! We are depending upon YOU and we know YOU WILL NOT FAIL us!

With cordial greetings, we remain
Faithfully yours,
CHARLES WESLEY BURTON,
Minister,
W. H. JACKSON, Clerk.

Mr. [illegible] has been visiting his sister, Miss Rhoygnette Webb, who has been ill of the "flu".

Miss Flossie Jackson a very popular druggist of Memphis, Tenn., has been in Chicago visiting Mrs. Jno R. Lynch and Miss Rhoygnette Webb.

Mrs. I. R. Crane of 3736 Grand Blvd., has returned home after an extended visit to Butte, Mont., and other points west.

Clarence Cameron White.

Clarence Cameron White, celebrated race violinist appeared at Abraham Lincoln Center, Thursday evening Feb. 12th under the management of Julius Avendorph. Despite the many social functions of the evening he was greeted by a large and enthusiastic music-loving audience.

The Negro songs of Mr. White's own composition were well rendered and highly appreciated.

His Rendition of Sonate (G Minor) by Tartini; Romance, Pizzicatto and Polonaise gave evidence of the rare technic and exceptional interpretation, which have placed him in a class to himself among the foremost violinists of the world.

CINCINNATI NOTES.

Prof. Judd, School of Education, Chicago University, will address the teachers at 3:30 P. M. on Friday, February 20th, Hughes High School, subject: "What Makes American Schools Democratic."

Monday, February 23rd, Washington's birthday, is a legal holiday and the schools will be closed.

Mr. Wm. H. Porter, father of Miss Jennie Porter, was buried Monday, Feb. 16th from the Mound Street Church. All the many friends extend their deepest sympathy to Miss Porter and family.

Mr. Jno. Bowen is in the city to meet with a special board of The Freedman's Aid Society.

Mr. Leon Diggs, Chicago, is playing quite an important part with Miller R. Lyles Co.—Lyceum Theatre

Mr. Wm. D. Sulzer, dramatic baritone, Chicago, rendered several beautiful selections at Park Street M. E. Mound St., and at the Forum.

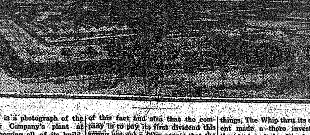
ENLARGEMENTS FOR ELGIN MOTOR PLANT



The above is a photograph of the Elgin Motor Company's plant at Argo, Ill., showing all of its buildings. This photograph was taken by a Whip correspondent.

Stock good investment.

Several colored people are stock holders in this company. A few get rich quick. Brokers became aware of this fact and also that the company is to pay its first dividend this spring put out a false report that the stock was worthless, so they could scare the colored into selling their stock at a low price thereby enriching themselves. The Whip investigates.

In keeping with its well defined policy of getting at the root of things, The Whip thru its correspondent made a thoro investigation of the plant and also found out the rating of the company from reliable loop bankers who assure us that the Elgin stock is a good investment.

The officers of the company are men of financial experience and stability.

Eighth Regiment Ball Galaxy Affair.

The Eight Regiment held its 17th Annual Ball at the Armory on Forest Ave. Thursday evening Feb. 12th. The affair was one of the finest the regiment has ever known, and too much credit can not be given Col. J. H. Patton for working it up. The Hall was beautifully decorated with red white and blue ribbons, and one was much impressed as you entered the hall at the magnificance and the people therein.

To get a large crowd of people together and have them as orderly as they were on that occasion is worthy of comment. Everything went nicely and beautifully. All of the soldiers of the old school were out in their full dress and seemed to be fully enjoying the occasion.

All eyes were on Col. James H. Johnson and Capt. W. T. Jefferson in their full dress and gay spirits. The Grand March was especially beautiful. Capt. Robert L. Chavis was in charge and much credit is due him. The March was lead by Col. Ottis B. Duncan and Miss Estella Arnold, followed by the rest of the regimental staff. The Red Cross Sanitary Drill Unit and Red Cross Canteen Unit were also in uniform.

8th REGIMENT NOTES.

The 17th Annual Military Ball of the 8th Regiment was given at the Armory on February 12th. These Annual Balls were discontinued during the war, this being the first one since January, 1917. The Armory was prettily decorated and the booths of the Regimental Units, the Red Cross and the Lincoln League, in which little receptions were being continuously held during the evening, were profusely decorated with the National Colors. The Headquarter's Booth contained the Historic Battle Flags of the Regiment as well as the pictures of Governor Frank O. Lowden, our Commander-in-Chief, Colonels Marshall, Denison, Johnson and others. The Recruiting Booth, in charge of Lieutenant Norvell, operated during the evening and 26

WHAT A WHITE EDITOR THINKS.

Encouragement of the Negro.

It would be idle to deny that the American negro has serious grievances and special problems that challenge the attention of friends of justice and believers in the principle of equal opportunity. The solution of these problems will not be facilitated, of course, by the propaganda of race hatred. For that reason it is impossible to commend too highly the spirit of the convention of the Lincoln League of America, which has been in session in this city. Education and patience, rather than recrimination and denunciation, were the remedies earnestly favored by the speakers at this notable assembly of representatives of the negro race in [illegible] lation of law and vari[illegible] crimination were [illegible] discussed, but [illegible] one of fair[illegible] and

LIBERTY LIFE INSURANCE CO. OF CHICAGO

The Liberty Life Insurance Company of Chicago, Ill., with home office at 3615 Indiana avenue, deserves more than passing notice from every intelligent colored man and woman. It stands out as the beginning of the true spirit that should characterize all colored enterprises, and that is, straightforwardness.

It is an investment that should appeal to the most conservative people of our race, as the following brief analysis will show:

In the last few years our leading banking houses, banks and other financial institutions have dominated and stabilized the insurance business, for the reason that it is regarded by them as the safest and most conservative of all investments. In no other line of business not excepting banking, do we find the laws governing their supervision, operation and control more rigid; in other words, provided the officers of the company are men who are capable and efficient, there reasonably seems but little chance of anything going wrong, and a knowledge of the personnel of the Liberty Life Insurance Company, beyond all reasonable doubt, leaves the impression that the company has nothing to fear, save unbounded success.

Capital Stock.

The company is capitalized for $100,000, divided into 10,000 shares of a par value of $10 each. The shares are, however, being offered at $80 each. The high premium at which the shares are being sold may seem strange to the average investor, but a close review of the reason will undoubtedly lend more confidence to [illegible]

THE SOUTH AND THE NEGRO.

Any race, incorporated but taking no responsible part in citizenship, is a dangerous element. Any people from whom rights are withheld or on whom inabilities are imposed are likely to give trouble in proportion as they approach the ideals and the intelligence of the ruling class. That there should be any ruling or dependent class is incompatible with democracy. For anything that breaks the solidarity of community life, or weakens in any degree its program of good will to all of its citizens, imperils the hope of democratic ideals. The South, therefore, faces a grave situation—a situation in which there is no hope of adjustment except on grounds that are fair and just and generous and in which all take part. No partisan bitterness, no sectional bias, no racial prejudice, no selfish insolence may enter into this larger hope. A general friendliness must take the place of racial and industrial antipathies. All citizens must be given the privilege of rising to their full height as human beings. Intelligence must dominate public sentiment and a kindlier religion rule in the minds of men.

There is no hope for the South if the Negro, one third of the population, is to remain undeveloped and inefficient.

Every injustice to the Negro is an injury to the white man and imperils the best interests of the National life. If the Negro is to live among us, then we must give him a chance and an equal chance with all others, not by handing things down to him but by helping him to get up; not by working for him but with him, not by tips and charity but by a fair wage, just treatment, and proper recognition of his worth.

KENTUCKY VINDICATES THE LAW.

It is not likely another mob will feat the nerve and resolution of the present governor of Kentucky.

Twice Edwin P. Morrow has whipped the enemies of law and order in the last week; twice he has demonstrated that even a confessed negro murderer, guilty of the most abominable crime, has the right to be dealt with by that "due process" for which the constitutions of state and nation provide.

The second demonstration was at the price of blood, but it was worth the price.

We credit the vindication of law in Kentucky to Gov. Morrow because it was his personal insistence upon meeting the mob at every point of danger with effective force which defeated the determined effort of the lynchers.

The state which is fortunate enough to have a governor with courage and sense of responsibility will find his spirit moving in his subordinates. It will quicken all the officers of the law. The state where mob rule is a frequent phase of life, where the storming of jails and lynching of prisoners are common occurrences, is a state with a weak chief executive. From his weakness those in lesser office take their cue, and from his weakness the mob derives its encouragement.

Gov. Morrow has done a service to the nation as well as to the state. We need such proof as he has given that the most despicable criminal is entitled to and will obtain justice under the law; and that no group of citizens, however respectable or whatever their provocation, may take the law into their own hands so long as it is being executed faithfully by the constituted authorities.

Ex-President of Alpha Phi Alpha Dead.

DANIEL D. FOWLER HAS "PASSED OVER"

From The Cleveland Advocate.

Daniel D. Fowler, aged 27, president of The Dixilene Co. and ex-national president of the Alpha Phi Alpha Fraternity, passed away at his residence, 2233 E. 90th street, after nine days' illness of pneumonia.

Deceased is a son of Mrs. Capitola Fowler, and brother of Dennis H. Fowler.

He was a young man of scholarly attainments, having graduated from Case School of Applied Science with the degree of B. Sc. (summa cum laude) in metallurgy, and was until his death employed as metallurgist at the Standard Car Wheel Co.

His life was so crowded with activities that it is impossible in this brief notice to enumerate them, but he lived his life to the fullest, doing the best as he saw it.

Early in the life of THE ADVOCATE he was a member of the staff and won for himself esteem and appreciation from its management.

He was an ardent worker in St. John's A. M. E. church, having taught a class in the Sunday school for a number of years. A great deal of his time recently had been devoted to the upbuilding of the Dixilene Co., which he formed some time ago, and to the Alpha Phi Alpha Fraternity, to which he gave immeasurable service as national president in 1919.

A few months ago he suffered a nervous breakdown, from which he never completely recovered; added to this the grief at the death of his sister only a few days ago, and the effects of dreaded pneumonia, he could not withstand the strain. 'Dan', as the writer familiarly called him, was a "prince" among fellows—if this colloquial expression may be used.

All the medical skill under the direction of Dr. O. A. Taylor, could do did not save the young jewel of a man. His time had come.

Funeral services were to be held at his late residence Friday at 2 p. m. Members of the Alpha Phi local chapter were to be pallbearers.

THE NEGRO AND CHICAGO, PAST AND PRESENT

By Lieut. J. E. Hawkins

ARTICLE VI.

[illegible] in 1838, his parents Benjamin and Martha Hawley, both natives of North Carolina. Shortly after the birth of Allen Hawley, the father moved the family to Cass County, Michigan, and located on a farm that he har purchased near Calvin. Mr. Allen Hawley, remained with his parents until 1857 when he came to Chicago and obtained a position as bell boy at the Old Richmond House; while employed in the capacity of bell boy Mr. Hawley oftimes came in contact with the martyred President Abraham Lincoln. At that time Mr. Lincoln was a close friend of Judge Baker, and together they would hold conference at the hotel and during these occassions. Mr. Hawley, was called upon to give them personal attention. Mr. Hawley, says that period Mr. Lincoln, started his campaign at the "Wigwam" which was a large building on Randolph Street, between Market and Franklin Streets, and built expreslly for holding large conventions of that date.

"After leaving the old Richmond House I went to rail-roading and was one of the three or four men in the employe of what is now known as the Pullman Company; at that time the concern was known as Feild and Pullman, and the first car operated by them was built in the Bloomington shops of the Chicago and Alton railway, this car was known as car "A" and was operated by George Laury, a colored man native of Elmira, New York. Mr. Field, was in no way related to the late Marshall Field. The car operated by me was not one of the palace cars but as a rebuilt coach know as car number thirty; I operated this car between Chicago and St. Louis, and oftimes had Mr. Lincoln, for a passenger.

About 1859, I decided to try business for myself and opened a grocery store at 137 3rd Avenue; in this venture I was not successful and decided to return to rail-roading. I was not the first colored man to operate a grocery in Chicago as Rev. Richard De Baptist, antidated me by about two years. De Baptist's store was located on 4th Avenue (Federal Str.), he was the pastor of Olivet Baptist Church which was located on the site now occuppied by Dearborn Station. Mr. De Baptist, was succesfull in the grocery business and continued for a great many years. John Jones, the tailor was then located in the old Garret Block, on Randolph Street, and part of the present site of Marshall Field & Co. Where the Palmer House now stands was a blacksmith shop which was owned by a colored man.

The first colored boarding house was located on Clark Street, and what is now known as Jackson Blvd., or the present site of the Grand Pacific Hotel, this place was first operated by a man named Dorsey, then it was taken over by Willis Black, and later during the Civil War was operated by Andrew Scott. Mr. Scott, did a very thriving business and catered [illegible] commenced to make this town their headquarters. The place became famous and was known from end to end of the country — Sunday dinner at Scott's was always looked forward to by the local residents.

About 1859 Mr. Geo. M. Pullman, went West to Pikes Peak, Colorado, where he had purchased mining interests; he turned his Palace car management over to his brother Alb. Pullman. Mr. Albert Pullman, was senior member of the firm of Pullman & Moore, House Movers. This firm performed what was considered to be a wonderful engineering feat for that day, that was — raising the old Treatmont House and building one half a story underneath the part raised.

Mr. George M. Pullman, made a large fortune in his mining venture and returned to Chicago and resumed his management of the palace car company, he also bought out the interest of his partner Mr. Fields, and commenced to develope on a large scale, and ultimately he acquired the monopoly of the business.

In those days the porter ran in charge of his car and conductors were unknown. The Chicago and Alton, and two branches of the Northwestern Railway, were the only lines that was handled by the Pulman Palace Car company, and the first sleepers and dinning cars were operated on the Chicago and Alton railway.

Mr. Allen Hawley, is succeeded by two sons George and David. George is manager for Morris & Company, caterers, and David is in the U. S. Postal Service, registery division where he has been employed thirty years, both George and David are among the most popular colored men on this section of the country and are known from coast to coast.

Mr. Hawley senior is still active and says that his receipe for good health has been that of hard work, or in his language — "hard work has never killed anyone but bad whiskey fills grave yards as fast as you can build them."

Mr. Hawley, and his sons George and David, have always been active in many clubs and lodges — as well as all associations that operated for the uplift of the race, and like all pioneer colored man, they have done only those things that would reflect the greatest credit to the community as well as the group with which they were identified.

Hampton Defeats Lincoln.

By Chas. H. Williams

Hampton, Va., Feb. 19. — The Hampton Institute basketball quintet defeated Lincoln University at Hampon, on Saurday, February 14, by a score of 28 to 15 in the first of their annual games. This victory was "sweet revenge" to the student body, as Lincoln won last year. The game was hard fought from beginning to nd. Hampton scored first and kept the lead throughout. Clean playing and good sportsmanship characterized the contest. The playing of Wheatland for Lincoln, and McLaren, Jater, and Jones for Hampton were the features of the game.

Line-up:

Hampton—McLaren and Freeman, forwards; Bradby, center; Jones and Jeter, guards; substitutions, Wright Owl and Paxton.

Lincoln—Goldwise and Amos, forwards; Wheatland, center; Boozer and Haskell, guards.

Referee—H. B. Skinner.

Scorers—E. P. Lovett and N. J. Hill.

Time of halves—20 minutes.

Score—Hampton, 28; Lincoln, 15.

THE CHURCH POWERFUL

The most potent factor in the development of the American Colored man has been and still remains to be the Church. The Church Triumphant, the Church Conservative, the Church Militant. The work of the Church, its wonderful influence, its far reaching power has ingrained itself into the political, economical and social strata of the race. It operates as the great dynamo and generator of all race activities, whether we be radical or conservative. Intellectual honesty forces us to recognize that the church will be the leverage by which the race will be lifted out of the present maelstrom.

The cynics, stoics and iconoclasts may discredit the church, may ridicule the philosophy of religion and may even scorn the ministers and villify their personal and private lives. Yet over and above all latent and potent defects stand in transcendant glory and splendor the "undisputable verities," the transcendant monuments, the magnificent edifices that speak in still and [illegible] [illegible] race fe[illegible] when education and liberty were unspeakable, [illegible] religion could be heard even though the mes-[illegible]

FINANCIAL UNREST AMONG COLORED PEOPLE

This paper has stated consistently that there was social, political and financial unrest among the colored people. The proximate cause is the revolutionary change in Negro psychology that comes in due season and in chronological order to all progressive people.

Chicago is the throbbing heart of all race activities, it is the centrifugal force of race opinion. Chicago Colored People have been in a state of business coma and economic lethargy and the silent period reigned supremely until recent date. The eyes of the race have opened and the colored people have launched out in business, even in competition. The life of industry has been stiffened, unheard of obstacles have arisen, reverses have been prevalent, deceptions have been common and disillusions have made up the order of the day. The people of the colored race are full of ambition to co-operate and go forward but they are sceptical, dissatisfied and doubtful.

Two race banks have failed within the last two months, a great race riot has brought prejudice into bloodshed, a strong anti-Negro propaganda circulated by white property owner's association has also brought ill feelings, distrust and attendant evils.

Colored People with their meager earnings and slim resources are striving for a place in the Sun. They are willing to be guided by men of integrity and sincerity. Those men are either in absentia or not in being. The masses of the people are distrustful of "gift bearers" remembering the story of the Trojan horse. It is now the time for friends of the race whether they are from within or without to prove their sincerity and dispositon by giving real service to the striving struggling people.

Hysteria is common in financial circles. Imagination and nervousness overcomes better and sound judgment. Dame Rumor has played havoc within the masses and scandal has destroyed the essence and quality of confidence. Panic fear must be stricken off our Calendar and calm sober reasoning must preserve our business relationships.

We are glad to notice unrest and desire to go forward. It is a mile post in progress. We now await real leaders in the financial world to restore our confidence and to promote our interests until these leaders appear upon the scene. We must support such institutions that are best willing and in position to serve us. Spite action and snap judgment such as the unwarranted run upon the Lincoln Bank will destroy inter-racial business relation and militate against the future financial status of the race.

WHY THERE IS DISCONTENT AMONG THE COLORED PEOPLE

Editor WHIP:

Allow me space in your valuable paper to answer the many animadver- [illegible] and magazines since the war. Anything that disturbes the placidity of the surface, always strike alarm to the undeveloped mind, and partic-[illegible]

that is the kind of respect that accrues from wealth, small wonder that the colored man [illegible] not inclined to be [illegible]

Humanity has always paid dearly for its blindness, and if the signposts of history are not more carefully read, we may find ourselves pre-[illegible]

only effects, rather than the causes, thus the lens of prejudiced eyes. "Colorphobia", has long caused them to have "perspective illusions" and "jim-crow astigmatism"; not realizing that all personal contact should come from choice and people should be allowed to choose their friends for what they find in common. Enforced and restricted conditions, only tend to penalize those that are the weaker and give advantage to those that make the handicap. When such conditions are racial, it subjugates those possessing genius and rare intelligence, to the most unscrupulous and ignorant. Yet, paradoxically, the self-styled leader will consciously sanction it for what he considers a "big job" and incidentally to be a "big man.". He fails to realize that he is fast forging the chains of slavery around his own children, and will lead to the very conditions which we are trying so very hard and persistantly to overcome.

"The New Negro" realizes that there must come a change. He is in need of a more exalted ideal; an ideal in which equality is more evenly represented; the more intelligent and better informed, must give themselves conscientiously up to the task of the reconstruction work, and with fortitude and manly courage bear all inconvenience incurred thereby. The lack of temperamental quality under duress, which has erroniously been attributed to Negroes, is a libel upon the sterling qualities of the black man, that has no dearth of red blood, and it is a direct reflection upon his manhood. The type that has always been picked for comparison, are the spiritless, spineless, and unfortunate individual that was the victim of economic urge. That has not been misunderstood, but deliberately and maliciously distorted into a supposed state of absolute submission; because of his urbanity under prevailing conditions.

I know much more in the depths of my soul, than I can express or put into words; but, just beyond the veil of time which separates us from invisible opportunities [illegible] your rights and resent every insult. No respectable person will insult you; permit no one else to do so. If your personal rights are disregarded, to the extent of being wantonly insulted; rest assured that the one giving the insult will not have a less high regard for you for having resented it.

"As self preservation is the first law of nature", preserve your manhood and womanhood. Men protect your women; stand up for every right that the constitution guarantees you. Be men and women! Not CATTLE AND CATTLE!

NEGRO GOVERNMENT IN THE U. S. A.

The Negro controls the south. The south controls the Democratic party. The Democratic party still controls the nation. The nation is conducted with regard to the limitations of the Negro in the south.

Prohibition was adopted by the southern states because it is dangerous for the Negro to drink. If he drinks he becomes savage or may become savage. The south defended itself against the liquor traffic not because the southern adult did not want to drink but because he could not allow the Negroes to drink.

Woman suffrage probably will be adopted, but it had to win against the south. The south is opposed to extension of suffrage because that involves the Negro vote which is not cast but which must always be suppressed. Extensions of suffrage are inimical to sections which must maintain restrictions of suffrage.

We probably will not get universal military training because the south is afraid to train and arm Negroes. Congressmen from the south say they will not put arms in the hands of blacks. If that is their reason for opposing universal training we have a whole system of national defense [illegible] citizenship line.

We are not blaming the south. It is of no use to blame the south and it is probably unjust. The north, given the southern problems, might behave in the same fashion. But we are being ruled by Negroes to a very considerable extent and in very important matters.

The southern Negro governs by the limitations of his citizenship. His incapacity is an applied test of American legislation. If proposed legislation does not fit him it is opposed.

One nonvoting southern Negro has more influence upon the course of the United States in many essential particulars than ten voting northern citizens.

He is powerful in his powerlessness.

How The Tribune Writes About Us

The Chicago Tribune carried the following on February 2nd:

Colored Folks At Meeting Protest Move To Oust Them.

At a meeting last night at the colored Methodist Church, Fiftieth Street and Wabash avenue, a protest was registered against the Hyde Park and Kenwood Assn, an organization which aims to keep colored people out of that neighborhood. Oscar De Priest and Jesse Binga addressed the meeting.

Now as a matter of fact, Oscar De Priest did not speak at that meeting and neither did Jesse Binga, the former was absent on account of other engagements and the later was confined to his house on account of illness.

The question naturally comes to our minds as to what means are employed by the Tribune to get the facts. It is interesting to note that they are well informed as to the movements of the "black [illegible]" [illegible] ces and they also seem to have very accurate accounts of the meetings of the Hyde Park and Kenwood Association.

ly [illegible] within the the [illegible]ards Labor Council and the [illegible] way, parties to it. It [illegible] on race prejudice [illegible] newspapers stated and as many [illegible] been led to believe, and still believe.

(5) Because of certain Actual Race Discrimination by Labor Organizations.

Many colored workers are adverse to becoming members of a union because of the knowledge they possess of actual discrimination against colored workers. This is the policy of quite a few International Unions in affiliation with the American Federation of Labor. We understand that a similar policy was followed out to a certain extent by the American Federation of Labor itself for many years until quite recently (The New Jersey convention in 1918) when the barriers of racial restriction were thrown down unqualifiedly.

The writer entertains serious doubts if there is any more logical reason existing for non-participation in labor circles altogether, because of this great wrong in certain instances, than there is in the doctrine of advocating that because of disfranchisement in South Carolina the colored citizens in Chicago should refrain from voting. The way to correct this evil is no exception to the general rule for such, that the entrance should be forced by the injured where ever that is possible, and the fight once carried to the inside be forced continually and without quarter. More pressure can be exerted by gaining a vantage point and fighting against the evils than by remaining outside and howling about such conditions. The Stockyards Labor Council, however, is unqualifiedly against race discrimination, and permits no affiliation with organizations that practice it.

(6) Because of Contact with Individuals who Advocate Race Discrimination and who are Members of Unions.

The writer cites this one instance which will illustrate the point clearly. During the week that the colored workers were kept on this side on account of the riot, a meeting was held by District Council No. 9. This, by the way, is the Council put in the field by the International to destroy the Stockyards Labor Council. At this meeting one Frank McElroy is reported to have said: "Now that we have the "niggers" out of the yards, let's keep them out". At this our International Secretary-Treasurer is said to have objected advising that it would not at the time be a safe experiment inasmuch as the Stockyards Labor Council had come out so clearly and forcibly on the race issue, and against discrimination. Now, as we see it, Frank McElroy is just one individual and previous to that time he had worked on the Executive Board of the Stockyards Labor Council and done good work. He sided with the International in the factional fight and has since been retained by District Council No. 9. Hence you can see that he merely gave free expression of personal feeling, and as he was not the authorized spokesman of any organization, the import of the statement is negligible.

(To be continued).

Y. M. C. A. NEWS.

It is indeed gratifying to note the interest which is being displayed by the men who attend the Sunday afternoon meetings at the Y. M. C. A. The addresses have been so interesting that many men have purposed to bring others. Dr. F. G. Snelson F. R. G. S., pastor of St. Marys A. M. E. Church, will be the speaker at 4 P. M. Sunday, Feb. 22nd. The subject will be "Nobler Sons of Noble Fathers." Mrs. Lucy Page Gaston, superintendent of the Anti-Cigarette League will be present. Music will be furnished by the Armour Glee Club. Representatives of the Sunday Schools will report on activities conducted during Father and Son Week, February 16—22.

Rev. L. H. Owens, evangelist and former pastor of A. M. E. Church Aurora, Illinois, and overseas Y. M. C. A. Secretary, will deliver an address at 8 P. M., Thursday evening, February 19.

A short program will be rendered at 8 P. M., Friday evening, February 20, soloists, Mrs. Ione Harris, Violinist, Mr. Arthur Clipchase, pianists, Mrs. Pattie Massey and Mr. Zinky Cohl.

Prof. J. U. Turner is improving. He was seen in the lobby Sunday.

We appreciated the opportunity to be of service to the Lincoln League Convention Delegates. Messrs. C. J. Baker, Birmingham, Ala., C. E. Tucker, Chattanooga, Tenn., J. W. Long, Cheraw, S. C., and D. [illegible] Minister, [illegible] quarterly conference [illegible] tional Church, (Dr. James [illegible] the Bishopric by the General Conference, to be held in St. Louis, Mo., in May, next.

Dr. Carey is the presiding Elder of the Chicago District of the A. M. E. Church.

In May the A. M. E. Church will hold its quadrennial General Conference, at which time one or more bishops will be elected. Dr. Carey is the only candidate of the north west section of the great A. M. E. Connection.

The Institutional Church is not alone in this particular. The quarterly conferences of Bethel, Quinn Chapel, St. Mary's, Waymen, and Grant Memorial have already taken similar action. The universal desire of the Chicago churches and the whole north west seems to be that Dr. Carey should be elected to the Bishopric, where his splendid talents can be used to greater advantage for the church and the race.

TORNADO HITS CAMILLA.

Girl Killed and Several Injured By Severe Wind.

Camilla, Ga., Feb. 19.—Several houses were demolished by a tornado near here today and one person, a 10-year-old colored girl, was known to have been killed, while several members of her family were injured.

Unconfirmed reports here tonight were that several other persons had been killed in the northeastern part of Mitchell County.

Egypt Becomes Wealthy Through Cotton Deals.

London, Feb. 10.—Egypt is "bursting with wealth" accumulated from cotton, says a correspondent of the Daily Express in Cairo.

"Illiterate natives living in mud huts have made 20,000 pounds sterling out of cotton deals," he continues. "Some have made 100,000 pounds sterling. They are buying land at inflated prices and paying off mortgages which were regarded as family heirlooms. One British official says that the country has made at least 100,000,000 pounds sterling."

Spanish Farmers Riot.

Saragossa, Spain, Feb. 17.—The peasants of Gallocanta have revolted and demanded a division of the land among the workers. They are threatening strikes and rioting and forces of gendarmes have been sent there.

[illegible] this advance was discerned the strongest pledge of further progress.

Take the lynching question. Few indeed now venture to offer the old fallacious excuses for mob law. The ablest southern newspapers are as severe in condemning it as is any organ of northern opinion. Southern governors, sheriffs and mayors exhibit an increasing appreciation of their duty in this regard. Indeed, while the Lincoln league was in session the governor of Kentucky was employing the state militia to protect a negro then on trial for a grave crime. Five rioters were killed by the soldiers and many others were wounded as the result of an attempt to storm the jail.

When a southern governor displays such determination to protect colored men accused of crime and give them the benfit of due process of law, it is plain that, in the paraphrased words of Lincoln, the negro problem is in process of being settled and being settled right.

Montgomer, Alab., Feb. 26th. — James Tolliver, a colored man, who had been bitten by a mad dog a week ago, had been paced in the Hale Infirmary here for observation.

He deveoped hydrophobia and became violent inflicting some damage to the ward in which he was confined and nurses became fearful that they might be attacked.

against the numerous pitfalls to be encountered within the organization of companies in states with stringent laws like Illinois, where the inability to dispose of a given number of shares within a certain period would render the company's charter invalid.

From the above it will be seen that while the nominal capitalization is only $100,000 the actual paid-up capital will be very much more.

We understand that it is the wish of the officers of the company to have a fully paid-up capital of $100,000, and $125,000 surplus for operating purposes, after deducting and allowing for organization expenses.

The straightforward manner in which the Liberty Life Insurance Company has been organized makes it imperative on us, in keeping with our policy, to bespeak the co-operation of every reader of this magazine to this company. It is worthy of your co-operation and you should, beyond doubt, do all in your power to foster and encourage it.

A glance at its officers, bespeaks confidence, for in any business, whether it be insurance, general merchandise, oil, rubber or steel, too much stress cannot be placed by the investor on the character, standing, experience and ability of the management. Even the most profitable of businesses can be wrecked if the officers of the company place their selfish interests before the interests of the stockholders.

This news is interesting from a number of angles. It indicates one of the many recent results of the new spirit of the Negro. Heretofore the Negro in the South has been employed as unskilled labor only. His step upward to the dignity of skilled labor is therefore epochal.

The fact that classes in business has been organizel, is again of significance. During the last year more colored men entered business than in the past fifty years preceeding. The year 1919 actually witnessed the variable advent of the negro into the business world. This new school is a direct outcome of the really amazing development.

Finally, it should be noted that the majority of the race enrolled are ex-service men. That the awakening of the Negro was occasioned by the war is generally accepted as true. That the soldiers went through their baptism of fire and the discrimination of white officers, but to return home with a new sense of dignity and renewed determination to acquire for themselves some of the Liberty they fought for is most certainly true. Their enrollment in this school is in direct line with this new spirit.

Colored Labor Delegation Demands Rights in Alabama.

Birmingham, Ala., Feb. 16th.—Commissioner Henry Page Burress, received a set back today when he was confronted by a delegation of colored laborers, who in a militant mood, presented their grievance. Mr. Burress was so surprised in what he termed the "impudence" of the Negroes that for once he was speechless.

The men, who were street cleaners, have been somewhat irksome under the typically Southern Policy of docking them for two days work, when they missed one. The delegation presented their grievance withouth the least show of that "bow and scrape" attitude which the commissioner expected.

Mr. Burress declared he does not know what the world is coming to. You don't know Mr. Burress, but you will soon find out where the "NEW NEGRO" is going.

GERMANY HAS BIG ARMY.

Is Well Supplied With Tanks, Machine Guns and Planes.

Paris, Feb. 19.—The German army is still 400,000 strong, according to a report received by the committee of foreign affairs today from Gen. Niessel, head of the Baltic mission. In addition there are 100,000 policing forces, officers and non-commissioned officers. Germany also is well supplied with tanks, machine guns and airplanes. In the neutral zone alone on the right bank of the Rhine the policing forces number 15,000.

Gen. Niessel adds that the German minister of defense, Noske, is in the hands of the general staff and that the German government is capable, if willing, of obtaining execution of the treaty clauses by the country.

AFRICANS CAN'T GET NEWSPAPER.

A sudden shortage of American magazines and newspapers has befallen Cape Colony, South Africa, according to information received at the Houston post office. The reason is this: Publishers in the United States have neglected to wrap their publications securely and the flimsy binders have been rubbed and worn so during the long voyage that they have become separated from their contents. As a result thousands of papers marked for delivery in South Africa have failed to be delivered. The post office department has suggested that the attention of the publishers be called to the fact.

GIVE US A CHANCE

By G. Marchbanks Campbell, author "Rainbows of the Western Slopes."

We started from the bottom, on the very lowest round,
And we reached, and clung, and tussled, till we felt our feet on ground,
And we looked and watched the Darkness,—'twas the time of a Nation's night,
And we gleamed each dusky shadow for a glance or a hope of light.

Long seemed the night and weary, for 'twas over two hundred years,
Many were the days that were prayerful, many our sighs and tears,
But alas, one drear morning, the answer of the prayers had come,
The days of cruel slavery were o'er—Ah, 'twas done.

Up from the mire of bondage,—up to a place among men.
We answered the questions of progress and marked the past with a pen,
Equal to every nation, equal to time and tide
We are now for up the pathway where the road is broad and wide.

We ask no man for assistance, we ask but the right to do,
We ask no favors but justice, and as men we'll make it through,
God, from the midst of darkness, from our ignorance and despair,
Gave us the boon of Freedom, and we need but his loving care.

We expect no gain without losses, on every side is the fight.
We lift our heads and swim through it, sometime 'twill be alright.
Each Nation in turn made the music, and each in turn did the dance.
We know we are just like the others and the world will "give us a chance."

Under The Lash of The Whip

5000 Negro people in Chicago voted for Boss Rule, A Machine Made Alderman, that has never said one word against the bombing of colored homes, filthy streets and alleys and the flagrant vice within our gates.

The "OLD CROWD" fossils spent over $3,000 to put a "hat in hand", "me too Boss" leader in office. The fight has just begun, take off your coats and take your medicine.

The NEW NEGROES were able to corral over 1,000 votes for a real man in office. This took ony 2 months' efforts.

A Certain Gentleman in our race has been forcing his affections on a pale faced lady in the assessor's office. This gentleman belongs to the old ignorant avaricious type.

A Gentleman on the corner recently remarked that the "WHIP" was too radical. We wonder if he thinks the south, The Tribune, and the Hyde Park Gang is conservative enough for him.

The Keen Observer saw: A young lady from our clan parading over State Street with an infamous renegade of the Underworld and of the white race. Where is Honor and Pride?

A Judge in Tennessee recently sentenced a colored woman to 50 years on a charge of vagrancy. Vagrancy means without working etc. That same judge would be justified in giving the Big 4, Oscar, Edd, Louis and Bob life time.

Several Young Men belonging to those within the color veil, have lost all vision of the future and are basking in realm of vice and corruption with no incentive to go forward. Too bad that the so called "leaders" can't set an example for them to emulate.

It took 10 months for Chief Garrity to demote and transfer Mike Lee, acting Captain of the 50th Street Police Station. It did not take the Allies much longer to chase the Kaiser out.

The Politicians are meeting quite a few job seekers these days. The seekers will cut your throats for those "Flunky Jobs" in the City Hall. They call these jobs patronage. We wonder if the voters are called patrons.

Who is that dectective sergeant that "bags all his birds" on corner 35th and State. Why not look on some other side, sergeant?

Edd. Wright is gloating because his Harmony Pal Jackson, the fixing Bob" was re-elected. Be not afraid, Edd. The New Crowd is just waiting to Vamp you.

The Governor of Kansas is very much interested in the Chambliss case. It would be a good idea for the governor to interest himself in the Hyde Park Trouble since he is so anxious to dip in.

State Street styles are leading Paris. Kimono and Pajama parties are the rave. Adam and Eve would blush at first but the "Fig Leaf Negligee" would put them in style right away.

Monster Mass Meeting Sunday Afternoon

Sunday, February 29th, 4 P. M., at the Eighth Segiment Armory, the people of Chicago in a monster mass meeting, representing every interest of our group in the city, will "open the flood gates of truth" and marshal the forces of justice in opposition to bombing and segregation in HydePark and Kenwood. Preparations are being made for an attendance of 5,000 people. Will you be one of them?

The meeting is not to be one of those stereotyped kind of protest and resolutions. Thre will be two definite things done on the occasion. First: The public will be informed concerning the activities of the Protective Circle of Chicago since it began to deal with these questions; Second: A fund of several thousand dollars will be raised to deal with the situation in a way that will bring immediate and lasting results. So if you intend to be one of the 5,000, be sure to bring along your bank notes and check book.

Dr. J. H. Kelly Subscribes $100.

Subscriptions for the movement on the occasion, have already started towards the treasurer, Mr. Anthony Overton, a business man of unques[illegible]ing. Among the first of these to ar[illegible]scribed by Rev. Dr. J. H. Kelley, a new citizen of Chicago who has purchased heavily in real estate in the South Side, and who is to be new pastor of Ebenezer Baptist church, in the heart of the district sought to be segregated. Dr. Kelley's attitude is typical of the feeling of the community in a determination that there shall be "No Backward Step" in Hyde Park and Kenwood.

It is the determination to deal with the situation drastically but legally. The so called Hyde Park and Kenwood Property Owners Association having plagerized the famous French General Joffre quotation: "They shall not pass." The people of our group have paraphrased that other famous quotation of General Pershing at La Fayette's tomb: "Hyde Park and Kenwood, we are here!"

Flirting with the "Pen".

J. Edson McEldowney, editor and manager of the Real Estate news, the leading real estate publication of Chicago, devotes four pages in editorial comment explaining the Hyde Park and Kenwood situation, and declares some things should give the intimadators the cold shivers. In a "solemn warning" printed in italics, he states:

> "The time has come, we believe, for a word of solemn warning to all South Side property owners. It is: Keep out of those Associations! If you are now in, get out! For you are in great danger of the penitentiary! You are in grave peril of losing your property by damage suits!"

This "solemn warning" is written by a white man to the white people in the Hyde Park and Kenwood, and other associations.

The Circle In Action

The Protective Circle of Chicago is acting! Twenty-five thousand copies of the Real Estate news have already been mailed to every resident of Hyde Park and Kenwood. A sensible circular letter, appealing to the beter judgement of the white residents of the section has been printed and, also, mailed. Steps for immediate legal action are under way, Mayor William Hale Thompson, Corporation Counsel Ettleson, Attorney General Brundage and United States District Attorney Clyne, together with Race Commission apointed by Governor Lowden, are being presented with facts and uniquestioned evidence that will unquestionably require legal action.

The Protective Circle is doing considerably more that cannot be announced at this time, but there can be nothing more important in life's calendar of duties than your presence at the Eight Regiment Armory, Sunday afternoon. Be there!

Little Child Locked in House, Burned to Death

Paducah, Ky., Feb. 24.—Pitifully crying for help Tinne Southerland, two years old colored child was burned to death here today, when the house in which she had been locked burned up.

The mother had locked the child in the house while she went to town shopping. Neighbors did not discover the flames in time to save the child, the charred body was found just inside the door by the firemen.

A Birthday

(Cleveland Press.)

On March 3 occurs the 73d birthday anniversary of the humble United States postage stamp. In 1845 the federal government authorized a half dozen postmasters to issue stamps at their own expense, but it was not until March 3, 1847, that the first national stamps were issued. There were statesmen, however, who protested against the United States aping thus a British institution, for the postage stamp idea had come from England.

The stamp was not popular at first because the user had to provide his own glue. Came forward then the heaven-sent genius who thought out a method of providing each stamp with its dose of "stickem". Licking became instantly popular thruout the nation and the stamp began its uninterrupted career of usefulness.

With equal facility it carries a million kisses in a love letter and a million-dollar check. It is the most faithfull of messengers and for two cents will carry a letter a mile or 2000 miles.

And while birthday felicitations are in order, it should be said in tribute to the stamp that it is one of the very few commodities that are as cheap now as they were before the war. Perhaps it is only one.

Employers Will Not Bar Colored Stevedores

San Francisco, Cal., Feb. 17. — Colored Stevedores will not be barred from employment on the water front. This was the decision reached at a meeting of the members of the Waterfront Employers' Union in the offices of the Matson Navigation Company.

"We realize we are under a moral obligation to the men who assisted us in meeting the emergency created by the strike of union stevedores, and the members of our association are pledged to employ colored men on all piers controlled by them in the same proportion as they were employed during the strike," James Tyson, of the Matson Navigation Company, one of the largest employing associations on the water front, told members of the employers' union.

"Without the assistance of those men who handled our cargoes during the recent strike the acts of lawlessness and violence, unchecked by the authorities, would have crippled our industries," Tyson said.

Negroes Meet in Unity Hall

Boston, Mass., February 25, 1920. —Serious race disturbances in the South, with a continuance of lynchings, employment discontent and the growth of the I. W. W. and Bolshevistic tendencies, as reported from time to time, have caused the Boston friends of the Negro, who have long extended sympathy to such institutions as Tuskegee, Hampton Calhoun, and Penn, to arrange for a public meeting in Unity Hall Park square, for Tuesday evening February 24, at 8.15 o'clock.

Major Robert R. Morton, principal of the Tuskegee Institute, and Dr. James E. Gregg, principal of Hampton enthusiastically accepted invitations to be present. In addition there were addresses by Brigadier General John H. Sherburne, who commanded the 167th Artillery (Negro) Brigade of the Ninety-second Division on the battlefields of France, and by A. L. Jackson, educational secretary of the National League on Urban Conditions Among Negroes, [illegible] class orator on his graduation from Harvard.

The Unity House meeting was planned by a committee of which Miss Harriet E. Curtis of Mt. Vernon street is the chairman. It has the active support of Rev. Henry Wilder Foote, local trustee of the Hampton Institute; Chares E. Malson, trustee of the Tuskegee Institute; John F. Moors, for the Penn School and Rev. Paul Revere Frothingham for Calhoun.

The Hampton quartet sang plantation melodies.

Annual Meeting of Chicago Branch

N. A. A. C. P.

The Annual Meeting of the National Association for the Advancement of Colored People was held Monday Night at Wendell Phillips High School As usual the meeting was well attended, every seat being occupied and many standing throughout the evening.

Judge E. O. Brown, President of the Chicago Branch presided. The address was delivered by Rev. John Haynes Holmes, noted pulpit Orator from New York City.

Rev. Holmes delivered a wonderful address giving facts and conditions of the Negro Problem as it appears to the White race, of which he is a member, and giving facts and conditions as they appear to be with the Negro.

Never has Chicagos' audience listened to a more logically inductive and forceful speech, and the vast audience seemed to be appreciative and intense interest was evident throughtout the address.

Dr. Chas. Bentley made an appeal for the association, after the strength and benefit of the organization had been clearly shown to which appeal there was ready response.

Every colored person in Chicago should be a member of the Chicago Branch which membership costs only one dollar, and those who can afford it should donate whatever they can to the Association, because many very influential white people are devoting their time and money to this cause which is for our benefit solely and we should at least show our appreciation by doing the best we can in a numerical way.

Following is report of moneys collected and offenders of the Chicago Branch for the following year.

$350.50 was collected in cash
$600.00 pledges.

DAVE PEYTON'S GREAT STAGE REVIEW

Theatrical and Movie News.

The Grand Theatre.

Frank Montgomery and his "Hello 1919" Co. are still packing 'em in. The Shows seem to have a grip on the public. From close observation, the writer has seen the same faces every night in the week, at the box office, eager to secure seats.

Capacity Business is the answer to a first class show and we hope that Montgomery's example will be followed by the other race producers in giving the public a clean wholesome show.

The Avenue.

"The Un Born" a new pathetic story is told here this week, by the Famous Lafayette palyers. Members of this Company are Clarence Muse, Chas. Olden, Edward Thompson, Allen Iuzz Chough, Charlotte Foreeman, Evalin Evelyn Ellis.

The Monogram.

A Good bill is presented at this house, which affords a real variety. Tim and Gertie Moore, the stroll favorites do a nifty twin.

Dude and Geo Kelly were pleasing. Johnson & Rector, were also entertaing in their fifteen minute offering.

Captain May Kemp, a real act "single" stormed the house.

Mrs. Kemp, who was formally the partner of Bobby Kemp, is in a class all alone. Her songs are up to the miante, a she puts them over in great style.

Tony Langston, the dramatic editor of the Defender, is in New York on business and will return next week.

The Movies

Mary Pickford.

Coming. Fri. Feb. 27. Alice Brady in the "Fear Market" Sat. Ruth Clifford in "The Amazing Woman."

The Phoenix.

Coming. Sat. Feb. 28. Norma Talmadge in "The Isle of Conquest" Sunday. Robert Warwick in "The tree of Knowledge."

RAY WILFRED TIBBS, RACES GREATEST PIANIST GOES ON TOUR.

Washington, D. C., Feb. 26, 1920.—(Special to the Whip.)—Of unusual interest to students and patrons of music throughout the country is the projected tour during June and July of Roy Wilfred Tibbs, head of the piano department, Howard University Conservatory of Music. The itinerary now being worked out includes most of the cities of the eastern, central and mid-western states, and extends as far west as Denver, Colo.

Prof. Tibbs was graduated from the music department of Fisk University in 1907, received his bachelor's degree from Oberlin a few years later, and was studying in Paris, France, when the near approach of the Germans in 1914 caused him to return to America. In 1918 he re-entered Oberlin, and last June received the master's degree, with the unusual distinction of being the first person to receive this degree from Oberlin for work in music.

Syncopated Orchestra to Appear Here Soon.

America's Syncopated Orchestra and Singers [illegible] on march 10th at Aryan Grotto, 12th and Wabash.

AMERICA'S ONLY MUSIC IS COMING [illegible]

Following is What the San Francisco [illegible] Examiner Said About the SYNCOPATED ORCHESTRA that appeared there recently.

NEGROES MAKE VIOLINS CROON SWEET MELODY.

By Redfern Mason.

"The whirling of time brings in its revenges." The colored who we have ill treated, lynched and looked down upon ever ince we stole his ancestors from their home in Africa, take a poetic vengeance by making better music than we, with all our intellectuality and pride of race, are able ourselves to create.

It was at the Exposition Auditorium, where a few thousand San Franciscans had gathered together to hear thirty colored musicians sing their spiritual and folk songs and liberate their emotions in ragtime and "jazz".

They call themselves the Syncopated Orchestra and Singers, for the reason I suppose that the colored love jagged, chopped of rhythms. So does the Hungarian for that matter; so does the Bohemian, and the sons of Antonin Dvorak affect to be mighty indignant when musicians says that their father took the themes of the "New World" symphony from the colored and the redskin. But when four colored men sang "Swing Low Sweet Chariot" we knew with the assurance of a perfect conviction that the critics were right and Dvorak's sons wrong.

Our visitors claim that their music is American Music and in a sence they are right. When the European thinks of the American Music he thinks of Rag time, and ragtime is colored. So far therefor we are our colored brothers debtors. But that is only part of our debt. By virtue of his superior emotional depth and his far higher gift of instinctive songs the colored is a better musician than the Anglo Saxon. While we suffer our ancestral songs to die out, the colored clings to their melodies and if a stranger comes among us it is to the music the Plantation we must point as the finest home grown product of America.

A PERINNIAL JOY.

Within his scope the colored is a perennial joy to all lovers of tuneful art. We had proof of it last night. Those colored fiddlers hugged their instruments as affectionately as a mammy hold her baby and made them croom music that had warmth of feeling and ecstacy of pure tones only equaled, perhaps by the Romanian fiddlers of Hungary, the guitarists from Latin Europe or the Marimba players of Guatemala.

I never saw people happier in their music making then those. They sunned themselves in it, with now and then a change into mystical sorrow and notes of longing which one [illegible] press.

We think highly of our San Francisco Symphony and with good reason. Yet I can soberly affirm that there were moments of sustained elation, outbursts of lyric rhapsody that Alfred Herz would give his ears to be able to evoke from his players.

In saying this I must not be misunderstood. I do not wish to suggest that the men of the syncopated Orchestra are academically on the level with the musicsians of the San Francisco Symphony. They are not, but I think they love their music more. It is more a language of the heart with them.

There were organ effects in the choral harmonies, interspersed in that "Exhortation" of William Coleman's. The Dvorak "Humoreske" was played with tenderness and entrain that won the audience almost to tears. There was gamesome "jazz." In a word it was a concert not soon to be forgotten.

England's "League of Nations" Face Problem of Justice To England's Colored Colonials.

London, Feb. 24. — Official and unofficial appeals from Nationalists of India, Egypt, South Africa and Ireland for self-determination under the League of Nations have been received by the secretariat of the league, portending a difficult session whenever the council of twelve settle down to arbitrate the troubles of Great Britain and her disgruntled dominions.

Although it is officially stated that Egypt, India and Ireland have appealed to the league to compel Great Britain to grant them self-determination, their claims will come before a council sitting in England under English influence, with Sir Eric Drummond, an Englishman, in the chair of the secretariat general, it is pointed out by Liberals here.

MAIN WITNESS MISSING TODAY

Laporte Police Seek Help Here in Finding Colored Woman.

Michigan City, Ind., Feb. 23. — The Laporte police sent out an S. O. S. call this morning for the complaining witness in a larceny case due for trial today before Mayor Salwasser of the city court. The quest was made for one Mabel Richardson, colored, and after some little investigation here it was learned that Mabel was in Laporte. Chief Norris was notified accordingly.

The case is that against James Richardson, supposed husband of Mabel. Jim was arrested here a month ago for the theft of $8 from his supposed wife. When arrested he was found to be carrying a revolver and for this offense he was fined $20 and costs in the city court to which Judge Sherwood added thirty days in jail. Jim served the thirty days and was released today to face prosecution on the financial case.

YOUNG COLORED ORATOR TAKE SHORT TRIP.

Charles Satchell Morris, Jr., brilliant young Colored orator will depart from Chicago this Saturday afternoon, February 28th for a intensive eight-day lecturing tour. He has been the recipient of a flood of invitations from various sections of the country urging him to speak. He will arrive in St. Louis, Sunday morning where he will deliver three addresses at mammoth events, Sunday under the personal supervision of Rev. Dr. George E. Stevens. Probably 6000 persons will hear him in his initial appearance in the Mound City. Great enthusiasm has been created by the announcement of his coming. He will probably speak Monday forenoon in the great Sumner High School of St. Louis. Monday night, March 1st, all Louisville will greet the gifted young spokesman in Broadway Temple A. M. E. Church, Zion Church, 13th and Broadway. The son of a former distinguished Louisvilian is certain to be favored with a capacity crowd. Tuesday night he delivers his maiden speech in Cincinnati and all the citizenc of the "Queen City" will assemble to hear the orator on this occasion. Wednesday evening Frankfort, Kentucky will bid him welcome. Thursday night he goes to Ohio, and on Friday night he will address one of the greatest mass meetings in years at Xenia, Ohio, under the auspices of the local N. A. A. C. P. and he will also visit Wilberforce University, en route. Sunday, March 7th, he is scheduled to speak three times in Pittsburgh at the largest churches in the "Iron City", his old stronghold. He returns to Chicago, Monday, March 8th to resume his studies at Wheaton College, Wheaton, Illinois. His first great Chicago appearance will be at Bethel A. M. E. Church, arrangements for which are now being perfected. He journeys to Detroit on March 28th and 29th for two addresses to St. Paul and Des Moines, Omaha and Lincoln in April. He speaks at Original Providence Church Musical Sunday, April 18th and goes to North Carolina in May. Not only he is speaking generally these days, but he is writing volumes for the country's leading periodicals.

Second Negro Gets Life Term

Charged With Murder of Lee Stringer, [illegible] W. Detective.

Michigan City, Ind., Feb. 25. — Earl McCoy, colored 21 years old has been sentenced by Judge Cullins of the Marion county criminal court to serve a life sentence in the Michigan City prison for murder. McCoy was charged with the murder of Lee Stringer, a detective for the Lake Erie & Western railroad, who was shot Oct. 30, 1919 whiletrying to break up the operation of a gang of coal thieves in the railroad yards.

Abe Spaulding, colored, also charged with the killing was sentenced to life imprisonment several days ago.

Evidence showed that McCoy and Spaulding had gone to the Indianapolis yards with a wheelbarrow after coal. They ran to McCoy's home when Stringer arrived. The detective was taking the wheelbarrow away as evidence when the negroes came back and one of them fired a shotgun charge into the detective's back. They accused one another of firing the shot.

Thomas Newsome, Newport News, Va., to deliver the principal address before the meeting of the association, Thursday evening, May 27th. Hon. Newsome is known throughout the country as an able orator.

Joint Meeting a Success.

The joint Committee meeting held under the auspices of the Building Committee Sunday Evening at U. B. F. Hall, 29th and State Sts., by the U. B. F. and S. M. T. was a success. Interesting addresses were made by Hon. Louis B. Anderson, alderman of the Second Ward; Oscar DePriest, candidate for the National Republican Convention; Edw. H. Wright, traction attorney, Geo. T. Kersey and Mrs. Lou Ella Young.

Dr. H. L. Fitzgerald Found Dead In His Home.

Dr. H. L. Fitzgerald a physician, was found dead in his apartment at 3815 State St., Saturday by policeman Michael O'Hara. Gas was found to be escaping from an open gas jet in a tove. It is believed death was accidental, but it is rumored there was an unsatisfactory love affair.

Dr. Fitzgerald was a very good physician and a man of good character and high standing, had many friends, his demise is a valuable loss to the city.

Pre-Lenten Dance.

A Pre-Lenten Dance was given last Monday evening, February 16, 1920, by the St. Monica's Court, 179, C. O. F. A big crowd gathered with the good works of Mr. Wesley P. Griffith, Jr., Mr. Wm. Vernon and Wm. A. Howell.

Editor Linton's Father, Rev. T. J. Linton Stops Off In Chicago a Few Days.

Rev. T. J. Linton, D. D., A. M. E. Presiding Elder over the Dublin District, Atlanta, Ga., stopped over a few days in Chicago on his way home from the Bishops Council, which met in Baltimore, to visit his son Wm. C. Linton, one of the editors of the WHIP.

While in the city he addressed the Ministerial Alliance and graced the pulpit Sunday afternoon at St. Marks Church, 50th and Dearborn at the request of the Pastor Rev. Snelson. Rev. Linton, brought encouraging ideas from the South land and says the people there are imbubed with the new ideas and are pushing forward as never before. He is a man of keen intellectual observance and will carry a forceful message to his people after having had this trip.

Mother Surprises Daughter.

Mrs. Hulda Jane Reuben, Milwaukee, Wisconsin, surprised her daughter, Miss G. M. Reuben, last Friday, by coming to Chicago on an indefinite business trip Mrs. Reuben is the house guest of Mrs. C. Lehey, 7653 Union, who is proud mother of an eleven pound baby girl a week old.

MRS. SAYRE APPOINTED

Out of a number of applications, Mrs. Helen Sayre was selected. This choice may be viewed as a reward for efficiency and merit as she is one of Chicago's foremost social workers. At present Mrs. Sayre has the honor of being an organizer for the Community Service League, Hostess of Recreation at the Soldiers & Sailors Club, President of a unit of the Red Cross Sanitary Drill Corps and Secretary of the Inter-racial Cooperative Committee.

BIG FIRM EMPLOYES WELFARE WORKER.

More than 600 colored girls are employed on the clerical force of Montgomery Ward & Company. [illegible] influence of the League does not stop [illegible] the mere finding of jobs. It is interested in the employee becoming efficient and seeing that the working conditions are desirable. On the recommendation of the League a welfare worker has been appointed to work with the girls. In a situation like this where there are problems arising daily, the advice and judgment of a mature and experienced mind is desired.

APPOTOMATTOX CLUB NOTES.

By Othello W. Collins.

Our club moved into their elegant beautifully furnished $50,000 home, 3632 Grand Boulevard. The doors were thrown open, and members were invited to make an inspection of the premises.

A great many people took advantage of this opportunity and all declared the club house to be the finest negro club building in the country. Our great membership drive was a complete success, and the list is now closed.

Notice of the grand opening of the club will be given later.

Cincinnati, Ohio

The Cincinnati Better Housing League invites the public to attend the opening of the Housekeeping Center, 417 Stone Street, Friday, February 27, 2—5 P. M.

This center is a typical 3-room tenement flat which is being used for the purpose of teaching tenants in the district how to get the best results under unfavorable conditions.

A committee on child care and boarding homes established headquarters at 24 E. Ninth Street.

This is a co-operative movement among field-work agencies and the juvenile court, for the purpose of providing boarding homes for children who must be temporarily placed.

The Argonne Club entertained the public with a literary program at Douglas Community Center.

The race between New York and Chicago, to see which would be the first large city to finish taking the census, was won by neither. Cincinnati, which hadn't made any brags, finished the count first.

Atlanta, Ga. Notes

The Colored Public School Teachers represented Mr. C. L. Harper with a beautiful gold watch as a token of appreciation for his untiring efforts in seeing that the colored teachers of Atlanta received a square deal. Recently the white teachers petioned for a raise of $30.00 for themselves and $10.00 for colored teachers and janitors. Through the fight by the colored teachers headed by C. L. Harper they were successful in getting a fifteen dollar raise and the white teachers were reduced to $28.

The N. A. A. C. P. of Atlanta is sending a fund to Macon to aid in defending a man that has had unjust trial. The man seems to be absolutely innocent and ignorant of what he is accused of. He is sentenced to death accused of attacking a white woman, the only evidence was that his shoe fitted a track near the woman's house.

Deo. Geo. Shinery was sentenced to 3 years in the County Chain Gang on a charge of criminal negligence in operating his car last spring. Everyone considers the verdict travesty against justice.

600 Girls Face Ordeal

The 600 girls now doing clerical work in the Mail Order house of Montgomery Ward & Company have been facing some very serious situations. Their problems have been many, but they have not been left entirely alone to work them out. The Chicago Urban League was instrumental in placing a very large number of these girls and has never withdrawn its arm from them. As a testimony of the good work of the League here is a letter which was received by Mr. Evans, Industrial Secretary of the League from the representatives of the girls effected:

Gentlemen:

> The ordeal thru which we have just passed has been a trying one, and there have been moments during this crisis when we have felt that the struggle was too great and that we would do well to give it up and allow matters to adjust themselves: but with your timely aid, brotherly encouragement, and splendid management of the seemingly hopeless tangle we have succeeded in scoring a point for which we were almost afraid to hope.
>
> We haven't words to express our sincere appreciation and deep-seated gratitude to you for your united efforts in our behalf and the splendid results coming therefrom
>
> Very truly yours,
> SUPERVISORS.

In order to help iron out the difficult situations as they arise, the Montgomery Ward & Company has employed, Mrs. Helen Sayre as welfare worker to look after the interests of these girls. Mrs. Sayre is experienced in welfare work which makes her exceptionally fitted for this task.

A Famous Chicago Basket Ball Team

Y.M.C.A. Community Basket Ball League

Only two league games were played in the Y. M. C. A. Community Basket Ball League last Friday night, [illegible] on the doctor's sick list. A good crowd turned out and cheered the competing teams fast games being played in the lightweight section.

Quinn and Iroquois furnished a flashy hard checking game as an opener the half time score being 4—0 in favor Quinn. In the early part of the second half the West Side boys came back strong and looked like winners changing the score 6—4 in their favor after a few minutes of play. However, after that it was Quinn all the way Hugh Schell and Green notching 10 points between them, and making the score board read 14—16 when the final whistle blew. Hugh Schell starred as he did in the game last week. He played a strong defensive and offensive game and scored 6 of his team's points. Louis Goodgame of the Iroquois lived up to his name and played a good game but he could not find the basket in his shooting.

Lincoln Lights romped away from the Tackweights from Institutional. As usual the kids put up a scrappy game against great odds. The final score read 36—1. Horton was high man in scoring having nine baskets to his credit.

In a practice game Lincoln heavy team defeated a team of "All Stars" 21—16. The game was fast and furious the half time score reading 5—3 in favor Lincoln. Huff Trueheart and Blanchet starred for Lincoln.

Games this week will be played on Thursday night instead of riday on account of the big game on Saturday night, when Wabash "Y" heavies return from their eastern invasion and play the Scholastics of Pittsburgh. Games scheduled are as follows:

Lightweight:—
St. Marys vs. St. Marks.
Quinn vs. Grace.
Heavyweight:—
Quinn vs. Bethel.

The public invited. No charge.

How About a Shave in New Guinea?

No Barber Poles Needed.

Natives in Guinea should worry about tips and the high cost of shaving tips. A safety razor is of no moment in their young lives. Instead of worrying in front of a mirror every morning with an empty stomach and a carefully mersed grouch, they pull out their hair roots and [illegible]. They believe in permanency. Ben Williams says death is so permanent, but the New Guineans hold the same idea about shaves.

Warning to Barbars: Keep away from Guinea!

No Hope for Poor Savages

According to the announcement of Professor T. Small, of Chicago University, missionaries will henceforth pursue their missionary activities in flivers. The Baptist church is raising $100,000,000 for the work in Africa and if successful, will send a shipment of Fords to Africa to conquer the waistless Sahara. Professor Small states, that with a Ford a missionary can do eight times as much work as on foot. It is figured that more savages can be brought to the religion of the western world thru the aid of Fords in a year than have hitherto been converted in 15 years. All of which shows you can never tell what Ford is up to or capable of doing.

A Joint Meeting That Concerns the Race People

The Amalgated Meat Cutters and Butcher Workers had a joint meeting with Stock Yards Labor Council [illegible] delegates were present.

At this meeting all the officers of both organizations resigned and submitted their [illegible] to the delegates.

The difference that has for some time existed between these organizations was thrashed out at this meeting and the following officers were elected.

Martin P. Murphey, President; Victor Kroll Vice Pres.; J. W. Johnson, Fin. Sec. & Tres.; P. J. Griffin, Rec. Sec. The Executive Board is as follows: John Kikulski, Walter Gornied and Robert Bedford (colored).

Hndreds of colored men are associated with both of the above organizations and much depends on the harmony and results of their activities. The colored men were gradually receiving more consideration and recognition as is seen by the placing of a colored man on the Board of Directors.

Clio School Expands

The Clio School of Mental Sciences 3543 State St., in order to extend the scope and usefulness of its work has incorporated itself under the laws of the state of Illinois and has received its charter.

Since its incorporation a group of students of present and former classes, with the consent of the Board of Directors, have formed themselves into an executive promotional committee for the purpose of engaging in an active publicity campaign, in order that the exact value and scientific worth of the subjects taught at the school may be widely known in Chicago and vicinity; and the masses brought in contact with its worth and usefulness. This committee held its first meeting at the home office of Mme. Carter's Beauty Culture School, 4509 Prairie Ave., on Friday evening 20, inst. Foundation plans were then laid for the coming campaign. The members of this booster committee are: Mesdames Ezella Mathis Carter, G. E. DeBaptist Faulkner-Ashburn, Emma Smith, Irene McCoy-Gaines, Prof. Adena C. E. Minott, Messrs. Tony Langston, Ford S. Black, Wm. D. Neighbors and Major John R. Lynch. The committee will meet again next Thursday Evening at the same address.

The incorporators and Board of Directors of the Clio School of Mental Sciences are: Hon. Richard T. Greener, Major John R. Lynch, Mr. Anthon Overton, Rev. Father J. H. Simons and Prof. Adena C. E. Minott.

Why Colored Workers Are Generally Anti-Union

Continued from page 1.

tivity can silence and suppress:—if not eliminate and exterminate much of it, by taking a courageous intelligent, concerted stand against injuries and offenses just as the other races generally do.

We might temporarily lose thereby, but the respect gained from employer and fellow workers as well as the moral effect on the colored workers themselves would more than repay any loss thus occasioned and return soon an interest of two hundred per cent on the investment.

(8). Because of Un-belief in the sincerity of the White man's invitation to come into Organized Labor.

We have frequently been interrogated thus—"Why is it that the White Union Man is at this period so vigorously soliciting colored membership? The answer is not very difficult to explain. At this time the entire social system of the country is upset and unsettled because of abnormal conditions developed during the war. A titanic struggle is going on in the many varied fields of operation—this being a brief formative era for the social systems of the nation. To be sure the labor movement is as much involved as any other agency in the general attempt to formulate, as it were, principles or customs, under which to be governed and operated until the next upheaval of affairs puts our system again in topsy-turvy position.

Just now the colored worker is a factor in the Labor movement. He has again the opportunity that was his at the close of the Civil War, namely; to be interwoven into the economic fabric of this republic. His former opportunity to become assimilated into the circles of American Organized Labor was lost when the mania of importation of European labor struck the capitalists of this country. He was pushed aside for the period and ceased to be a factor in the movement. He was not only unmolested in his unorganized state, but was even barred out by many organizations of which many still flourish. The forces of organization were directed on the imported for- [illegible]

The Police Department shou-

[illegible] capitalists [illegible] rted him here in large numbers some years ago for speculative purposes, are having laws made that they may deport him away from here. They hope to use us (the colored workers) for a period before we wake up, even though they permitted the American and foreigner to push us aside until their (the capitalists) rotten system of wage slavery was endangered.

The proof of the foregoing assertions is reflected in the attitude of certain labor organizations. The Knights of Labor founded in 1869 as well as the National Labor Union founded three (3) years earlier discarded all distinctions of race, creed, or color. The American Federation of Labor, founded in 1886 started on the same principles, but, we are told it soon instituted the system of separate unions and in 1902 passed a from local unions, city or central resolution excluding colored men labor bodies. This condition, however, has been adjusted recently and the Federation is now on a broader basis in that angle.

But our purpose is not to write a history of labor organizations, but to show why the colored worker is being sought by organized labor at this time. There are still, however, that discriminate but they generally assume an apologetic attitude rather than a boastful one for their narrow and backward stand.

Now, after summarizing all over available information, we come to this conclusion. The white man's invitation to colored workers is an experiment, and its sincerity will be commensurate with the success of the experiment. The colored man is now (as he was fifty years ago) in a position to aid organized labor in its fight against the avaricious capitalists who have no regard for laws, customs, traditions of humanity or anything that tends to disturb their system of dollar-getting; or he may by his inability to grasp the situation, or by his indisposition to wage his share of the fight for the common good of all, force labor to devise other methods of solving its present problems. In such event the colored worker must feel the force of the power of organized labor turned against him in an effort once more to eliminate him from whatever sphere of industry that his presence may tend to endanger the working-man's recognized standards of life. If such a course is the one out of the present deliberations then more harsh and rigorous discrimination will be practised than ever before, as a necessary measure.

We believe that organized labor is sincere as regards the colored workers, the measure being one of self-defense. In this way it becomes the plain duty of the colored worker to avail himself of the opportunity to correct some of the errors of the past committed when the race had little intelligence and no experience as free men and citizens of a democratic commonwealth. He must get into the movement and become a potent factor ever ready to fight vigorously for the good of all the workers, and for his rights as a worker. In this way alone will he merit respect and recognition from others.

One sad feature of the present disturbed times is the attitude of the guardians of the peace. The city police department which has failed to interfere with the Hyde Park and Kenwood Property Owners' Association and has mailed to cope with the bomb situation, endangering the liberties and lives of colored citizens thereby, find that they have men in plenteous quantities to try to hinder the work of organization of the Stockyards Workers.

Will some reader kindly suggest that some colored politician who has influence or a "pull" if necessary with his honor the Mayor, convey the information of these facts and recommend that those police who are kept around the yards daily with no other purposes than to try to impede the work of organization, that they be transferred to this section of the city where disorder reigns? Send them here where men meet openly and defiantly plot and pledge to deny liberty to citizens of our race. Send them here where lives and property of innocent individuals are unsafe and this for no just cause. In that way the workers will not only be allowed to reach some mutual agreement through intelligent organizations, thereby, lessening the chance of gross misunderstanding breeding prejudice and outrages; but police will be available to stamp out the mischief that is being performed because of the presence of these evils.

It has been the policy of members of the Stockyards Labor Council to refuse to work under supervision of police or soldiers, the contention being that when men are earnestly endeavoring to earn a livelihood by earnest application to some given line, there exists no need for the presence of armed forces. Better far, [illegible] struction rather than those of constructive nature. One condition of the walk-out of last summer after the riots, was the agreement, that, as distastefuly as was the proposition of again working with non-union men and women, the members of the Council would return to work wherever the militia and police were removed. This was done, and not one act of violence has occurred to justify any claim that working men will to any great extent injure each other if left alone.

We wish to add here than on last Sunday, February 22, 1920, a conciliatory meeting was held by representatives of the Stockyards Labor Council and the International office. The details will be given later.

ELGIN MOTOR COMPANY CONTINUES TO ENLARGE THEIR PLANT TO SUPPLY GREAT DEMAND FOR ELGIN CARS

ENLARGEMENTS FOR ELGIN MOTOR PLANT

Another new building is now nearing completion at the Elgin Motor Car corporation plant at 61st street and Archer avenue.

This is the latest of a series of buildings which the rapid growth of the Elgin company has made it necessary to erect. Ever since the Elgin company was organized, about four year ago, there has been continuous building activity, rush of orders at one time even necessitating the use of two huge circus tents to supplement the factory space under roof. S. C. Rieman, president and general manager, reports his organization still is compelled to decline orders.

The history of the Elgin Motor company is unique. It has probably made greater progress in the same length of time from its small beginning than any other company in the history of industry. It has grown in les than four years from a small plant occupying less than 8,000 square feet of floor space into a big, modern automobile factory covering over five acres of space at the present time. Work will soon be commenced on another new building, to contain 60,000 sjuare feet of floor space.

Give Rieman Credit.

In automobile circles the rapid growth and wonderful record of the Elgin company is ascribed to the unusual energy and constructive ability of the company's president and general manager, Mr. Rieman, who seems to have the faculty of making the visions of today become the actualities of tomorrow.

Mr. Rieman seems to deal principally in superlatives. He has built up the fastest growing company the industry has ever known and perfected a car that bears the title of "world's champion light six" on account of its winnings during the past four years.

In stock car races, reliability tours and economy contests the Elgin six has come thru with flying colors, winning victory after victory. In short, Mr. Rieman seems to have endowed the Elgin company and the Elgin six with the real Chicago spirit. He has built a car and a factory that are emblematic of Chicago hustle and industrial efficiency.

Have Big Earnings.

A late balance sheet of the compan shows its earnings have been at the rate of about 30 per cent per annum, which is a remarcable record in view of the difficult conditions all carmakrs have been meeting in the way of material shortages and handicaps of various kinds, due to abnormal industrial conditions.

From Chicago Evening Post.

One Man removed from the wheel another still burried.

Birmingham, Ala. Feb. 25th. — Up to a late hour tonight the body of Van Richwood, colored firemen, had not been removed from the wreckage of the head on collision between the Freight train on the Alabama Great Southern Railroad.

Van Richwood, it is feared has been burned to death at the bottom of a mass of smoldering debris.

Another colored firemen, A. Edwards, was found early this morning. His body had been badly crushed and his face marred beyond recognition. He was found pined to the Debris with a piece of steel through his stomach. The firemen both met their death through heroism. The white enginneers who were saved refused to comment on the fact that both colored men remained on the train despite the impending danger.

COLORED HOME BURNED.

Home at 34th and Rhodes Avenue was burned. It is stated that the fire was caused by a defective flue.

Baby Burned.

This property was owned by Anderson & Terrell and a colored baby of 5 was burned to death in the flames.

NATIONAL CO-OPERATIVE MOVEMENT TO IMPROVE COLORED SCHOOLS.

Hampton, Va., Feb. — The National Association of Teachers in Colored Schools, of which John M. Gandy, president of the Virginia Normal and Industrial Institute at Petersburg, Va., [illegible] set aside a national campaign week, February 22—28, during which time an effort will be made to interest colored people in a more thorough education of their children.

The Association, aiming to enlighten the public on the fundamental need of education for the young, will wage this educational campaign through the public press, the public, and mass meetings.

The Association will interest State Legislatures in the need of educating colored children through providing bettertrained and better-paid teachers as well as longer school terms, especially in rural districts.

The Association will also present the claims of the teaching profession to the student body in all of the colored secondary schools and colleges throughout the nation.

The Association's educational campaign will be conducted in full harmony with, and with the full knowledge of, the public school officials. It is a co-operative movement to improve colored citizenship through greater intelligence. Silas X. Floyd of 1025 Twelfth Street, Augusta, Ga., is the Association's executive secretary. — Wm. THE TRUTH ABOUT MEXICO

You won't find it in the capitalist press, of course. And you won't find it as fully as you wish in the American labor press because American editors have not access to the sources of information.

But there is one place where you will find it told uncompromisingly, fearlessly and from the standpoint of the working class. It is in the only magazine in Mexico published entirely in English,

Kaffir Chemical Laboratories Incorporate

Enterprising Omahans Launch Out Into the Commercial Field With a $500,000 Corporation.

Omaha, Neb.—The Kaffir Chemical Laboratories is the name of a new corporation which has just been successfully launched here and is destined to become, in the course of time, one of the biggest concerns of its kind, financed by race capital, in the country. As a small concern its goods have been on the market for some months, but it was decided to incorporate and go out after big business. To advertise and push its products required capital. This called for incorporation. This company, which has just been incorporated under the laws of Nebraska, one of the strictest states in the union on corporations, is engaged in the manufacture of pharmaceuticals, chemicals, drug preparations and medicines. The corporation's authorized capitalization is $500,000.00, divided into 50,000 shares at $10.00 each; 20,000 shares being common, and 30,000 shares 7 per cent cumulative preferred stock.

The incorporators who also form the board of directors, are Madree Penn, Grace M. Jones, vice-principal Piney Woods School, Braxton, Miss.; Eleanor C. Haynes; Dr. A. E. Fletcher; John Albert Williams; Fred C. Williams and Larry N. People. The officers are Madree Penn, president; G. M. Jones, vice-president; E. C. Haynes, secretary, and John Albert Williams, treasurer.

The company has on hand several thousand dollar's worth of preparations, including a pyorrhea preventive tooth paste, a face cream, an antiphlogistic compound, a blood antiseptic, a hair tonic and others of proven value, which it places upon the market simultaneously with its stock campaign. For several months the company has been quietly but effectively at work organizing and incorporating and lining up its resources and workers, and now enters the field of big business with every assurance of becoming one of the great successful [illegible]

[illegible] Negro Servant Given Home for Life

"10-Cent Bill" Yopp will have a home for life. Such was the decision of the board of trustees of the Confederate Veteran's Home at a meeting Wednesday afternoon. This agred negro, who has been an invaluable help to the home for many years was given a job there for the rest of his life.

The faithful old servant gets the latter part of his name from Captain Yopp, an inmate of the home, who is now at the point of death. Captain Yopp served through the Civil War with valor and fidelity and at his side through the years of the war and all the years of adversity that followed could be found "10-Cent Bill."

Since his "marster" was taken sick he has been constantly at his bedside, nursing him with tender and loving care. Yesterday, in appreciation of the faithful service of the old negro, both to the home and to Captain Yopp, the board decided to make him happy until he passes into another world.

The resolutions passed concerning "10-Cent Bill" were the only thing of importance done at the meeting, except the election of officers, all of the 1919 officers being re-elected. are as follows:

R. D. T. Lawrence, Marietta, president of board; E. H. Thornton, secretary of board; W. E. McAllister, superintendent of home; J. S. Kennedy, of Atlanta National Bank,

Lake Park Hospital Now Under Supervision of Board of Directors

Plans Under Way to Make it the Best Equipped Hospital Owned and Operated Exclusively by Colored People.

The appearance of a well regulated first class hospital offering the best service, tender care and pleasing courtesy to patients and visitors, owned and operated exclusively by race people, is a source of great comfort to citizens who have impatiently waited the time when the colored people of Chicago would rise to the growing needs of the rapidly growing population.

The founding of Lake Park Hospital fills one of the most noticeable vacancies in our community, as there has long existed inadequate hospital accomodations for the proper medical treatment and nourishment necessary to give satisfying results even in the mildest forms of physical affliction. The need for an up to date conviently located hospital has been many times emphasized by the undisputable fact that persons have been forced into the isolation of the County Hospital because they could not obtain accommodations elsewhere.

Lake Park Hospital solicits the patronage and investigation of the public. In making application for admission one need not feel the fear of being rejected as their rates are within reach of the humblest purse.

It is located at 4147 Lake Park Ave., overlooking beautiful Lake Michigan and at all times the beneficiary of its refreshing breezes, but luxuriously comfortable in the severest weather.

The Board of Directors have in contemplation many improvements including exterior decorations and the opening of a Post Graduate School as soon as the condition of the hospital will permit. The very latest and most scientific course for training will afford many of our young women an excellent opportunity to engage in this lucrative profession. The newly organized Board of Directors now working so diligently to put Lake Park Hospital upon the [illegible] following [illegible] persons: Rev. J. W. Robinson, chairman; W. H. The hospital will celebrate its first anniversary Monday evening, March 1st at St. Marks M. E. Church, 50th & Dearborn Sts. The public is invited to attend.

Young Colored Man Killed.

Bentenville, Feb. 24.—L. B. Grey was shot and instantly killed last night by Herbert Claypool. It is said the shooting followed Grey's alleged attentions to Claypool's wife. Grey came here a few days ago from Canton, Texas. Claypool surrendered to the sherif immediately after the killing and was placed in jail on charge of murder.

treasurer of board; George S. Owens, steward of home; E. M. Branch, steward of hospital; Dr. L. C. Brewer, surgeon; Dr. J. S. McFall, rector in charge.

After the meeting the board of trustees and the officers were given a dinner by the superintendent and the inmates and after the dinner a musicale and movie program followed.

Arkansas Cotton Growers Short of Help

Little Rock, Ark., February 27th.—That the emigration of colored people from Arkansas and other states in the Cotton Belt has seriously affected the production of cotton was testified here, when a member of the Chamber of Commerce reviewed the cotton prospects for this year.

Mr. Carpenter, the man referred to stated that the biggest factor in this year's cotton production would be the shortage of labor and without would fall far short of the demand.

Mr. Carpenter said that because of the losses suffered last year through new methods of production the crops would fall far short of the demand.

Mr. Carpenter said that because of the losses suffered last year thru shortage of labor many farmers, especially the smaller frys intended to seed down more land and plant other crops.

A number of farms, he stated, that formerly ginned 500 bales will be able to gin only 100 this year because of the shortage of pickers. Mr. Carpenter's talk was virtually an admission of the supreme importance of the colored man in Cotton Industry and further a testimony of the power the colored man, in that capacity, has over the white farmers. Farmers in Arkansas have been making great concessions to their laborers in an effort to check the emigration north, but in a majority of cases their efforts have been unavailable.

Shortage of farm labors is not just now a condition peculiar to the South and there is reason for believing that the causes of the shortages in other sections are identically those of the sortage in the South. Particularly in Arkansas, the recent trouble subsequent upon the riot troubles at Elaine have promoted an intense desire to escape the net of semi-slave like conditions prevailing there. Colored refugees are to be found all over north.

There is a widespread desire on the part of the farm hands all over the country to get away from the long hours and poor pay of the farms. The prospect of high wages in the city with shorter hours and more amusement has proved an alluring [illegible] an acute problem [illegible] mediate future. In many states tenancy farming has reappeared. White tenant farming is deplorable, yet it seems one way to meet the situation.

If the colored man has been effected with the same emancipatory fever, then a large part of the race has taken a distinct step upward. The step is revolutionary, because it represents a mental turnover, a psychological reverse. It is indictive and expressive of a new spirit, a spirit not only of revolt against repressive conditions, but against the same condition that the white help find unsatisfactory. What it means is that the colored farm hands is one with the white farm hands in a spirit that is universal. What it means is that the colored farm hand is abreast of the time, that he is alive to the vast changes that are at present effecting the economic structure in a world, that he is no longer a group apart from the collective life of the nation, a group uneffected by the march of progress, but rather an integral, an organic part of the American body politic and economic.

Negro Conference Charges Railroads With Discrimination

Tuskegee Institution, Alabama, February 10.—Reaffirming its opposition to the alleged discrimination practiced by railroads and other common carriers and holding as indefensible the alleged practice of charging negroes first-class fare and providing them with third and fourth-class accommodations, the declarations of the twenty-ninth annual Negro conference at Tuskegee were adopted here today, following talks by prominent white men, as well as negro workers gathered for the sessions.

Lynching is deplored and its practice held as a "cure for nothing." "If negroes commit crimes, they should be punished by the courts, not by lynching," th declaration sts forth. Insistence on better and fairer methods for adjusting many of the ordinary differences between the races is voiced and the white and colored leaders in every community are urged to co-operate and help make the south the finest example in the world of people of different races living together in mutual respect and helpfulness.

Members of the race are urged to profit by the lessons of industry and thrift so effectively taught during the war, and negro farmers are especially urged to grow sufficient food for their families, for stock and to raise more and better poultry, hogs and cattle. Increased values of farm products and wages which negro men are now enjoying should result, the conference holds, in better homes, schools and churches. "And even with better homes, there can be no assured or abiding progress without a decided increase in the intelligence [illegible]

Brakeman Murdered in Cold Blood in Mississippi.

Nettleton, Miss., March 8.—After declaring that he would get all of the colored brakemen off the Frisco System or kill them off, Fred Lewis, white, proceeded to carry out his threat by deliberately shooting in cold blood James Henderson, colored, on Train No. 682.

Not satisfied with the mere taking of a human life Lewis in true Southern Barbaric style proceeded to beat the brains out of the unfortunate Henderson with a club.

Lewis attempted to provoke an argument with Henderson but the colored man refused to enter into any altercation. This fact seemed to infuriate Lewis who proceeded to maul the colored man with his fists, reviling him all the time.

Lewis then drew his revolver and shot the colored brakeman, emptying all the chambers of his revolver.

Feeling is running high and many white persons are incensed at the wanton killing of an innocent man who had given no provocation or who had offered no resistance. Up to the present time Lewis is at large.

Dr. Emmett Scott Speaks Before Industrial Conference.

Dr. Emmett J. Scott, Secretary-Treasurer of Howard University spoke in behalf of the colored man before the Industrial Conference in Washington last week. He presented the claim of the colored worker and afterwards leading questions from members of the conference caused a general discussion of the whole race question.

The tenor of this discussion was friendly and had for its purpose the bringing to light the many phases of what has been made an apparently difficult and intricate problem.

Ane[illegible] Lawyer Takes [illegible] of His Race.

Major Adam E. Patterson, recently of the Judge Advocate Genearl's Department, has reestablished his law offices at 129 East 31st Street in the old Avenue Hotel Building. It will be remembered that lawyer Patterson was the only member of our race to receive the distinction of being commissioneed with the rank of Major in the legal department of the United States Army in France. We already knew that Mr. Patterson had a national reputation both as a good lawyer and as a race man hence we were certain that he would make a record for himself as a soldier. In an interview iwth the Major a few days ago with reference to the outcome of the trial of the fourteen Camp Grant soldiers, Mr. Patterson said that of the six men acquitted two had been sentenced to hang by the former trial court and that the eight convicted would sooner or later be released or he would go to the United States Supreme Court. A visit to Major Patterson's office convinced us that the old Avenue building on 31st and Indiana Ave., in which some of our most prominent professional men are located, is a very popular corner.

Colored Men Organize To Secure Race Representation In Congress.

The National Negro Congressional Campaign Committee has been organized in New York City with Mr. Robert T. Waring as Chairman. The purpose of the organization is to see that colored men are elected to Congress. Literature of this organization has already gone out to all parts of the country in the first attempt to get colored people in the various parts of the country ready for their next effort.

FROM THE LIBERATOR.

A California soldier has been notified three times by the war department of his death in France, yet he persists in being sceptical. People do not have the implicit faith in the government that they used to have.

The question arises, is this excessive woodishness due to a scarcity of coal or merely a scarcity of presidential timber?

AWAKENING

The opinion of Atty. General Palmer, that there was a growing tendency towards racial consciousness among colored people, is one of the few of his opinions that does not invite controversy. The colored people are slowly but surely being aroused into a state of unrest and dissatisfaction. If this awakening or racial consciousness is to be construed as the off spring of radicalism, then Radicalism is the hope of the race.

The colored people without seeming feeling, apparently oblivious to cause or effect, have lived through lynching festivals, riot pandemonium, Jim Crow warfare, discrimatory legislation. They have been unconscious as far as action is concerned to the high cost of living, to the robbery of land lords and multifarious insults. They have not yet resorted to reprisals, nor have they plotted vengeance or violent reaction. The awakening has been evidenced by a bolder note struck from their press, by a sterner defense to life and property and by a vague and feeble effort to organize. This according to the South is the embryo of an uprising.

THE COLORED PEOPLE OF AMERICA MUST RISE UP AGAINST ALL CONDITIONS THAT MILITA[illegible] AGAINST THEIR PROGRESS AND SOLIDARITY. THE[illegible]UST RELEAVE THEMSELVES OF ALL SLEEPING POT[illegible]NS AND

THE NEGRO AND CHICAGO, PAST AND PRESENT

By Lieut. J. E. Hawkins

ARTICLEi VII.

Elisha Winslow.

Elisha Winslow, was born in Highland County, North Carolina, and came to Chicago in 1856. Previous to his coming to Chicago he had been a resident of Wilmington, Ohio, this being the first resident he had in the North. Mr. Winslow stands unique as he is one of the few survivors of slavery and was transported to Ohio over the famous "Underground railway", and many of the very interesting narratives he tells of his journey in connection with his trip on the "Underground" would fill a few chapters. At the present writing Mr. Winslow enjoyes the dictinction of being the only living survivor of the famous "Lady Elgin", a steam-boat that foundered off the shore of Racine, Wisconsin, about 1859. The "Lady Elgin" was an excursion steamer and was loaded with over 600 passengers from Chicago and making the round trip to Milwaukee; a violent storm came up and the boat was unable to make port; it was an old side wheeler and one of the first steamers to ply the lakes. Mr. Winslow was employed as a waiter and was below in the dinning room when the boat began to sink and in company with the cook John Collins, also colored, they went on deck and grabbed life preservers and jumped into the raging waters. "It was during a big storm and the thunder and lighting was such as I have never witnessed before nor since. [illegible] Collins, [illegible] I managed to

rested and made a request that he serve him whenever he was a guest; during these occasions Mr. Lincoln, would question him about his experience as a slave and as to the workings of the "Underground". Many of the facts gleaned from Mr. Winslow, were used after he became President and some of them were the instruments used to empress the Cabinet with the necessity of issuing the Proclamation of Emancipation.

After the advent of the Sleeping and dinning car service Mr. Winslow gave up the hotel business and entered the employe of the Pullman company and was one of the first porters to make the third run to California, and remained in the service for 35 years, or until five years ago when he was placed on pension.

"I am a charter member of the North Star lodge of Masons, which was the first lodge organized in the State of Illinois for colored people. I remained active in this lodge until it grew so large we decided to set up another; I then as one of the men selected to organized what later was called the "John Jones lodge." We met at the "Hawkins House" and the lodge was set up. The "Hawkins House" was the best place in Chicago, where a colored man could stop and altho it was owned and operated by a colored man it was patronized by many white people. William Hawkins, came to Chicago from Fremont, Ohio, at which place he owned a farm. He was also connected with the "Under-

THE NEGRO'S NEGATIVE POWER

By a vote of 106 to 17 the Democratic caucus of the House of Representatives at Washington disregarded the advice of President Wilson and made opposition to universal military training the party creed. With the Republicans divided on the question, there was no prospect of legislation by the present Congress, and for that reason, if for no other, the President's sugestion that the caucus refrain from committing Democrats in advance of the National Convention was eminently wise.

Republicans have been clever enough to keep their disagreement under cover, but the minority, made up mostly of Southerners and dominated as usual by parochial leaders, has gone boldly on record without regard to consequences. Thus the policy of a great party is determined once more by the color line. Because the South wanted to deprive the Negro of strong drink, Democratic doctrine has been repudiated and our system of government revolutionized by Nation-wide Prohibition. Because the South objects to the training of the Negro, the Democratic party is made responsible for a premature and unrepresentative declaration which will most certainly be used to its disadvantage.

Statesmanship that never rises above a purpose to subjugate a race is of a poor order and accounts for most of the deficiencies of the Democratic Party today. The political alignment which makes Democratic representation in Congress almost wholly Southern, although Northern Democrats constitute a vast majority of the voters, would be bad enough if it were merely sectional. When it has no inspiration but hostility to the Negro, no aim but to keep him down, no principles that he cannot frighten into abeyance and no sense of right or justice that rememberance of him does not instantly stifle, the situation becomes insufferable. No true Democratic Party can be officered in this fashion and [illegible]—New York

TO NEGRO "LEADERS"

Come forth ye lackey leaders
(Bought out with jobs and gold)
And look upon your people,
The race which ye have sold.
And though you see us suffering
The things conceived in Hell,
Go back to your white masters
And tell them all is well.

Tell them that we are happy
Contented with our lot,
Proud to be segregated,
Glad to be burnt and shot.
That we would have more sorrow,
More insult and despair,
That there is not a burden
Which we'll not meekly bear.

For we have heard your council
"To wait and not complain,
That while the nation's fighting
The Negro should refrain
From speaking up for justice,
For life and liberty,
Lest he should be a traitor
To world Democracy".

Yea, go back to your owners
And tell them (as you eat,
The crumbs around their table
The dirt upon their feet),
That we are still "dead easy,
Serene and satisfied",
And tho' 'twill make them chuckle,
They'll know that you have lied!

ANDREA ROZAFKERIEFO.

STOP, LOOK, LISTEN

(Cleveland Press.)

About 1560 persons were killed at railroad crossings in the United States last year. Most of them were in automobiles. Some didn't look; others didn't listen, and very many tried to beat the train across the tracks.

Men waste hours and hoard seconds. A fellow will loaf [illegible] ahead of a train, to save a minute! It's a poor sort of thrift.

What's the hurry? It's better to get there late than not at all. Everybody knows this, of course! But the headline that tells of a family wiped out at a railroad crossing has become a commonplace of the day's news.

"Stop, Look, Listen!" is the classic among snappy slogans. Everybody knows it by heart, but nearly everybody forgets it when he needs it most.

LAW OF AVERAGES

(Cleveland Press.)

Gamblers used to be the only ones that used the law of averages. By it many men have tried to make systems to beat the bank at Monte Carlo.

But now the law of averages is a basic scientific law of business. Fred C. Kelly tells about it in his new book, "Human Nature in Business." Here are some of the Workings of the law of averages in the business world, as told in Kelly's book:

One man out of every three wears a 15 collar, bout size 14 does not fit one man in ten. Out of every 1000 men 230 wear size 6⅞ hat, but only one man wears size 6½.

Ticket sellers at circuses pick up an average of $20 apiece for each performance, left by people who walk off and forget their change.

Rain in the forenoon hurts business. Rain in the afternoon helps business. The shady side of a street has 24 per cent more pedestrians then the sunny side: It is the cooler side in summer and the drier in winter. A business man can be enticed away from work most easily on Wednesday afternoon. Wednesday also is the best day to sell him goods.

The largest mail order business in the world weights each wagonload of mail and, by the law of averages, instantly knows how much money it contains.

Of 1000 customers in a restaurant 67 will order soup, 14 order fruit, 288 order pie or ice cream and 335 will [illegible]

reckoning [illegible]

The Police Department [illegible]

[illegible] imported him here in large numbers some years ago for speculative purposes, are having laws made that they may deport him away from here. They hope to use us (the colored workers) for a period before we wake up, even though they permitted the American and foreigner to push us aside until their (the capitalists) rotten system of wage slavery was endangered.

The proof of the foregoing assertions is reflected in the attitude of certain labor organizations. The Knights of Labor founded in 1869 as well as the National Labor Union founded three (3) years earlier discarded all distinctions of race, creed, or color. The American Federation of Labor, founded in 1886 started on the same principles, but, we are told it soon instituted the system of separate unions and in 1902 passed a from local unions, city or central resolution excluding colored men labor bodies. This condition, however, has been adjusted recently and the Federation is now on a broader basis in that angle.

But our purpose is not to write a history of labor organizations, but to show why the colored worker is being sought by organized labor at this time. There are still, however, that discriminate but they generally assume an apologetic attitude rather than a boastful one for their narrow and backward stand.

Now, after summarizing all over available information, we come to this conclusion. The white man's invitation to colored workers is an experiment, and its sincerity will be commensurate with the success of the experiment. The colored man is now (as he was fifty years ago) in a position to aid organized labor in its fight against the avaricious capitalists who have no regard for laws, customs, traditions of humanity or anything that tends to disturb their system of dollar-getting; or he may by his inability to grasp the situation, or by his indisposition to wage his share of the fight for the common good of all, force labor to devise other methods of solving its present problems. In such event the colored worker must feel the force of the power of organized labor turned against him in an effort once more to eliminate him from whatever sphere of industry that his presence may tend to endanger the working-man's recognized standards of life. If such a course is the one out of the present deliberations then more harsh and rigorous discrimination will be practised than ever before, as a necessary measure.

We believe that organized labor is sincere as regards the colored work-

[illegible] structive nature. One condition of the walk-out of last summer after the riots, was the agreement, that, as distastefuly as was the proposition of again working with non-union men and women, the members of the Council would return to work wherever the militia and police were removed. This was done, and not one act of violence has occurred to justify any claim that working men will to any great extent injure each other if left alone.

We wish to add here than on last Sunday, February 22, 1920, a conciliatory meeting was held by representatives of the Stockyards Labor Council and the International office. The details will be given later.

(To be continued).
